

DEVELOPMENT ACTIVITY REPORT

1st QUARTER 2020

Division of Planning, Monmouth County, New Jersey

January 1, 2020 to March 31, 2020

Last Updated: 6/2/22

Purpose: The Development Activity Report provides a summary of county-wide development activity in Monmouth County, New Jersey for the 1st Quarter of 2020. This report details development activity on a quarterly basis to identify current trends and to compare these to previous quarters.

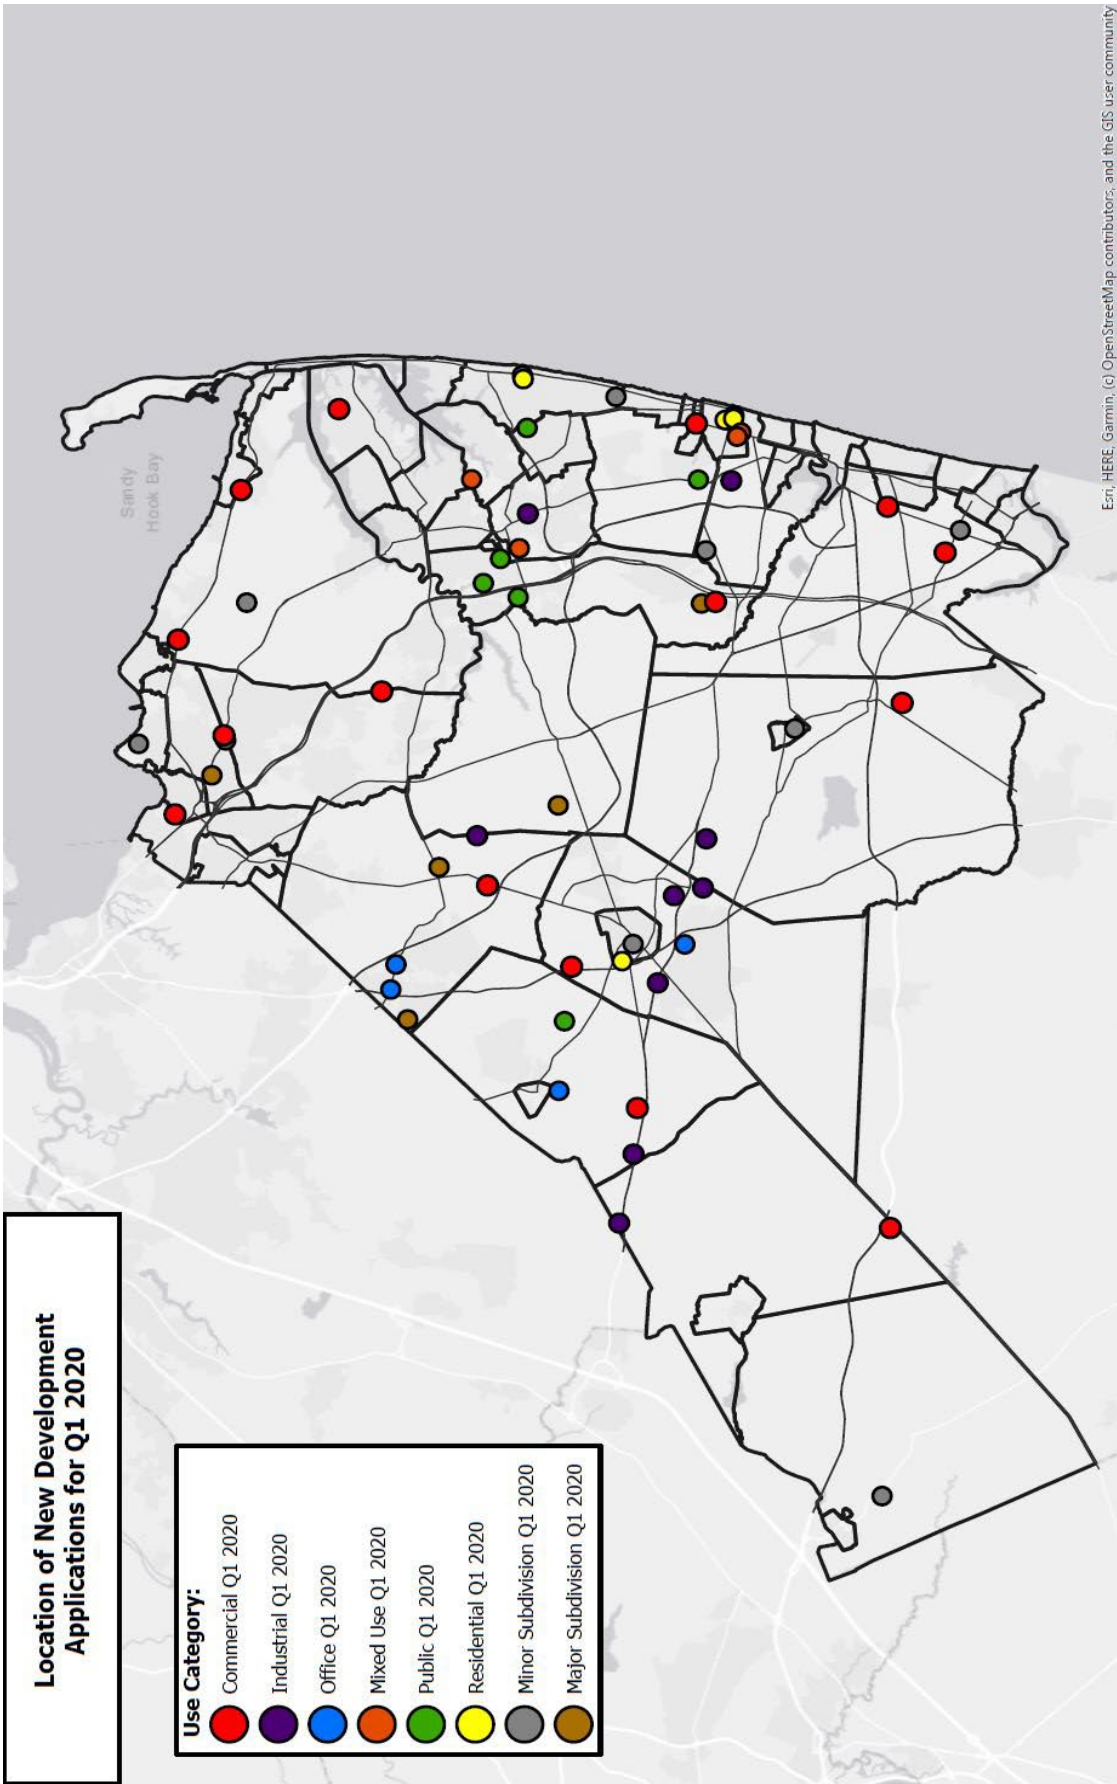

Highlights:

- **Rock Solid Realty:** 368,050 square foot warehouse in Howell.
Status - **Request Information** - 1/27/2020
- **550 Halls Mills Road:** 141,140 square foot warehouse in Freehold Township.
Status - **Request Information** - 4/13/2020 (Received in the 1st quarter but acted on in the second)
- **Scannell Properties Warehouse:** 132,930 square foot warehouse in Millstone.
Status - **Final Approval** - 4/13/2020 (Received in the 1st quarter but acted on in the second)
- **Wasatch Storage Partners - Freehold:** 110,000 square foot self-storage center in Freehold Township.
Status - **Final Approval** - 3/23/2020
- **Fort Monmouth - Allison Hall:** 103,088 square foot office, restaurant, & hotel mixed-use in Oceanport.
Status - **Request Information** - 1/27/2020

Summary of Development Statistics for Projects Submitted in Q1 2020 (fig. 1)

Use:	Building Area (square feet)	Dwelling Units	Proposed New Building Lots	Number of Applications
Commercial	70,516			15
Industrial	1,080,730			9
Office	40,445			4
Mixed Use	122,744	209		4
Public	27,300			6
Residential Units		56		4
Minor Subdivision		*	9	10
Major Subdivision		*	25	6

*The dwelling units for major and minor subdivisions have been removed to further distinguish residential units proposed from siteplan applications and proposed building lots from subdivisions. (Revised 1/22/21)

(fig. 45)

Summary

The County saw an increase in non-residential development applications this quarter when compared to last year's first quarter. However, there was a slight decrease in new residential applications during this quarter. Commercial development applications in the county were generally proposed to the North and East of State Highway 34. There was also a notable amount of commercial development in south eastern towns. Industrial development this quarter has been seen primarily along State Highway 33 stretching from Millstone to Howell. The entirety of this type of development consists of either self-storage centers or large warehouses. All mixed/multiple use development was located in towns on the eastern part of the county, while all office developments were located in towns to the west. Public development this quarter concentrated in the eastern part of the county, mostly in Tinton Falls. Proposed Residential development occurred primarily in Freehold Borough, Asbury Park, & Long Branch. With the exceptions of Upper Freehold & Freehold Borough, minor subdivisions were proposed in municipalities on or near the coast. Major subdivisions were proposed in predominately inland municipalities with the exceptions of Asbury Park and Hazlet.

In the first quarter of 2020, the county received 15 commercial development applications and 4 office, mixed use, & residential development applications. Commercial development applications were the most common proposed development, while Office, Mixed Use, & Residential development as the least common. In terms of size, industrial development applications had the largest total proposed building area at 1,080,730 square feet. The development type with the least total proposed building area was public at 27,300 square feet.

In 2017, commercial development experienced a brief rise but has since fluctuated. This year's total proposed commercial building area of 70,516 square feet is currently the lowest in four years. Industrial development in the 1st quarter showed continued growth since 2017 and is currently at its highest level since last year. Office development increased this quarter to a total proposed building area of 40,445 square feet, but has varied from year to year. The number of applications for office development has increased from 3 to 4 from just last year. Mixed/multiple use development saw a drastic increase in both proposed building area (122,744 square feet) and residential units (209). Both the proposed building area and the number of applications for public development dropped from last year's first quarter. The number of proposed residential units has also dropped significantly from 292 in Q1 2019 to 56 in Q1 2020. However, the number of residential applications have increased indicating a reduction in the average size of proposed residential projects. There was a small increase in the number of lots and the number of applications for minor subdivisions in the past year. Lastly, while the county received more major subdivision applications than last year, the number of lots proposed represent a sizeable drop from the number proposed in the first quarter of 2019.

Approval Status Stats for projects received in Q1 2020:

- Final Approval: 7
- Conditional Approval: 9
- Preliminary Approval: 2
- Conditional Preliminary Approval: 1
- Request Information: 21
- County Approval Not Required: 10
- Exempt: 7
