Meet Bekah Koutsos

2 Star Licensed Parelli Professional

Horses have always been Bekah's passion. She has known from a very young age that she wanted to help people using horses as the catalyst. For over 23 years, Bekah has been investing in her horsemanship journey...taking riding lessons, attending horse camps, working at numerous barns and under many equine professionals. Knowing that she wanted to pursue a career in horses, Bekah set out to learn all she could. While in college she volunteered for all the specialty programs that were offered within her major. One of these programs took her to England to attend

the Talland School of Equitation where she studied Classical Dressage, Equitation and Eventing from several Olympic and internationally competitive riders. At the completion of this program, she was certified by the BHS (British Horse Society) as an instructor. She also attended a course at the High Hopes Therapeutic Riding Center in Old Lyme, CT and received her NARHA (North America Riding for the Handicapped Association) Certification as a Therapeutic riding instructor. Bekah received her bachelor's degree in Equine Business Management with concentrations in teaching, training and therapeutic riding. After college, Bekah became certified through ARIA (American Riding Instructor's Association) in Level 1 Hunt Seat.

With her heart for horses, people and continual learning, the Parelli Program was a completely natural progression! In 2005, Bekah began her Parelli journey, originally thinking it was exactly what she needed to help many of her rescued and "problem" horses. Little did she know it would impact her relationship with ALL of her horses and students! She quickly rose through Level 3 with her "main squeeze" Genesis whom she continues to

develop through level 4. Her dream of becoming a Parelli Professional emerged.

In January 2009, Bekah attended an 8-week module at the Parelli Center. She was thrilled when she was asked to participate in the Extern Program! After completing a 12 week Externship at the Parelli University, Bekah was awarded the honor of being a 1 Star Parelli Professional! Then in January of 2010, Bekah received her 2nd Star while attending a one week follow up instructor course.

At her facility in South Carolina, Dark Horse Equestrian Centre, Bekah offers private and semi-private lessons as well as weekly play groups, clinics and boarding. Bekah also travels throughout the southeast and midwest teaching. She brings her passion for horses, for assisting her students on their journey through Parelli Natural Horsemanship and the focus of never-ending self improvement with her in her lessons, clinics and workshops. Her goal is to help her students to be the best that they can be for their horse and to help them achieve their individual goals.

Bekah enjoys Endurance, Dressage, Eventing, Show Jumping, working cows, driving and equipping young horses with the foundation that they need for success in any discipline. She has over 12 years experience training, teaching, starting horses and working with problem horses. With such a wide variety in her background and hundreds of horses handled, she has a lot to offer her students.

Natural Horsemanship Clinic Schedule and Course Descriptions

Horse-less Horsemanship Workshops

Would you love to understand how to speak the language of horses, but don't own a horse? Are you are unable to bring your horse to participate or are not sure if Parelli is the program for you? This is the class for you! Using simulations and games Bekah Koutsos will help you understand the way our horses communicate with their friends in the herd naturally. Get familiar with the tools and games used to communicate and develop a language with our equine friends. Class size is limited to maximize hands-on time. Auditors are welcome at all classes for a fee of \$25. Pre-registration to audit is not required.

Communicating with Savvy - People often say that horses can "smell fear." The truth is it has way more to do with their perception of the human's body language than with their nose! Gain a deeper awareness of your body language and how it communicates with your horse. Learn how to bring your life (energy) up and down, how to use rhythm and patterns to communicate with your horse, and how to savvy horses!

Tuesday, June 28th 5:30-6:30 pm..... \$35.00
Wednesday, June 29th 5:45-6:45 pm..... \$35.00

Savvy Seat - Fluidity in riding is learning how to equally "flow-with-the-go & go-with-the-flow"! Learn how to unlock the mystery of staying relaxed on a moving animal. Dramatically improve your seat, balance and confidence so you can stop relying on your reins for balance and learn how to have a truly "independent seat." Through simulations, learn how to follow the movement of the horse, "unlock" stiff places, and relax and engage muscles as you need them. Then learn how to isolate, separate and recombine common riding maneuvers to help you execute them better the next time you ride.

Tuesday, June 28th 6:45-7:45 pm..... \$35.00
Wednesday, June 29th 7:00-8:00 pm..... \$35.00

Safe and Savvy Trail Riding

Saturday, July 2nd 2:00-5:00 pm \$115.00

Trail riding can be the most relaxing and enjoyable time spent with your horse, but it can also be frustrating and frightening if you or your horse are unconfident on the trail. Jigging, spooking, and bolting are many of the problems a lot of riders face when taking their horse into unfamiliar territory. Join us for this trail riding class and set you and your horse up for success! Start on the ground in the arena and learn the prior and proper preparation to determine when you and your horse are ready to hit the trails, build confidence for you and your horse, and gain natural trail safety and savvy tips to make your experience fun and exciting. Then, with your new skills you'll go on a trail ride (or trail walk if you don't feel confident in the saddle) and practice your new skills. Don't miss this opportunity to go on a trail ride with a Par-elli™ Instructor! *Approximately half the time will be spent with ground skills and half on riding skills. Each participant will only move on to riding if both the horse and rider are ready.*

Trailer Loading De-Mystified!

Saturday, July 2nd 9:00am-12:00 pm..... \$115.00

How many times have we seen this: Someone is trying to load their horse after (or before) a show. The horse won't load, so a crowd starts forming, people bring out brooms, whips, ropes, and all kinds of contraptions, join arms behind the horse to push...the list could go on and on. More often than not, the horse, human, or both, end up with injuries and both have a horrible experience. We often get so frustrated when our horses won't "load right up" into the trailer. Meanwhile, our horses think we're the crazy ones to even ask such a thing! To them it looks like the ultimate death trap...horses know that they taste good, and they also know that bears live in caves...not them! Horses are extremely claustrophobic by nature and the trailer is the ultimate "squeeze." They have to step up onto something, between two walls, and under the roof, with something surrounding all sides. They know that they are trapped, no way out, and if something bad happens, they're done.

Learn how to build confidence in your horse and develop the communication to break down the trailer loading process into manageable steps that your horse will accept and even welcome. Make the trailer the ultimate "sweet spot" and make it an extremely positive experience for your horse!

Prerequisite: Horses must be weaned and accepting of the halter and being led. **Equipment Needed:** Rope Halter, 12-foot line, Carrot Stick and Savvy String

Recommended Resources: New Parelli Level 1&2 Pack On Line, Success Series #1 & #2 (Horsenalities & The Seven Games—The Secret to Teaching Horses Parelli)

Begin the partnership! Discover how to communicate, gain respect and trust, and the safe, savvy way to do everything with horses! This introduction clinic is On Line (on the ground) and will introduce you to the ABC's of the language of horses as developed by Pat Parelli, the Seven Games of Parelli Natural Horse-Man-Ship, and the theory behind them. This knowledge will help you to understand how horses feel, think, act, and play. Through this understanding you will build a relationship that leads to more fun, safety, and results. You will be able to sensitize your horse to the things you would like for him to be sensitive to and desensitize him to stimulus that doesn't need to mean anything.
