Monmouth County Park System

Repairs to Multiple Structures at Historic Longstreet Farm, Holmdel, NJ

PROJECT INFORMATION

PROJECT DESCRIPTION:

The work consists of carpentry repairs to various structures at Historic Longstreet Farm, such as replacing the Stable doors, new siding on the Dutch Barn lean-to, new concrete column plinths in the Potato House, framing repairs to the Blacksmith Shop, and additional exterior repairs to the Farmhouse porch.

REASON FOR PROJECT:

Given the current condition of the various structures at Historic Longstreet Farm, carpentry repairs are necessary to mitigate existing issues and prevent further damage to the buildings defined in the project description.

PROJECT SCHEDULE:

The carpentry contract was awarded to Spartan Construction, LLC on January 12, 2026, in the amount of \$149, 500.00. Construction will begin in March and is expected to be completed in spring 2026.
