

MA-14 Bridge Replacement Pedestrian Mobility Questionnaire

The Monmouth County Engineering Department is planning the replacement of Bridge MA-14 which carries Amboy Avenue/W. Front Street (CR 6) over the Matawan Creek in Aberdeen Township and Keyport Borough. During construction, the bridge will be closed to all vehicular and pedestrian traffic and a detour will be in place while the bridge is closed. While the detour route will adequately serve the needs of vehicular traffic, the County is offering the following questionnaire to better understand the needs of pedestrians within the project area.

Please indicate your responses and provide any additional comments on the back side of this page. Return to one of the following:
