The Monmouth County Fire Academy will be offering:

Where to Stick It Aerial & Tower Ladder Placement

Often the aerial device is underutilized and or misplaced. This interactive program provides insight into proper & proactive ladder placement. Aerial, tower ladder, and ladder tower placement will be discussed at a variety building & incident type. Placement for rescue, ventilation and master streams will also be discussed. Class participants are encouraged to bring an address or building location to the class. The program will conclude with discussion of some of the provided locations to give students additional insight into their response areas and tie the program content to addresses.
