2.3.8. Indemnification

The vendor hereby agrees to indemnify and hold harmless the Board of Recreation Commissioners and the County of Monmouth, their agents, servants, and employees from and against all loss, damage, claims, actions, liability and expense, in connection with the loss of life, bodily injury, and/or property damage, if occasioned in whole or in part by any negligent act or omission of the professional or the professional's agent's, servants, employees, and subcontractors limited to services performed under the terms and conditions of this contract. This obligation shall include the provision of a defense for the County of Monmouth and the Board at all stages of the claims or judicial process.

2.3.9. Alternate Dispute Resolution

Non-Binding Mediation: If a dispute between the County and the Contractor arises during the course of the contract, the parties will participate, in good faith, in non-binding mediation.

Either party may demand such mediation by written notice of the other party. The written notice shall contain at least (a) a brief statement of the nature of the dispute, and (b) the name, address and phone number of that party's designated representative for the purposes of mediation. The other party shall designate its representative for mediation in writing no later than five business days after receipt of the demand for mediation. The respective designees shall thereupon, and promptly, with due regard for the need for timely action, choose a mediator. If the parties cannot agree on a mediator, or if they prefer, they shall choose a reputable mediation firm. Any mediation firm so chosen shall present a list of at least five proposed mediators to the parties and shall provide the parties with a summary of each person's qualifications to serve as the mediator. Each party shall rank the proposed mediators in order of preference.

The fifth person on each list will be excluded from further consideration. The chosen mediator shall be the person who is the combined highest-ranking mediator on both preference lists excluding the fifth person on each list. In the event of a tie, the mediator shall be chosen by lot. The parties will not be bound by the Rules of Evidence in presenting the positions before the mediator.

The mediation shall be conducted in such reasonable and efficient manner as may be agreed between the parties and the mediator or, the lack of such an agreement, as may be determined by the mediator.

Each party will bear its own costs of participation in mediation and they will divide the costs of the mediations equally.

If, after a good faith effort to resolve the dispute through mediation, the dispute is not resolved, either party may terminate the mediation by written notice to the mediator and to the other part, whereupon either party may submit the dispute to the Superior Court of New Jersey, Monmouth County, for adjudication, which Court shall have exclusive original jurisdiction over the dispute.

2.4. Addenda

All addenda will be posted on the Monmouth County Park System website (www.monmouthcountyparks.com). It is the responsibility of the vendor to check the website prior to submission of proposal.

2.5. Multiple Proposals Not Accepted

More than one proposal from an individual, a firm or partnership, a corporation or association under the same or different names shall not be considered.

2.6. Failure to Enter Contract

Should the vendor, to whom the contract is awarded, fail to enter into a contract within ten (10) days, Sundays and holidays excepted, the owner may then, at its option, accept the proposal of another vendor.

2.7. Commencement of Work

The vendor agrees to commence work after receipt of a Purchase Order and upon notice from the using department to proceed.

2.8. Termination of Contract

If, through any cause, the vendor shall fail to fulfill in a timely and proper manner obligations under the Contract if the vendor violates any requirements of the Contract, the owner shall thereupon have the right to terminate the Contract by giving written notice to the vendor of such termination at least 30 days prior to the proposed effective date of the termination. Such termination shall relieve the owner of any obligation for the balances to the vendor any sum or sums set forth in the Contract.

The vendor agrees to indemnify and hold the owner harmless from any liability to subcontractors/suppliers concerning payment for work performed or goods supplied arising out of the lawful termination of the Contract by the owner under this provision. In case of default by the vendor, the owner may procure the articles or services from other sources and hold the vendor responsible for any excess cost occasioned thereby.

2.9. Notice of Award

The successful vendor will be notified of the award of contract upon a favorable decision by the governing body. The Purchasing Agent will then send a Purchase Order and Voucher to the vendor.

**2.10. Prompt Payment of Construction Contracts P.L. 2006, c. 96
(if applicable)**

When the Professional has performed in accordance with the provisions of the contract, and the invoice (bill) including a properly prepared, dated and signed voucher for the work has been approved and certified by the Monmouth County Board of Recreation Commissioners and the Monmouth County Board of Chosen Freeholders, the board shall pay the amount due to the contractor for each payment not more than 30 days after the date received. The invoice shall be deemed approved and certified 20 days after the board receives it unless the board, before the 20 day period, informs the contractor in a written statement of the amount withheld and the amount to be paid, the reason for withholding the payment and how the deficiency can be cured.

Approved (bills) with a properly prepared, dated and signed voucher will be approved for payment by the Board of Recreation Commissioners at the first public meeting after the 20th day. After the board approves payment of invoices (bills) with properly prepared, dated and signed voucher, invoices will be forwarded to the Board of Chosen Freeholders for their approval. All payments will be released in accordance with the attached payment schedule and will be mailed unless other arrangements have been made with our Accounts Payable Department.

In the event that Alternate Dispute Resolution is needed, mediation is the method that shall be used.

2.11. Ownership of Material

The owner shall retain all of its rights and interest in any and all documents and property both hard copy and digital furnished by the owner to the vendor for the purpose of assisting the vendor in the performance of this contract. All such items shall be returned immediately to the owner at the expiration or termination of the contract or completion of any related services, pursuant thereto, whichever comes first. None of the documents and/or property shall, without the written consent of the owner, be disclosed to others or used by the owner or permitted by the owner to be used by their parties at any time except in the performance of the resulting contract. Ownership of all data, materials and documentation originated and prepared for the owner pursuant to this contract shall belong exclusively to the owner. All data, reports, computerized information, programs and materials related to this project shall be delivered to and become the property of the owner upon completion of the project. The vendor shall not have the right to use, sell, or disclose the total of the interim or final work products, or make available to third parties, without the prior written consent of the owner. All information supplied to the owner may be required to be supplied on CD-ROM media compatible with the owner's computer operating system, windows based, Microsoft Office Suite 2000 or MacIntosh System 10.

3.1 Project Description

The Monmouth County Park System, in partnership with the State of New Jersey and the Monmouth County Conservation Foundation, acquired a 41-acre waterfront property in 2005 as an addition to Hartshorne Woods Park. The 41-acre parcel contains remnants of some of the last remaining naturalized shoreline on Claypit Creek, a tributary of the Navesink River. The Park System wishes to make improvements to the property to enhance public access to the water and to Hartshorne Woods Park in general.

Proposed plans for the parcel include an expanded parking area, a rest room, a kayak launch area, a raised shoreline boardwalk, trails and outdoor shelters. The County is in the process of applying for multiple permits, including CAFRA, Waterfront Development, Fresh Water Wetlands, Coastal Wetlands and GP-1 permits. It is the MCPS's intention to make improvements to the property over the five (5) year life of the permits.

As part of the permitting process the NJDEP Historic Preservation Office (HPO) reviewed the application and responded with the attached April 30, 2014 memorandum. Summarizing, HPO resources have identified the area as having high potential of pre-contact period archaeological artifacts as well as early colonial occupation. HPO is requesting a Phase I archaeological survey under the parking areas, gazebo, driveways, stormwater management trenches and staging areas as well as impervious walkways.

3.2 Scope of Work

The Monmouth County Park System invites you to submit a proposal for professional services to perform a Phase I survey of the subject area to determine the presence or absence of archaeological resources.

The survey shall be conducted in accordance with guidelines established in N.J.A.C. 7:4-8.7, "*Standards for Combined Archaeological and Architectural Survey Reports.*" Reporting will conform to all professional standards and requirements. The cultural resource specialists who will perform this work must meet or exceed the qualifications specified in the Secretary of the Interior's Professional Qualifications Standards (Federal Register 48:190:44738-44739) U.S. Department of the Interior 1983) and in 36 CFR 66.3(b)(2) and 36 CFR 61.

Background research shall be conducted sufficient to inventory previously recorded prehistoric archaeological sites providing a basis for assessing the significance of archaeological resources in the project area and to examine the degree of prior disturbance in the project area to assess the potential for intact subsurface archaeological remains.

Based upon the research, develop an investigative action plan for review and coordination with MCPS staff. The area is open daily and investigations can be done at any time, barring special events. Excavations will be required to be secured when the area is not occupied. Equipment must be stored off-site.

The consultant will be responsible for the planning, execution and restoration of all field work required to complete the Phase I survey. Consideration will be given to those investigative methodologies which yield the least amount of ground disturbance. All ancillary turf and soil disturbance will be restored to pre-investigation conditions.

The results of the Phase 1 survey will be documented in a report prepared in accordance with professional standards. The report will include, but not necessarily be limited to an introduction, summary of completed background research, testing results, site or inventory forms, and recommendations. In addition, the report will include graphic illustrations such as USGS quadrangle maps, site mapping and photos.

3.3 Site Access

Proposers are expected to examine existing conditions at the project area that will bear on the proposed work.

3.4 Inquiries

All questions are to be in writing. Inquiries not in writing will not be entertained. Please forward all questions and/or comments to:

We anticipate the Phase I survey to be completed and final report submitted within 45 days after the notice is given to proceed. Should your firm require additional time, please indicate as a variance on the Proposal Form.

3.4 Content of Proposal

In addition to the Monmouth County Park System supplied Proposal Form the respondent shall also submit the following:

Provide a detailed narrative of the proposed methodology to be employed in the investigation and remediation of the site(s). Include in the narrative the anticipated timeframes to complete the work and possible impact on Park System operations.

Specifically include a discussion of the firm's current workload and anticipated workload during the term of this contract.

3.5 Basis of Award

The Monmouth County Park System will award a professional services contract to the responsible bidder whose proposal is determined to be the most advantageous to the Park System, taking into consideration:

Understanding of the scope of the work and the objectives of the project.

PROJECT: Monmouth County, Middletown Township

DLUR file # 1331-09-0022.3, CAFRA IP

RECEIVED
 2014 MAY -6 P 3:00
 LAND USE REGULATION

Thank you for providing the Historic Preservation Office (HPO) with the opportunity to review and comment on the potential for the above referenced project to affect historic and archaeological resources.

Archaeology

The project site is located within an area of high pre-contact period archaeological sensitivity based on topography (well-drained uplands adjacent to the Claypit Creek and confluence), number of known sites within close proximity, and current models for archaeological sensitivity. Information on archaeological models is available here: http://www.nj.gov/dep/hpo/1identify/arkeo_res.htm. The project site also holds a high potential for early colonial occupation, as well as, the former post-Civil War Albert and Louis Randall house.

In light of the project site's high sensitivity for historic and pre-contact period archaeological deposits, pursuant to N.J.A.C. 7:7E-3.36 a Phase I archaeological survey, and as necessary Phase II archaeological survey, must be conducted on the project site prior to permit issuance. Phase I survey will be necessary for the following project elements: parking areas/lots, gazebo, driveways, stormwater management infiltration trenches and temporary staging and laydown area(s) for park construction and dam rehabilitation. Survey may also be necessary for walkways if constructed of formal, engineered roadway with impervious surface. Minimally intrusive pathways such as earth, gravel or woodchip material would not require archaeological survey.

Phase I survey will identify the presence or absence of archaeological deposits on the project site. If archaeological resources are identified, Phase II survey will provide for evaluation of the National Register eligibility of the site(s) and assessment of project impacts. For properties on or eligible for National Register inclusion, recommendations must be provided for avoidance of impacts. If impacts cannot be avoided, analyses must be provided exploring alternatives to minimize and/or mitigate impacts. Means to avoid, minimize and/or mitigate impacts to National Register eligible properties will need to be developed and undertaken prior to project implementation.

All phases of the archaeological survey and reporting will need to be in keeping with the Secretary of the Interior's *Standards and Guidelines for Archaeology and Historic Preservation*, 1983. Phase I archaeological survey and reporting must comply with the HPO's *Guidelines for Phase I Archaeological Investigations* and the *Guidelines for Preparing Cultural Resources Management Archaeological Reports*. Evaluations to determine the National Register eligibility of archaeological sites must be in keeping with the National Park Service's 2000 National Register Bulletin, *Guidelines for Evaluating and Registering Archeological Properties*. The individual(s) conducting the work will need to meet the relevant Secretary of the Interior's Professional Qualifications Standards for archaeology (48 FR 44738-9).

If potential human burials or human skeletal remains are encountered, all ground disturbing activities in the vicinity shall cease immediately and the Historic Preservation Office should be contacted, as well as any appropriate legal officials. The potential burials shall be left in place unless imminently threatened by human or natural displacement.

Additional Comments:

We appreciate the opportunity to review and comment on the potential for this project to affect historic and archaeological resources. Please reference the HPO project number 14-1842 in any future calls, emails, submissions or written correspondence. If you have any questions, please feel free to contact Vincent Maresca of my staff at (609-633-2395) with questions regarding archaeology or Meghan MacWilliams Baratta (609-292-1253) with questions regarding historic architecture or historic landscapes. Thank you for your cooperation with this review.
