## Protect Your Parks

The Park System preserves and manages natural and cultural resources on more than 17,000 acres of land in Monmouth County. Protecting water quality, eliminating invasive plant species, and promoting healthy wildlife habitats are just a few objectives.

Please help protect the park by leaving flowers, plants, animals and other features as you found them; adhering to posted park rules; using designated containers for trash, recyclables and pet waste; and keeping your pets leashed. Possessing or consuming alcoholic beverages is NOT permitted.
