Quality Indicators

Presented By: Karen Kirton, MSW

Choosing quality child care is one of the most important decisions you will make. This class will offer an opportunity for parents to increase their knowledge about child care options and how to judge quality care.

Why Play Matters

Presented By: Judi Pack, MA

What if there was something very simple and easy to access that would make your child smarter, kinder and happier. Well there is, and it's called PLAY! Play is the foundation in a child's life that launches his or her attitudes about learning, caring, getting along with other children and feeling competent. Play is an important practice for children so that they begin to understand who they are and how the world works. Join us to talk about the very essence of childhood—PLAY.

Health and Safety

The Asthma Friendly Home: Identifying and Managing Asthma Triggers in Your Home Environment

Presented By: Judi Connor, RN, BSN

In New Jersey, Asthma has a widespread impact, especially on young children. Learn how to identify and control Asthma triggers commonly found in and around the home in order to help reduce Asthma emergencies and hospitalizations.

November 18, 2009

Guiding Behaviors

Presented By: Pat Champeau, BA

This class is designed to give parents various techniques for guiding positive behavior in their children. Are you up to the challenge? Promoting positive behavior is a challenge to all parents. To do so effectively you must understand why children act the way they do. Come to this workshop and learn how to respond to this challenge in a helpful and loving way.

All workshops are held at Child Care Resources from 6:30-8:30 PM

There is no fee for these workshops.
