

Effective May 4, the following interim changes in conjunction with [Executive Order # 133](#) will be made at Monmouth County Park System Golf Courses:

1. Golf courses will be open for prepaid rounds only. Prepayment must be done through the reservation system. Tee time intervals will be spaced 16 minutes apart and limited to two golfers per tee time. There will be no exceptions for immediate family members.
2. Electric golf cart rentals will be available on a first come, first served basis limited to single occupant only. As per the executive order, immediate family members are able to share a golf cart. Payment by phone will be required on the day of play immediately before your tee time by calling the golf center upon your arrival.
3. Greens Fees will be reduced to the Resident Senior rate for all golf cardholders. No other discounted rates or specials will currently be available.
4. The golf center buildings, including restroom facilities, will be closed to the public. Porta-johns will be available.
5. The golf courses will not offer hand carts, water coolers, bunker rakes, ball washers, or benches. All driving ranges, putting greens, practice areas, and the short game area at Charleston Springs will be closed. No tee markers will be on the golf course and inserts will be placed inside putting green cups to make golf balls easily retrievable without removing the flagstick.
6. FootGolf courses at Bel-Aire and Pine Brook will be closed to the public.
7. Advanced tee time reservations will be limited to 2 days in advance for all cardholders. In the event you need to cancel your pre-paid rounds, you will need to contact the golf course where you made the reservation. The system cannot cancel your tee time and automatically reimburse your funds.
8. The resident golf cardholder loyalty point accrual will unfortunately need to be temporarily suspended.
9. Golf card sales are currently available via the golf centers. Please call them prior to going to the golf courses. We are also working on developing an online sales option and will notify everyone once it is available.

It is recommended that you review [Executive Order #133](#) as it pertains to golf as the restrictions will be strictly enforced. We appreciate your patience in these difficult times as we attempt to offer golfing opportunities in a responsible manner. Please check back frequently as this continues to be a fluid situation and may change at any moment.
