On a motion made by Commissioner Horsnall, seconded by Commissioner Hennessy, the **MCPS TRAINING REQUESTS AS OF FEBRUARY 10, 2014**, was upon being put to a vote, unanimously authorized. (MCPS Training Requests in Minute Book)

Bruce A. Gollnick, Assistant Director, reviewed with the Board the following **BOARD CORRESPONDENCE RECEIVED** as distributed to the Board:

1. Letter from Senator Jennifer Beck and Freeholder Thomas Arnone, dated February 7, 2014, addressed to the Monmouth County Park System/Board of Recreation Commissioners, regarding Shark River Park Temporary Dry-Site.
2. Email from Kelly and Rita Morgan, Little Silver, NJ, dated February 5, 2014, expressing thanks to the Park System for supporting Cross Country Skiing at Thompson Park and for laying out groomed trails.
3. Email from Robert Ciolek, dated February 10, 2014, requesting copies of the proposed 2014 Golf Fees & Charges that will be presented to the Board this evening. Additional email expressing disappointment that the county is proposing to further discount fees for non-resident golfers and that the Commission provide some additional added benefits to tax-paying county residents.

On a motion made by Commissioner Hennessy, seconded by Vice Chairman Mandeville, the meeting was **OPENED** to the **HEARING OF THE PUBLIC** at 7:09 PM. Upon being put to a vote, the motion was unanimously carried.

Chairman Rummel recognized Freeholder Arnone who addressed the Board. I want to bring to your attention various differences you may have heard regarding the Shark River Dredging Project. It's at least 18 years old and originally involved five (5) municipalities: Avon, Belmar, Neptune, Neptune City and Wall. This original effort failed and as time went on the State of New Jersey got on board. The area hardest hit by this problem is Neptune Township. There were obstacles in each of the towns and they could never find a spoil site. Today the river has all but dried up. The river is recreation for some and a livelihood for others. Sandy changed things. With extreme flooding, the silt moved inland and homes were lost, and it could happen again. The homeowners along the river are very nervous. This is not Monmouth County's problem; this is the state's problem. We are asking for your help. At the end of the day Monmouth County will benefit.

At 7:14 PM, Commissioner Hood arrived at the meeting.

No one knows for sure if it's temporary or permanent or if the material has an odor. But it doesn't matter tonight; this is not the time. All I'm asking for tonight is for you to adopt a resolution seeking the authority from the Board of Chosen Freeholders to submit an application to further study this matter. There's a pool of money sitting there that could be re-allocated to another project if we don't do this. This is for NJDOT to do a study. These other issues may not matter at the end of the day if this project is not feasible. At least, let's move this study along.

Chairman Rummel asked if the Board is the first step in the process.

Freeholder Arnone stated that Senator Beck was not able to be here tonight but I want you to know that I am behind this. If you pass a resolution it moves on to the Freeholder Board.

Commissioner Harmon stated that he attended the Scoping Hearing held in Neptune. I live next to a dredge spoil pit in Atlantic Highlands. My most concern is the length of time the spoils will sit there. My next concern is the number of trucks it will take when it comes time to move the spoils. I see the mechanical lift of the dredge spoils as the biggest hurdle.

Freeholder Arnone said there are a lot of obstacles to overcome.

Freeholder Director Burry asked if there was another site? I don't dispute your sincerity but this is Green Acres protected property. Has this site and others been properly vetted?

Freeholder Arnone stated this is the first stop in the process required to complete an application. There are other sites available. This has turned into a recreational resource and quality of life issue.

Commissioner Harmon asked, if we did a resolution what would it say?

Freeholder Arnone asked Spence Wickham if he could help answer that question?

Spence Wickham said yes, we did a draft resolution for the Boards review.

Special County Counsel Michael P. Supko, Jr., informed the Board that he had language for a resolution that the Board can review.

Chairman Rummel said he also attended the scoping hearing held in Neptune and we just don't have the answers.

Commissioner Hennessey referred to Spence Wickham's memorandum of February 3rd that discusses a lot of questions pertinent to this project that we don't have the answers.

Bruce Pyle of Wall addressed the Board. I'm here too because of the proposed dredging project. I ask what about maintenance dredging later; what about ocean disposal? The Birdsall Report investigated five (5) sites and rejected them all but it didn't mention ocean disposal. According to the Birdsall Report, if all sites failed, a permit application for ocean disposal could be filed. If the county could declare the site "not acceptable" it could move on making application for ocean disposal. Therefore, the Birdsall Report was not in vain. Ocean disposal is simpler, less costly, more energy efficient and more of the estuary could be dredged. I suspect there already exists some federal authority to oversee ocean disposal.

Commissioner Harmon asked how would the dredge spoils be moved, by dredge or pipe?

Mr. Pyle responded, by pipe. The important part, this is a process that was identified in the Birdsall Report if all sites were declared unacceptable.

Commissioner Horsnall asked who would be responsible for making the application?

Mr. Pyle said the responsibility for making an application would be the N.J. Department of Transportation, and, hopefully, the money would remain available.

John Dempsey, of Ocean and representing the Shark River Beach Yacht Club, said the club, with some 200 families, was totally destroyed by Superstorm Sandy. The club can't dredge their basin because they can't get in and out of the channel. They are in a designated high V zone. Mr. Dempsey suggested to the Board that the resolution could include language that imposed a time limit and capped the amount of dredge spoils at 100,000 yards. This would take care of the emergent condition. The Corp study will take at least two (2) years to complete. Mr. Dempsey further stated that the club has had their basin waters tested and the water is clean; the bottom is fertilized dirt. We can't wait for two (2) or more years of studies.

Michael Bennett, of Neptune, informed the Board that he lives in the neighborhood and wanted to give you the facts as I know them. The document published from the scoping hearing held in Neptune Township indicates the site is for current and future dredging. You are being asked to give up a piece of property and hope the caretaker will do you right. The site will never return to what it was. It's a park with upland forests and quite a diverse area. It's been referred to as a maintenance yard but it is much more than that. Why wait for the deposits of spoils only to find out they are toxic. Mechanical pumping is very expensive. I have a letter that references toxic deposits on the Camp Evans property drains into the western corner of the Shark River. Those deposits will eventually wash down into the newly dredged channel and contaminating it. Also, a deeper channel will not prevent a future storm surge. If you go forward with this, the site will be destroyed forever. This site has more possibilities for education purposes than for boaters. I believe the living shoreline offers one of the better alternatives. In conclusion, I don't see any justification for destroying one environment for another. It's your job to take care of our lands.

Commissioner Harmon asked, if only the channels are cut where does the number of 1,500,000 cubic yards come from?

Mr. Bennett replied that number was if the whole river was dredged. Currently, only the state channel is being dredged.

Commissioner Harmon mentioned that most Commissioners and Freeholders are in favor of the living shoreline. We have a site, Popamora Point, where that has worked out extremely well.

Mr. Bennett said, people living along a living shoreline will lose their view of the river but it would surely help with future storms.

Freeholder Arnone wanted to clarify with the Board that he would never ask the Board to allow contaminated spoils to be dumped on this site. He said, we are all in favor of the living shoreline. I met with DEP Commissioner Bob Martin and he said the Fish and Wildlife Service would not approve a living shoreline.

Freeholder Director Burry said, at an earlier meeting with representatives from the State, they suggested a living shoreline. Why would they now change?

Commissioner Peters asked why can't the dredge material be tested before going through all this?

Spence Wickham mentioned that tests were submitted by Neptune Township but we haven't received the results yet.

Mr. Bennett stated it only makes sense to test before relinquishing this site. Also, there is bacteria and salt in the material; these are contaminants too.

Freeholder Arnone stated, but that's not the process.

Mr. Bennett said the Board can ask for testing to be done.

Bill Burdge, of Neptune and Shark River Beach & Yacht Club, said the DEP will not allow the existing deteriorating bulkhead along South Riverside Drive to be replaced in-kind; it would have to be rebuilt at the mean high tide line which would put it in the middle of the road. The contaminants are located near the Ft. Evans side of the river. The rest of the channels come up clean as did the marina and it is the historical channels that they are going to dredge. DEP won't let other dredging to take place if it's not clean. The Army Corp of Engineers has said you can't dump mud into the ocean. In order to move forward, something has to give.

Committeeman Randy Bishop, Neptune Township, commented that most people sitting here are my neighbors. We absolutely pursued the living shorelines concept but were told by the Marine Fisheries that it can't be done because of its potential impact on shell fisheries habitat. You won't get answers to questions without moving forward. If we want to control what's going to happen we need to move forward on the application to get the answers. The people on South Drive are worried about the next nor easterly which this project could help. We can do something by moving forward on this application to get answers to our questions. We have a choice – keep control or give up control. Let's maintain control of the process and prevent an emergent situation from happening. We are looking to get channels dredged and hope the state will do maintenance dredging in the future. The spoils are more dirt than sand. We are looking to mix the spoils with other material to make material that can be used to cap our landfills.

Commissioner Harmon asked how long will it take to get our park back?

Committeeman Bishop said they say it can be done in three (3) dredging cycles. Senator Beck has been a huge help. We have been advised if we don't move now we will lose the funding. We have asked if we could make another island in the river from the dredge spoils but we were told no. The flounder may be spawning there. If we place anything in the river we would displace the flow of the river.

Mr. Bennett said the scoping hearing notice read the site would be used for current and future dredging.

Committeeman Bishop said, that's what the law required us to say.

Bill Geschke, of Neptune and a member of the Shark River Beach Yacht Club said, the Belmar Marina has been dredged and there are no reported smells. The past three (3) years our beach club building has flooded. Flooding occurs normally now since Sandy. At a $\frac{3}{4}$ tide most boats can come in or out. We need to restore the flow of the river to return it.

Vice Chairman Mandeville commented that this is a very dedicated Board of Recreation Commissioners, and there has been some very big battles about preserving land. When this issue first came up it was the first we had heard of it. As we move forward we need to improve communications. Growing up I lived near Matawan Lake and I observed over time how the water level would get lower and lower. I've seen first hand how if you don't do something you don't get it back. It's tough deciding when you don't have answers. But I believe you got to get the process moving to get it done.

Commissioner Harmon commented, I was a councilman and I've seen it all. I made the mistake of telling someone that something was going to be temporary when it wasn't. I would like to get the process going because it's for Monmouth County but we need to protect our parks. I do appreciate your dilemma.

Chairman Rummel said I'm familiar with some of this because I live in Wall. I appreciate your coming this evening.

At 8:37 PM, the Board took a short recess. All of the members of the public left the meeting except for Mr. Robert Ciolek.

At 8:44 PM, the Hearing of the Public was reconvened.

Mr. Robert Ciolek, of Freehold, addressed the Board about golf fees that were on the agenda. He said, I want to acknowledge your exceptional golf program. I played this year 40 rounds of golf on your courses and you have the finest county courses in New Jersey. I congratulate you with barely making a dent in the fees. One issue that I have is the reduction in the fee for non-resident golf. For \$350.00 a non-resident gets to play at the same rate a resident pays. I see you are proposing to reduce this rate to \$250.00. This is not fair to the county resident. I would like to propose a change in the tee time system that would benefit the county resident by giving the giving a window of ½ hour in making a reservation; give him first crack. Other county's do it. Somerset County does it and I ask that you do.

Commissioner Hennessey asked Mr. Ciolek how long it takes to get a tee time?

Mr. Ciolek said if you don't get in the first 15 minutes than you will not be offered a tee time before 3:00 PM or 4:00 PM. I do have one more ask. You offer a great incentive of a free round of golf for every 15 paid rounds. Could you let us roll over any unplayed rounds into the next year? Maybe allow us to play it in the first month or two.

Chairman Rummel said to Mr. Ciolek that we will take your suggestions under advisement and thank you for coming.

There being no one else present who wished to be heard, it was moved by Commissioner Horsnall, seconded by Commissioner Hennessey, that the portion of the meeting Open to the **HEARING OF THE PUBLIC** be **CLOSED**, at 8:59 PM.

Mr. Robert Ciolek left the meeting.

FREEHOLDER'S REPORT:

Freeholder Director Lillian G. Burry reported to the Board on the upcoming Volunteer Reception scheduled for March 2nd, 2014, and that she has been asked to address the volunteers. They are a huge help in maintaining our parks.

Freeholder Director Burry also reported that the County Budget will be introduced March 13th and there is no tax increase.

Freeholder Director Burry noted that with the Shark River dredging issue, I understand their plight but we just can't ignore that we are stewards of the land. I believe we should go back to Wall and ask them to review the use of property at the former Camp Evans site. Timing is prime to reopen that discussion.

The Board asked questions during the presentation.

Commissioner Harmon suggested we should look at 9-hole rates as other clubs have done.

Commissioner Hennessey asked what is our ratio of resident to non-resident golfers at Charleston Springs?

Mr. Janoski said that rate at Charleston Springs is 20%.

Commissioner Horsnall commented that when he asks friends where they play golf they say Charleston Springs. So I think your marketing program out my way is working.

Commissioner Hennessey asked what the percentage of non-resident play is at Hominy Hill?

Mr. Janoski said, 12%.

A discussion took place regarding the proposed fees and charges and other golf programming ideas.

Vice Chairman Mandeville asked Mr. Janoski if he could look into Mr. Ciolek's request of carrying over unused loyalty rounds into the next year.

Commissioner Horsnall asked why revenue was down on golf tournaments?

Mr. Janoski responded that it wasn't so much golf tournaments but outings.

Commissioner Hennessey asked if we have thought of promoting industrial leagues?

Mr. Janoski said we are looking at a lot of different ideas. Last year we sponsored the Ladies Club and it has taken off so we are looking at what else can we do along those lines. We do have the consecutive tee times promotion and maybe we need to do a better job of marketing that program.

Commissioner Hennessey asked if we could do more for the better golfer and along the lines of a club championship.

Mr. Janoski informed the Board that we currently offer a club championship at our regulation courses.

Following a discussion, the Board agreed to adopt resolutions Adopting the Bel-Aire Golf Course Fees & Charges; Charleston Springs Golf Course Fees & Charges; Hominy Hill Golf Course Fees & Charges; Howell Park Golf Course Fees & Charges; Pine Brook Golf Course Fees & Charges; Shark River Golf Course Fees & Charges; and Miscellaneous Golf Course Fees & Charges.

Bruce A. Gollnick, Assistant Director, distributed to the Board a Budget Summary and reviewed the proposed 2014 Monmouth County Park System Operating, Trust and Personnel Budgets.

Mr. Gollnick informed the Board that we have met the 2014 target budget as established by the County Administrator and Finance Director.

Mr. Gollnick noted that after his discussion with the Board on January 22, 2014, Commissioner Harmon suggested we use more of the Open Space Trust Tax to meet our target budget, and the Board agreed. As a result, we did not have to eliminate any positions and avoided layoffs. We were also able to cut our Trust Budget some more so that we have a more comfortable surplus that will help us in preparing for the 2015 budget.

Following a brief discussion, a **motion** was introduced by Commissioner Horsnall, seconded by Commissioner Peters, **APPROVING the PROPOSED 2014 MONMOUTH COUNTY PARK SYSTEM OPERATING, TRUST AND PERSONNEL BUDGETS**, and **AUTHORIZING the SECRETARY-DIRECTOR and or his DESIGNEE to SUBMIT the FUNDING RECOMMENDATIONS to the MONMOUTH COUNTY BOARD OF CHOSEN FREEHOLDERS**. 2. Furnishing and Delivery of a Sand Storage Silo
3. Furnishing and Delivery of One (1) 2014 or Current Production Year High Lift Articulated Wheel Loader
