- Parks and Open Space
- Corps Projects
- Naval Weapons Station Eat
- Public Property

Area locations for active projects from the US Army Corps of Engineers' Corps Project Notebook (CPN). The purpose of the CPN is to provide a single authoritative reference database of the locations of all Corps Civil Works, Military, and Interagency and International support projects. A location is defined as a "site" where work has been or is being executed, operation and maintenance appropriation related to Flood and Coastal Storm Damage Reduction, Hydropower, Navigation, Recreation and Water Supply, Non-Environmental Continuing Authority Program (CAP) Projects and projects that USACE is executing in partnership with other agencies through the Interagency Support Program are also included.
