MONMOUTH COUNTY ACCESSIBLE BEACH GUIDE

*For those we lost,
We will never forget.*

9/11/01

Welcome to Monmouth County's 2011 Accessible Beach Guide. This annual guide includes information about accessible beach walkways and ramps, parking, curb cuts and surf chair availability. It also provides details about 2011 beach fees, lifeguard hours and amenities.

The information is organized alphabetically by town. Municipal phone numbers and Web sites are provided for you to contact the towns directly for specific information that you may require.

This guide is updated each year by the county's Office on Disabilities that is part of the Monmouth County Department of Human Services. The staff provides information, referral and advocacy for persons with disabilities and their families and serves as liaison to state and non-profit agencies that provide assistance to residents who need to access services.

Additionally, the staff works closely with the county's Office on Aging and Veterans Services, so please contact the staff if you are in need of these services, information or resources.

For questions about this publication, contact Sue Moleon, MA, Director of the Monmouth County Office on Disabilities 732-308-3770, ext. 3599.

Have a safe, happy summer and we hope to see you at the beach!

Seated: Deputy Director John P. Curley, Director Robert D. Clifton, Lillian G. Burry
Standing: Amy A. Mallet and Thomas A. Arnone

Definitions of frequently used terms

Curb cut - A small ramp built into the curb of a sidewalk to eliminate physical barriers and ease passage to and from the street.

GSP – Garden State Parkway

Mobile beach mat - A multi-purpose, portable and rolled-out hard surface mat that is used as a walkway or roadway. These mats make it possible for a person using a wheelchair, stroller, cane, or walker to access the beach. The mats are often extended to a beach's high tide mark. Sometimes the mats are called by their trade name of Mobi-Mats®.

Surf Chair - A rustproof wheelchair with wide tires that can be pushed easily in sand allowing access to most surface areas of a beach.
