

## PROJECT OVERVIEW

### RIGGING AND TRANSPORT OF HEAVY EQUIPMENT FOR BATTERY LEWIS, HARTSHORNE WOODS PARK

**Location:** Hartshorne Park, Middletown Township, Monmouth County, New Jersey (Monmouth County Park System)  
GPS Address: 1402 Portland Road, Highlands, New Jersey 07732

**Scope of Work:** Scope of Work: Rigging and transport of a 16-inch gun barrel (originally mounted on the USS New Jersey in WW2) from its current location at St. Julien's Creek Naval Annex in Chesapeake, Virginia to its destination at Battery Lewis in Hartshorne Woods Park, Middletown, NJ. At the delivery site, the Contractor will unload the cargo onto the level lawn area adjacent to the Battery Lewis south casemate as directed by Park System representatives. The Contract includes all equipment, materials, labor, site protection, permits, fees, and security clearances as required by Federal, State and local authorities for a full and complete execution of the Work specified herein. Bidders are encouraged to visit both origin and destination sites to familiarize themselves with the site conditions, equipment and labor needed to furnish Owner with a complete scope of work.

**Cargo:** The gun barrel is 68 feet long and 120 tons, including three (3) shipping yokes.

**Requirements:** Contractors must demonstrate successful prior experience with similar rigging and transport projects within the past five years.

**Owner's Representative (Monmouth County Park System):**

Gail L. Hunton, Supervising Historic Preservation Specialist
