Each party will bear its own costs of participation in mediation and they will divide the costs of the mediations equally.

3. Specifications

(PS #20-13)

I. Project Description

In 1992, as part of a Port Monmouth Beach improvement project, the Township of Middletown constructed a 6,800 square feet fishing pier extending offshore into Raritan Bay. The Monmouth County Park System assumed ownership of the pier and surrounding facilities in 1998 as the result of a land exchange.

The historically high floodwaters and extraordinary wave action of the October, 2012 super storm Sandy destroyed the majority of the structure. For your reference we attached to this request for your proposal a location map, photos of post-storm conditions and the copies of the 1991 construction drawings of the structure.

Please note that the diagonally hatched sections on sheets 3 and 11 of the construction drawing are not to be re-constructed. The remnants of these sections are to be removed. All new construction is to be compliant with the 2010 ADA Standards for Accessible Design.

The Park System is seeking to engage a professional engineer to evaluate the surviving components of the structure, develop a demolition/repair strategy, obtain all requisite permits, prepare construction plans and specifications for rehabilitation, and assist in the construction administration of the project.

Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.
