PRICE PROPOSAL

NORESCO is proposing the following fee rates to the County:

Electricity: \$0.00065/kWh

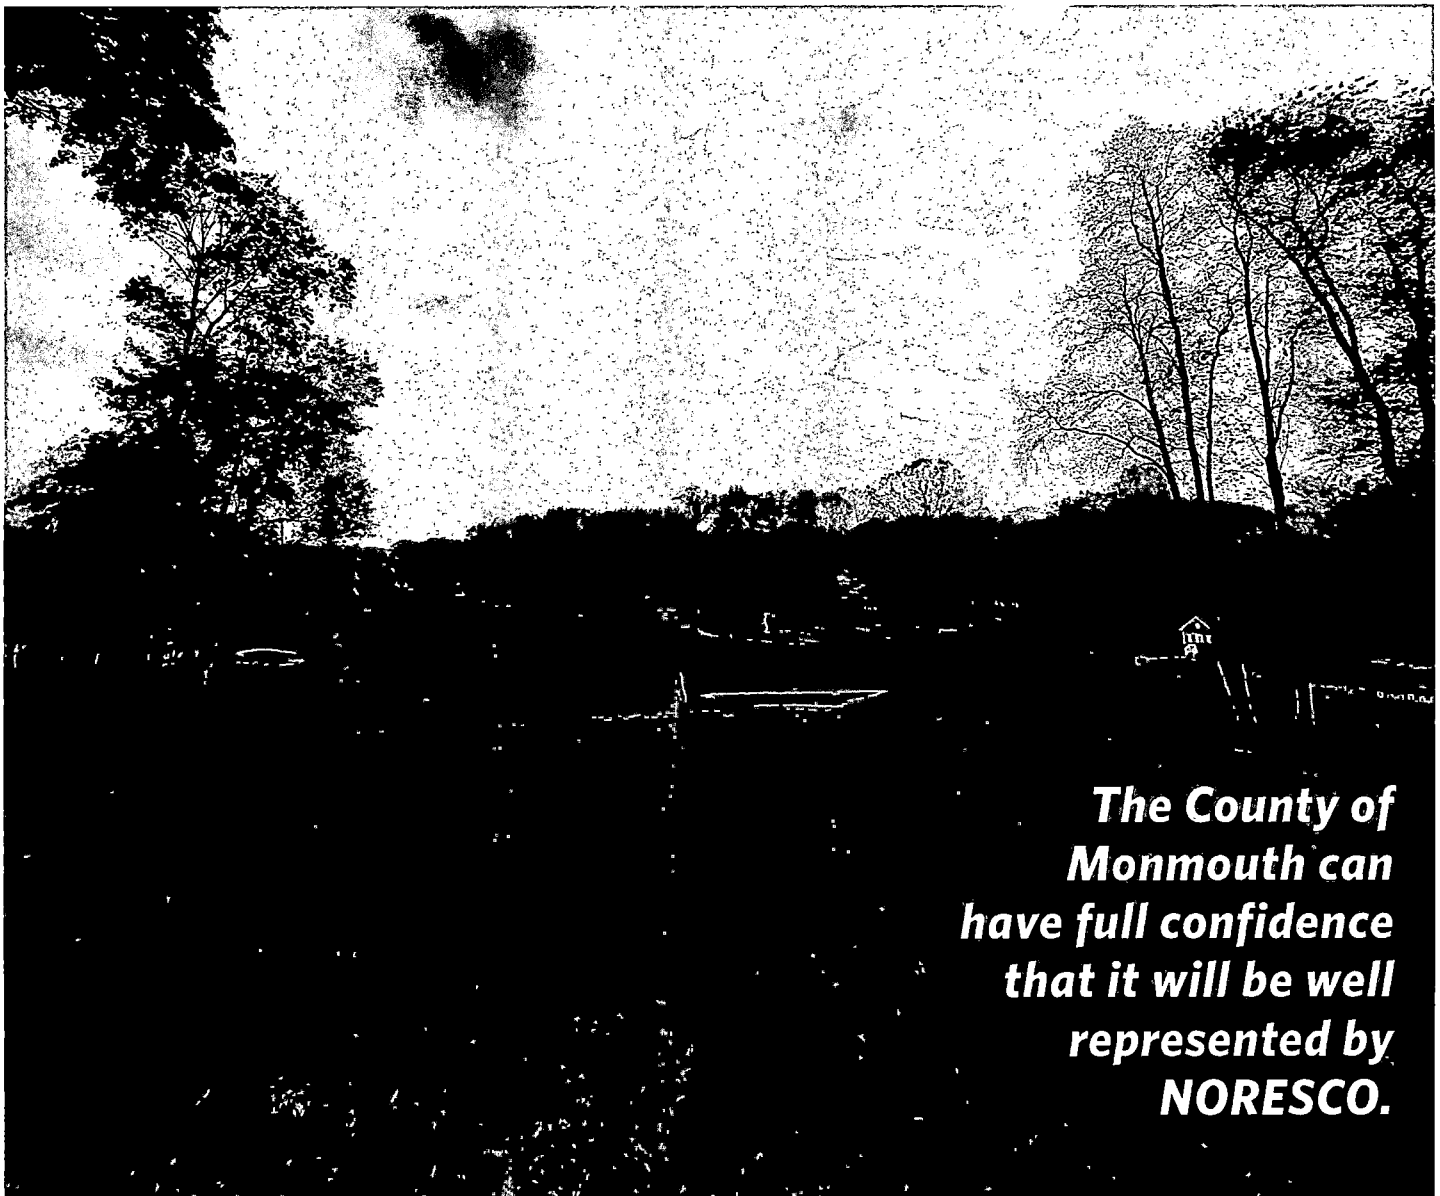

Natural gas: \$0.15/Dth

Under this fee structure, there is no out-of-pocket cost paid to NORESKO by the County. The consumption-based fee is paid to NORESKO by the

successful energy supplier(s) for the term of the resulting agreement(s) entered between the County and the supplier(s).

For reference, based on the estimated energy consumption values provided in the RFP, NORESKO's projected annual fee amounts would be \$22,311 for electricity and \$16,522 for natural gas.

NORESCO's fee rates will remain unchanged, regardless of the methodology utilized to receive pricing (reverse auction, traditional, electronic, etc.). As desired by the County, Noresco will offer its thoughts and recommendation with regards to which methodology is expected to be most effective for each bidding process.

***The County of
Monmouth can
have full confidence
that it will be well
represented by
NORESCO.***
