Monmouth County Park System

Turkey Swamp Park
Freehold Township, NJ

Welcome to Turkey Swamp Park
This 2,263 acre wooded park was acquired and developed with campers in mind. A major attraction is the 17-acre lake for fishing, boating, and ice-skating in winter. The park has playgrounds and trails for hiking, cycling, and equestrian use. Because of the swamps and bogs, visitors may encounter wet areas along the trails. Many plants and animals associated with the NJ Pine Barrens can be found here.

History of the Park
The heart of the park (lake, picnic areas and campgrounds) was purchased in 1963. Addition of adjacent lands during the past 50+ years helped give the park its present configuration as the Park System's largest property.

Protect Your Parks
The Park System preserves and manages natural and cultural resources on more than 16,000 acres of land in Monmouth County. Protecting water quality, eliminating invasive plants, and promoting healthy wildlife habitats are just a few objectives. Please help protect the park by leaving flowers, plants, animals, and other features as you found them; adhering to posted rules; using designated containers for trash and recyclables and keeping your pets leashed. Possessing or consuming alcohol is not permitted.

An overabundance of white-tailed deer in and around Turkey Swamp Park is threatening the health of native plant and animal species. Portions of the park may be open for deer hunting during some or all of the State regulated hunting seasons. All hunting areas are clearly posted. For more information, call 732-842-4000, ext. 4237 or visit www.MonmouthCountyParks.com
