A. Definitions: Describes each Point of Intervention on the Continuum

B. Instructions for completing Work Sheet

C. CY 2019 Continuum of Care - Points of Intervention

I. INTRODUCTION

This plan update provides each of the 21 New Jersey counties with a coordinated process to plan for State/Community Partnership Grant Program Funds and Family Court Services Program Funds.

The Plan Update must be received at the Juvenile Justice Commission on or before **August 30, 2019 at 3:00 pm.** One original (single sided) and eight (8) copies of the Plan Update must include a cover letter from the Co-Chairs, on behalf of the County Youth Services Commission indicating that all sections of this Plan Update has been reviewed, discussed and approved.

Applications should be submitted to:
Juvenile Justice Commission
Office of Local Programs and Services
1001 Spruce Street, Suite 202
P.O. Box 107, Trenton, NJ 08625
Attention: Safiya L. Baker, Manager
Youth Services Commission Grants Management Unit

II. PLANNING PROCESS

MONMOUTH COUNTY

Instructions
This section will allow you to describe to the public your county's planning process regarding identifying the needs of youth in your county. Your answers to each of the following questions should describe your county's planning process, **not the results/outcome** of the planning process. Answer all questions using this form.

PURPOSE: County youth services commissions plan, implement, monitor, and evaluate community-based sanctions and services for juveniles adjudicated or charged as delinquent and delinquency prevention programs.

1. **Briefly describe the county Youth Services Commission's planning process. Include the following in your response: Describe any strategies used in this planning cycle. Provide dates of the subcommittee meetings dates; when recommendations were presented to the YSC for approval; and any efforts to involve community based organizations and agencies.**

The Monmouth County Youth Services Commission met on the following dates: April 2, 2019, June 4, 2019 and August 6, 2019. Monmouth County Youth Services Commission meetings are also planned for October 1, 2019 and December 3, 2019.

The YSC Planning Committee met on the following dates in 2019: January 17, 2019, March 21, 2019, April 18, 2019, May 16, 2019, June 20, 2019 and July 18, 2019.

Community based organizations and agencies are represented on the Youth Services Commission and are included in the decision making process related to services for youth. Information is gathered as to what additional resources would be helpful in serving the youth population and the results from any focus groups, surveys or interviews to gain youth input on program activities is reviewed, as

well as any gaps in service identified. The YSC Survey was conducted in 2017 that helped set our service priorities for the 2018-2020 Monmouth County Youth Services Plan. Feedback was obtained from youth, parents, community members, law enforcement, schools, service providers, juvenile justice/court personnel, DCP&P, Monmouth Cares and Others on the service needs in Monmouth County and the top problem areas facing youth and what strategies are most effective in engaging youth. A Human Services Needs Assessment for Monmouth County was conducted and reviewed to identify unmet service needs and information related to Early Childhood Success, Positive Youth Development and Strong Transitions to Adulthood. Through Monmouth ACTS (Assisting Community Through Services), hubs have been formed through this public/private collaboration designed to develop actionable plans to address the diverse needs of residents.
http://monmouthacts.org/

To integrate the youth voice into the Youth Services Planning Committee process, a presentation from the Mental Health Association of Monmouth County was given at the May 16, 2019 meeting that provided a summary report on the Youth Focus Group Surveys developed for the PASS School Truancy Reduction and Diversion Program. Youth input on school and community connection was gathered. This activity also provided a community service opportunity to high school students. A total of 357 youth responses to the Youth Focus Group Survey were summarized. A presentation and summary report on the Youth Focus Group Survey was given at the June 4, 2019 Youth Services Commission meeting. Key survey information and demographics of survey respondents was presented. Participating schools included Asbury Park, Keansburg, Long Branch, Middletown North, Middletown South and Neptune. The survey included 14 open ended questions & 12 closed. Questions related to missing school, the importance of school, favorite aspect of school clubs/groups and what youth want included and feel connected to school were included in the survey. Additional questions relative to what makes youth feel connected to your community, their relationship with police and whether youth would you like police to have more involvement with the school and or community were asked. Youth also had the opportunity to share how they relax/spend their free time (hobbies), favorite quote, song lyric or poem and what adults they admire.

2. Using the chart below, provide updates to your County's recommendations from the 2018-2020 Comprehensive Plan for all points of the continuum.

PREVENTION

List recommendation from the 2018 -2020 Plan.	Has this recommendation changed? Yes or No	Provide an update or status of this recommendation.
To reduce the number of at-risk minors who become delinquent by involving them in a prevention program. Skill development for children in the area of conflict resolution, problem solving, and anger management, gang prevention, bullying prevention, self- esteem building, empathy and communication is recommended. Programs and strategies that intervene at the earliest possible and/or most developmentally appropriate stage as identified through the risk and protective assessment and which serve to incorporate the entire family, increase opportunities for bonding with caring adults, focus on the attainment of age appropriate social skills and employ an integrated approach which targets more than one sphere of influence in a child's life are recommended.	No	**<u>Prevention</u>** The recommendations included in the Prevention Section became part of Monmouth County's Public Announcement Request for Proposals (RFP) led through the Competitive Contracting process for 2018 with two one year renewal options. Dedicated funds in the area of Primary Delinquency Prevention Services (Elementary School Children Ages 5-10) and Secondary Delinquency Prevention After-School and Summer Program(s) (Pre-Teens Ages 9-12) were part of the RFP. The Monmouth County Human Services Needs Assessment conducted by Janus Solutions (April 2017) identified various unmet service needs. A need for an increase in after school and summer options for school age children & increase in gang prevention/escape programs was identified. Monmouth County Office of Addiction Services Substance Use Survey (6/15/18) identified the following needs and gaps in the area of prevention: prevention education needs to start with young children; parent education is lacking and needed, as well as more wide spread community outreach and school districts integrating prevention into their curriculum that includes coping strategies, healthy choices, regulating emotions, etc.-"social-emotional

		learning. A need to reduce stigma associated with substance abuse and mental health & normalize the conversation was identified. A need to provide activities to engage youth and increase "sober" options was identified. More collaboration in the area of prevention education to reduce silos among stakeholders such as law enforcement, education, physicians and politicians was a stated need.
To support local organizations that develop, implement, or expand local mentoring programs that promote measurable, positive outcomes for at-risk youth and reduce juvenile delinquency, violence, gang participation, school failure, and drop-out rates. To recommend the use of the new National Mentoring Resource Center, that will offer resource, reference, and training materials to the field and advance the implementation of evidence- and research-based mentoring practices. To prevent youth from joining gangs, communities must strengthen families and schools, improve community supervision, train teachers and parents to manage disruptive youth and teach students interpersonal skills.	No	**<u>Prevention</u>** Big Brothers Big Sisters–Community Based Mentoring Program is rated Effective and was associated with a significant reduction in initiating drug and alcohol use and antisocial behavior among mentored youth. The Boys and Girls Club of Monmouth County is providing the Phoenix Gang Prevention curriculum to pre-teens involved in their after school and summer program. During 2019, the Probation Division hosted a gang awareness workshop presented by the Sheriff's Department. School Performance Report from 2017-18 indicated the following High Schools had a high percentage of economically disadvantaged students: Long Branch (75.4%); Neptune (46.9%); Class Academy (42.3%); Asbury Park (43.3%); Keansburg (41.3%); Keyport (39.5%). The School Performance Report for 2017-18 indicated the following High Schools had a high Student Suspension Rate (percentage of students who were suspended one or more times during the school year): Asbury Park (22.9%); Keansburg (19.3%); Long

		Branch 205 (14.3%); Monmouth Regional (14.5%). The 2017-18 School Performance Reports from the NJ Department of Education indicated that the following Monmouth County High Schools were among the top districts with a high Chronic Absenteeism (School – Wide Percentage) of students that were absent for 10% or more days enrolled: Neptune High (40.6%); Keansburg High (39.2%); Asbury Park High (35.4%); & Monmouth County Vocational-Class Academy (70.6%). The Monmouth County Police Academy Course Catalog includes Gang Awareness. This course of instruction is designed to update law enforcement personnel on gang activities in the State of New Jersey, in particular, the Monmouth County region. New Jersey Department of Education provides information to aid schools in addressing gang issues and concerns. "Keeping Our Kids Safe, Healthy & In School" has the topic of gangs listed under Student Behavior.
To assist practitioners and communities in implementing evidence-based prevention and intervention programs that can make a difference in the lives of children and communities. Replication of Best Practice Models in the area of Delinquency Prevention included in the Office of Juvenile Justice Delinquency Prevention (OJJDP) Model Programs Guide is	No	**<u>Prevention</u>** The Office of Juvenile Justice Delinquency Prevention (OJJDP) model program entitled, "Life Skills Training" is being provided to elementary age children in Asbury Park, Keansburg, Long Branch and Neptune Township through State Community Partnership Grant funds. For fiscal year 2020, there are 16 funded Municipal

recommended. Municipal Alliances to Prevent Alcoholism and Drug Abuse and other providers of prevention programs are recommended to adopt evidence based programs.		Alliances to Prevent Alcoholism and Drug Abuse in Monmouth County that include 22 participating municipalities. Of Monmouth County's 53 municipalities, 22 or 41.5% are participating in the Municipal Alliances to Prevent Alcoholism and Drug Abuse. Participating municipalities include: Colts Neck; Eatontown Freehold Township & Borough; Hazlet; Highlands & Atlantic Highlands; Holmdel; Howell; Keyport; Manasquan (Shore Alliance-Brielle, Spring Lake Heights, Sea Girt , Manasquan); Marlboro, Middletown, Millstone; Neptune City; Neptune Township; Upper Freehold & Allentown & Wall. For fiscal year 2018, there are 17 funded Municipal Alliances to Prevent Alcoholism and Drug Abuse in Monmouth County that include 23 participating municipalities. RWJ Barnabas Health Institute for Prevention and Recovery), in partnership with Monmouth Medical Center and the City of Long Branch, will be guiding the Long Branch community through a tested and effective, evidence-based process called Communities that Care (CTC). CTC will assess and address the predictors of youth problem behavior that contribute to substance use, delinquency, mental health, bullying and other factors that affect the safety and well-being of our children. By employing a public health approach, the goal of CTC is to prevent youth substance use and other risky behaviors, before they begin.
Municipalities exhibiting multiple risk factors for adolescent problem behaviors should be prioritized for delinquency prevention services.	No	**<u>Prevention</u>** Data has helped drive decision making relative to service priorities. The additional data section of the Youth Services Plan Update provides information on various indicators of problem adolescent behavior by

		municipality. The YSC is also interested in serving areas of Monmouth County where there is a gap in service. A balance of available county-wide services in Monmouth County along with a focus on the high need towns is strived for.
Prevention programs that teach youth and families skills that promote peaceful alternatives to conflict situations, improve family management and reduce the stressors that can escalate into violence are recommended. Monmouth County's prevention plan needs to incorporate the entire family into the program or strategy. Outreach to engage and involve parent(s) / guardian(s) is recommended.	No	**Prevention** The Youth Services Commission conducted a survey of youth and parents as part of the youth services planning process. Juvenile interviews are conducted at site visits and feedback from families obtained by the service providers is reviewed. In funding request applications, agencies are asked to describe the methods employed to gain youth input on program activities and to include results from any focus groups, surveys or interviews conducted. In addition, agencies are asked what strategies they have utilized to engage the families of youth in program activities. 180 Turning Lives Around provides services through Peace: A Leaned Solution (PALS), a research-based intensive therapeutic program that provides comprehensive services for children exposed to domestic violence using creative arts therapies. Peace: A Learned Solution also provides counseling, advocacy and case management for their non-offending parents.
To develop pro-social activities that youth can participate in that increase the youth's interaction with and exposure to positive peers and adults and promotes feelings of confidence and self -efficacy. To provide more structured and supervised time a youth has to reduce the time the youth	No	**Prevention** After-school and summer program activities are included in the delinquency prevention services. Positive Youth Development – an intentional, pro-social approach that engages youth and families in a manner that is productive and constructive; recognizes, utilizes, and enhances youths' strengths, and promotes positive outcomes for young people by providing

has to engage in negative behaviors. To develop safe environments that include structured activities, quality programming and supervision during the late afternoon and early evening when youth are more likely to engage in delinquency and programs that may include an in school, an after school and summer component.		opportunities, fostering positive relationships, and furnishing the support needed to build on their leadership strengths is integrated. The Monmouth County Human Services Needs Assessment conducted by Janus Solutions (April 2017) identified various unmet service needs. A need for an increase in after school and summer options for school age children & increase gang prevention/escape programs were identified. 21st Century Community Learning Centers Program and Out-of-School Time Resources exist in Asbury Park, Freehold Borough, Keansburg and Long Branch. After school and summer activities are included in the prevention programs funded by the Youth Services Commission (i.e. Life Skills Training in Asbury Park, Keansburg that is implemented by Wellspring Center for Prevention, Life Skills Training in Long Branch and Neptune Township & the After School & Summer Program implemented by Preferred Behavioral Health-Prevention First Division, the Boys and Girls Club of Monmouth County and Big Brothers Big Sisters of Monmouth and Middlesex Counties). The Alliance for a Healthier Asbury Park involves a coalition focused on improving the health of the residents and has taken a proactive approach in engaging youth at the Boys and Girls Club in the process. The Greater Asbury Park Community Development Initiative seeks to prevent juvenile crime and promote positive youth outcomes. The initiative provides Asbury Park with a comprehensive, city-wide coalition

		that enables all of these participating groups to communicate and coordinate with each other under the leadership of the Mayor and the Monmouth County Prosecutor's offices. The mission is to prevent juvenile crime and promote positive outcomes for youth. This action oriented initiative is currently focusing attention on ways to expand youth employment opportunities and to provide mentors for at risk youth in the city.
To reduce youth's employment and vocational problems including a lack of experience and training. To work with the business community to identify employers willing to hire youth. To collaborate with the Monmouth County Division of Workforce Development to provide work readiness and employment opportunities to youth. To integrate work experience opportunities for youth and career development into programs offered.	No	**<u>Prevention</u>** The United Way serving Monmouth County focuses on school readiness, early grade reading, youth career pathways and financial stability. Collaboration with the Monmouth County Division of Workplace Development takes place. The Deputy Director of the Division of Workforce Development is an appointed member on the Youth Services Commission and the Superintendent of the County Vocational School District serves as Chair of their Youth Council. Information relative to the federal grant for out of school youth is shared. In the past, the Monmouth County Division of Workforce Development (MCDWD) offered in school grants through their federal funds, as well as out of school grants. Their current focus is solely on out of school youth programs which, includes work readiness, paid work experience, individual training agreements and Brookdale Community College GED program. Work experience opportunities and career development programs for youth continues to be a need. NJ School Performance Reports include information that measure the degree which students are demonstrating behaviors

		that are indicative of future attendance and or success in college and careers. Big Brothers Big Sisters of Monmouth and Middlesex Counties Back on Track Program provides life skills, work readiness and educational advocacy & support services. Speakers have included a successful entrepreneur, a 4-star General in the Air Force, a lawyer, and a regional Starbucks manager. Topics included decision making, goal-setting, being in control and responsible for yourself, resume-building and interview skills, healthy debating. The Beyond School Walls Program implemented by Big Brothers Big Sisters connects Asbury Park High School students with volunteers from Jersey Shore University Medical Center for mentoring and to learn about careers in the health field. The Youth Advocate Program's Casey Life Skills curriculum seeks to address life domain areas such as Career Planning, Communication, Daily Living, Home Life, Housing & Money Management, Self-Care, Social Relationships, Work Life, and Work & Study Skills. Probation has offered employment workshops to help youth with job applications, resume writing & interview skills.

Comments:

DIVERSION

List recommendation from the 2018 -2020 Plan.	Has this recommendation changed? Yes or No	Provide an update or status of this recommendation.
To continue to track SHAs by town, race/ethnicity, gender and outcome and to submit quarterly statistics to the Monmouth County Prosecutor's Office, Family Division. To review the referrals by law enforcement to any funded countywide Station House Adjustment Program by town, race/ethnicity, gender and outcome. To increase the number of Station House Adjustments conducted by Law Enforcement for all youth.	No	**Diversion** In 2018, there were a total of 85 Station House Adjustments conducted by Monmouth County Law Enforcement that were reported to the Monmouth County Prosecutor's Office. This represents 86 fewer Station House Adjustments conducted in 2018 compared to 2017. It should be noted that only 22 of Monmouth County's 53 municipalities reported to the Prosecutor's Office that they conducted Station House Adjustments in 2018. The top three police departments in Monmouth County with the highest number of Station House Adjustments in 2018 were Keansburg (19), Sea Girt (14), and Long Branch (19). The gender of the 85 Station House Adjustments reported in 2018 indicates 69 (82 %) were male and 16 (18 %) were female. Of the 85 Station House Adjustments conducted in 2018 by Monmouth County Law Enforcement, 66 (78%) were successfully completed and 19 (22%) committed a new offense or did not complete the terms of the stationhouse adjustment. The race/ethnicity of the juveniles that had a Station House Adjustment conducted in 2018 indicates: White-57 (68%); Black-16 (19%); Hispanic-10 (11%) & Other- 2 (2%). In 2018 compared to 2017 there was a significant reduction in the number of Station House Adjustments conducted by Monmouth County Law Enforcement reported to the Monmouth County Prosecutor's Office. 2017 Stationhouse Adjustment Data for Monmouth

		County Police Departments was collected, reviewed and discussed. In 2017, there were a total of 184 Station House Adjustments conducted by Monmouth County Law Enforcement that were reported to the Monmouth County Prosecutor's Office. The top three police departments in Monmouth County with the highest number of Station House Adjustments in 2017 were Manalapan (17), Bradley Beach (16), and Monmouth Beach (15). The gender of the 184 Station House Adjustments reported in 2017 indicates 128 (76.6 %) were male and 43 (23.3%) were female. Of the 184 Station House Adjustments conducted in 2017 by Monmouth County Law Enforcement, 160 (87%) were successfully completed and 24 (13%) committed a new offense or did not complete the terms of the stationhouse adjustment. The race/ethnicity of the juveniles that had a Station House Adjustment conducted in 2017 indicates: White-134 (73%); Black-12 (16%); Hispanic-14 (7.6%) & Other- 6 (3.26%). Several of the YSC funded programs serve as a referral resource to law enforcement and are in the diversion service category. These include the Family Crisis Intervention Unit and the Keys to Innervisions Program. Youth served through these programs may not be reported formally as a Station House Adjustment. Expansion and outreach to the School Resource Officers has been initiated to make them aware of the diversion resources available in Monmouth County. Through the assistance of the County Executive Superintendent of Schools, a list of the school resource officers for 2018-19 was compiled which showed several districts did not have a designated school resource officer. The list of Monmouth County Juvenile Officers needs

		to be updated due to turnover and changes within the local police departments. The Director of the Family Division at the Prosecutor's Office will seek to have the Chiefs of Police surveyed for names of both the Juvenile Officers and School Resource Officers. The Monmouth County Juvenile Officers Association has not met recently and is currently less active than in other counties. Support from the Prosecutor's Office and local police departments to revitalize and reconvene the JOA is needed. The membership of the Youth Services Commission requires a liaison from the Monmouth County Juvenile Officers Association which in the past has been the President of the Juvenile Officers Association.
To increase the education of both law enforcement and parents/guardians on resources that exist to help youth in need of services and their understanding of the juvenile justice system components in Monmouth County. To encourage the development of diversion programs that engages parent(s) / guardian(s) and provides information on the resources that exist.	No	**<u>Diversion</u>** Notice of the Release of the 2018-19 MOA Between Education and Law Enforcement Officials with the Summary of Mandatory Reports to Law Enforcement was shared with Youth Services Commission members in March 8, 2019. The Monmouth County Police Academy offers a wide range of law enforcement trainings which are listed in their 2019 Course Catalog. There is a Police Professionalism and Cultural Diversity Course and Safe Schools Resource Officer Training included. Information on the juvenile justice system, adolescent development and community resources is recommended to be integrated into the courses where applicable. The Monmouth County STARS (Situational Training and Response Simulator) building located in Freehold is utilized for training of first responders, which include police, fire, corrections, EMS and Hazmat personnel. The 2019 Inventory of Resources for Monmouth

		County Youth has been updated and will be posted on Monmouth County's website for public access. Monmouth County Resource Handbook for Families- A Family Guide to Juvenile Justice has been distributed to parent(s)/guardian(s) and provides information on the resources that exist. The Family Crisis Intervention Unit (FCIU) provides both information and referral services and juvenile / family crisis intervention services. In total, 415 families received some level of service from the FCIU in 2017. 697 families received some level of service from the FCIU in 2018. The Keys to Innervisions (KIV) provided twenty (20) KIV "Possibility of Parenting" Sessions in 2017. The total number of unduplicated parents/guardians of adolescents involved in the KIV program who participated in one personal assessment session and one of the four two hour group sessions was 31. In 2018, 36 parents/guardians of the adolescents involved in the Keys to Innervisions (KIV) program participated in one personal assessment session for their child. 31 unduplicated parents/guardians of the youth involved in KIV participated in at least one KIV Possibility Parenting session. 17 Possibility Parenting sessions were held. Based on data of DP/PDP filings, the Family Division created a diversionary program specific to youth charged with their first marijuana possession/ paraphernalia offense. The Family Division and Monmouth County Mental Health Association now facilitate a monthly, full-day diversion program that

		includes an educational curriculum, a parent engagement component, linkages to community-based services, and, upon successful completion of the full-day diversion, immediate expungement of the offense. To increase the knowledge of community-based services, the Family Engagement Subcommittee previously hosted a resource event at Brookdale Community College targeting parents, educators, and police, and where 20 providers attended and presented on their services. The Monmouth County Resource Handbook for Families –A Family Guide to Juvenile Justice was updated and reprinted for distribution.
To develop County-wide diversion programs so that all municipalities would be able to access the programs on an equal basis. To increase Law Enforcement's awareness, utilization and referral to resources in Monmouth County designed to help children and families in need of services.	No	**<u>Diversion</u>** Keys to Innervisions implemented by Preferred Behavioral Health of New Jersey-Prevention First division is a county-wide diversion program that serves as a resource for law enforcement station house adjustments and a resource to Juvenile Conference Committees, Intake Service Conference and the Juvenile Referee. Big Brothers Big Sisters of Monmouth and Middlesex Counties has begun a "Back on Track" Mentoring Program serving as a diversion program for northern and western Monmouth County. It is recommended that the Back on Track program expand services County- wide to reach their contracted level of service in 2020 (with a preference of still serving northern and western Monmouth County). In 2019, Preferred Behavioral Health of NJ with the Mental Health Association of Monmouth County

		offered a monthly Mental Health Awareness Training (MHAT). The program is designed to train law enforcement, emergency first responders, veterans, military members and their families. MHAT provides participants with tools to help recognize and respond to mental health and substance use problems or crisis. The trainings address the increased prevalence of mental illness and substance use disorders among first responders due to stress and exposure to trauma. Training helps participants to: recognize signs/symptoms of mental health stress in fellow first responders; employ crisis de-escalation techniques; establish links to schools/community-based mental health agencies; refer individuals who show signs/symptoms of mental illness to appropriate services & be aware of mental health resources available in your community.
To provide a continuous 24-hour on call service designed to attend and stabilize juvenile –family crisis. Juvenile-family crisis is defined as behavior, conduct or a condition of a juvenile, parent or guardian or other family member which presents or results in: 1.) A serious threat to the well- being and physical safety of a juvenile, or 2.) A serious conflict between a parent or guardian and a juvenile regarding rules of conduct which has been manifested by repeated disregard for lawful parental authority by a juvenile or misuse of lawful parental authority by a parent or guardian, or 3.) Unauthorized absence by a juvenile for more	No	**Diversion** 2017 & 2018 Family Crisis Intervention Unit (FCIU) and Mobile Response and Stabilization Services statistics were reviewed. The FCIU had 31 families carried over from 2017 and added 124 families in 2018. The gender of the juveniles added indicates: 81 (65%) were male & 43 (35%) were female. The race/ethnicity of the juveniles added indicates: 73(59%) as White; 14(11%) as Black; 33(27%) as Hispanic & 4 (3%) Other. An additional 542 individuals received information and/or referral services only. In total, 697 families received some level of service from the FCIU in 2018. A total of 519 FCIU face to face conferences were held in 2018.Serious conflict between a parent or guardian & a juvenile was

than 24 hours from his/her home, or 4.) A pattern of repeated unauthorized absences from school by a juvenile subject to the compulsory education provision of Title 18A of the New Jersey Statutes (N.J.S.A. 2A:4A-22(g)).		the reason most frequently indicated in 23 (19%) of the new cases added, which was followed by truancy at 22 (18%), court diversion/substance use at 20 (16%), and school issues at 16 (13%). Eleven (11) juvenile/family crisis petitions and zero (0) out of home placement petitions were filed by the FCIU in 2018. Note: Seven (7) of these were direct diversions from the court for a family crisis petition. In total, 415 families received some level of service from the FCIU in 2017. A total of 300 FCIU face to face conferences were held in 2017. Serious conflict between a parent or guardian & a juvenile was the reason most frequently indicated in 31 (20%) of the new cases added, which was followed by mental illness at 28 (18%), and serious threat to well-being & physical safety of juvenile at 27 (18%) and then truancy at 26 (17%). Three (3) juvenile/family crisis petitions and one (1) out of home placement petitions were filed by the FCIU in 2017.
To work with families to improve parenting skills, communication and cohesiveness and link youth and /or their parents to resources to help address any legal issues, substance use or mental health problems.	No	**Diversion** In 2018, 26 youth received individual services through the Wrap Around Program and an additional 61 youth were provided services through the school-based, psycho-educational Teen Tactics groups. Combined in 2018, 87 youth received programming. The Mental Health Association of Monmouth County is funded to work with families through their Parent/Child Conflict Resolution program. The total number of families served in 2017 by the Parent Child Conflict Resolution Program, also known as "Wrap Around" was 52.

		The Family Crisis Intervention Unit provides information and referral services. Monmouth Vicinage Family Engagement Coordinator serves as a resource to link court involved youth with resources. A parent Advisory Group has been formed. In 2018, twenty-eight Parent Advisory Committee meetings were held. Of the 28 Parent Advisory Committee meetings held during 2018, 17 (61%) were conducted in English and 11 (39%) were conducted in Spanish. The Family Based Services Association of NJ offers peer support to families in Monmouth County. The Parent Advisory Group (PAG) with instruction and guidance from the "Write Now" Program crafted advocacy letters to Monmouth's Council on Juvenile Justice System Improvement (CJJSI) translating personal experiences with their system-involved child into actionable recommendations for system improvement initiatives. In response, the CJJSI wrote a letter back to the PAG acknowledging their concerns and outlining how their feedback is helping to drive additional policy changes like restorative justice practices and the creation of a court diversion brochure.
To encourage school districts to utilize the services of the Family Crisis Intervention Unit to address truancy and develop an early warning system and intervention plan for students with school attendance issues. To have crisis intervention training implemented at each school district in Monmouth County.	No	**<u>Diversion</u>** The 2017-18 School Performance Reports from the NJ Department of Education indicated that the following Monmouth County High Schools were among the top districts with a high Chronic Absenteeism (School – Wide Percentage) of students that were absent for 10% or more days enrolled: Neptune High (40.6%); Keansburg High (39.2%); Asbury Park High (35.4%);

To continue the work of the Education Subcommittee of the local Council on Juvenile Justice System Improvement to explore strategies to divert minor school based complaints from the juvenile justice system in accordance with the Memorandum of Agreement.		& Monmouth County Vocational-Class Academy (70.6%). The School Performance Report for 2017-18 indicated the following High Schools had a high Student Suspension Rate (percentage of students who were suspended one or more times during the school year): Asbury Park (22.9%); Keansburg (19.3%); Long Branch 205 (14.3%); Monmouth Regional (14.5%). The Mental Health Association of Monmouth County's PASS program is providing school based early intervention services to address chronic absenteeism, and the connection between truancy and delinquency. During 2018, 5 Youth Focus Group Sessions and 51 School-Based Truancy Reduction group sessions were conducted and a total of 296 youth were served. During 2018 the following school districts participated in PASS Truancy Reduction programming: Asbury Park, Neptune, & Keansburg. Groups were held : at Neptune Middle School, Asbury Park Middle School (MLK), Keansburg Middle School (Bolger) & Keansburg H.S., and Middletown Middle School (Thorne) & Middletown North H.S and Monmouth Regional. The Youth Focus Group Survey Summary Report conducted by the Mental Health Association of Monmouth County included 357 youth participants as of May 6, 2019. 56% of respondents indicated that they had missed school 5 or more times in a school year. The most commonly cited reasons for these absences included medical issues, vacation, not wanting to go to school, and waking up late. The State of NJ Department of Education publication dated May 2018 entitled, "Getting Students to School:

		Strategies for Improving Attendance and Reducing Chronic Absenteeism" was distributed as a resource. The Education Subcommittee of the local Council on Juvenile Justice System Improvement is looking at all school-referred complaints and analyzing case processing. In the 2016-17 school year, there were 74 school-based complaints (in 2015-2016 there were 113.) School-based complaints are overwhelmingly minor, and so cases which take a long time to resolve are usually counter-productive. There is a wealth of information in this analysis, with the goals being to a. help schools understand that referring to the court can be not helpful and actually make things worse; b. looking for chances for appropriate diversion; and c. help both schools and the court/law enforcement create new methods of managing troublesome behavior in school. The discussion among the schools and JDAI members are full of moments of understanding which are leading to ideas for collaboration. To increase awareness of the Education Subcommittee's on-going work, the Executive County Superintendent disseminated the subcommittee's first Biennial Newsletter regarding local JDAI initiatives, pertinent training opportunities for educators, community-based after-school activities for youth, and upcoming JDAI meetings dates. To decrease discretionary school-based complaint filings, Neptune School District examined school-based offense trends and implemented targeted strategies consisting of: increasing collaboration with local law enforcement, changing of staff duties to include increased monitoring of hallways, holding Equity and Culturally Responsive Trainings for district principals,

		and bringing back out-of-district students by partnering with Effective School Solutions to support emotionally and behaviorally challenged youth. Neptune's middle school also implemented a point system to incentivize positive behavior and the high school developed a School Improvement Panel. Monmouth County CIACC Education Partnership hosted a training on "School Refusal: The Whys and How to Help" on December 8, 2017 that included presentation from the Family Crisis Intervention Unit. Information and resources from a Community Toolkit to Address and Eliminate Chronic Absenteeism was shared. The toolkit is available at www.ed.gov/chronicabsenteeism/toolkit During 2018 and 2019, the Monmouth County CIACC Education Partnership trainings included the following topics: Marijuana-Consequences of Legislation; Use of Social Media; the Nurtured Heart Approach and Mindfulness; Human/Sex Trafficking; Autism; Best Practices; the McKinney-Vento Homeless legislation / Children's System of Care Overview and Vaping. The Uniform State Memorandum of Agreement Between Education and Law Enforcement issued with 2019 Revisions reorganized and reframed the Agreement to clarify the difference between mandatory and non-mandatory reports to law enforcement and acknowledge the collaborative efforts of schools and law enforcement and highlight the necessity of these relationships. Vaping and the use of electronic smoking devices by teens is a growing concern and issue schools are

		dealing with. Schools are encouraged to develop policies surrounding the use and/or possession of electronic smoking devices. The MOA between Education and Law Enforcement indicates that electronic smoking devices should only be reported to law enforcement when there is reasonable suspicion that the device is being used as a nexus for marijuana or other illegal drugs.
To encourage police departments with the support of the Prosecutor's Office to utilize the Family Crisis Intervention Unit as a resource in conducting stationhouse adjustments with the purposes of incorporating interventions and services to youth directly in the community (when there is a clear need for services), in lieu of filing a delinquency complaint and relying on the court to obtain those services. To have the Prosecutor's Office and Family Intake screen the appropriate cases to crisis, with the approval of the Family Court.	No	**Diversion** As of 2016, a direct referral to FCIU was created by Family Intake and the Monmouth County Prosecutor's Office ("MCPO"). Subsequent to juvenile criminal complaints being signed, and under limited circumstances, cases are prescreened by MCPO as a direct referral to FCIU. With Family Intake's concession, the Court will be notified. The Court then makes the ultimate decision to divert recommended crisis matters directly to FCIU without further court proceedings. The matters are not formally docketed unless there is an application for crisis petition.
To reduce serious conflict between parent(s)/guardian(s) and the juvenile thereby improving family functioning; to stabilize family crisis as to avoid an out-of-home placement; and to prevent delinquent behavior of at-risk youth. To educates families on mental health and/or substance abuse, and on how to effectively manage the problem. As well as, to advocate for families and assist them in navigating through the child behavioral health system.	No	**Diversion** The 2018 FCIU statistics indicated serious conflict between a parent or guardian & a juvenile was the reason most frequently indicated in 23 (19%) of the new cases added, which was followed by truancy at 22 (18%), court diversion/substance use at 20 (16%), and school issues at 16 (13%). CPC Mobile Response and Stabilization received a total of 1,960 calls in 2018, of which 1,893 (97%) involved a face to face response. The risk behaviors

		presented included: School Problems 180 (10%); Parent Child Conflict 170 (9%); Emotional / Psychological 561 (30%); Physical Aggression 310 (16%); Suicidal Ideation/Threat 334 (18%); Runaway 19 (1%); and Other 313 (17%). The Mental Health Association of Monmouth County is funded to provide the Parent Child Conflict Resolution Program- Juvenile Family Crisis Intervention Resource for Monmouth County families referred by Monmouth Vicinage, Family Division Judiciary and prioritized by the Family Crisis Intervention Unit (FCIU). Services include in-home therapy, case-management and purchase of wrap-around services. Short term, community based crisis intervention services which, include a home based model of service delivery to reduce barriers that keep families from accessing services will be provided. Assessment and early intervention services that offer skill training in family communication, parenting, problem-solving and conflict management will be included.
To provide early intervention/education services to juveniles, who have come to the attention of the Family Court, with minor offenses related to conduct disorder, anger management problems and/or alcohol and drug abuse issues. To provide children greater opportunity to receive interventions or treatment outside the juvenile justice system avoids: 1) the stigma of delinquency, 2) the potential for punitive consequences in response to a treatment need,	No	**<u>Diversion</u>** The recommendations included in the Diversion Section became part of Monmouth County's Public Announcement Request for Proposals (RFP) led through the Competitive Contracting process for 2018 with two one year renewal options. The offense category consistently with the highest number diverted by Monmouth Vicinage in 2018, 2017, 2016, 2015, 2014 and 2013 was <u>possession of 50G or less of marijuana or 5G or less of hashish</u>.

and 3) according to the research, continued delinquency.		Based on data of DP/PDP filings, the Family Division created a diversionary program specific to youth charged with their first marijuana possession/ paraphernalia offense. The Family Division and Monmouth County Mental Health Association now facilitate a monthly, full-day diversion program that includes an educational curriculum, a parent engagement component, linkages to community-based services, and, upon successful completion of the full-day diversion, immediate expungement of the offense. During 2019, the International Institute for Restorative Practices will coordinate and facilitate restorative justice professional development training that includes an Introduction to Restorative Practices and Using Circles Effectively for Monmouth County's Juvenile Justice System stakeholders: including: Court, Probation, Prosecutor's Office, Juvenile Conference Committee point-persons and a select number of Juvenile Officers Association representatives from towns with increased youth arrest rates.
To have an array of community based programs and service interventions located in different geographic locations of Monmouth County; which serve as a resource to Juvenile Conference Committees, Intake Service Conference and the Juvenile Referee.	No	**Diversion** Community based programs and service interventions are located in different geographic locations of Monmouth County and serve as a resource to JCCs, Intake Service Conference and the Juvenile Referee. Keys to Innervision will provide assistance with transportation if needed and or host sessions in a particular community if there are sufficient referrals to do so. The Back on Track Mentoring Program will provide diversion services for youth in the northern and western part of Monmouth County.

		Family Crisis Intervention Unit services are county-wide.
To regularly share resource information with Juvenile Conference Committees and host JCC roundtable sessions as a forum to discuss issues and educate members on the resources available.	No	**<u>Diversion</u>** The top (5) towns with the most Juvenile Conference Committee (JCC) referrals over time are: Neptune; Middletown; Freehold Borough/Freehold Township; Howell and Englishtown/Manalapan. *Source: Samantha Christie 3/29/19* Information on Juvenile Conference Committees (JCCs) in Monmouth County was updated. This includes the number of Juvenile Conference Committees that exist in Monmouth County as well as the number of volunteers that serve on Juvenile Conference Committees. There are 19 Juvenile Conference Committees in Monmouth County. All towns have a JCC within a short distance. The total number of volunteers serving on JCCs is 178. Of the 178, 31 or 17% are juvenile (student) members. *(Source: Scott Prato on 4/5/18)* Keys to Innervisions, the 'Back on Track" Mentoring Program and the Family Crisis Intervention Unit serve as referral resources for the Juvenile Conference Committees and have regular communication regarding the resources available. Informational packets regarding program resources, speaking engagements, meetings and phone contact takes place. On April 10, 2019, the Monmouth Vicinage celebrated its volunteers with its Annual Volunteer Dinner with

		great excitement. The Family Division honored three Juvenile Conference Committee (JCC) volunteers for their invaluable service that assist their respective JCC programs running as efficiently as possible. The awards were given for dedicated years of service, knowledge of different programs as well as the ability to always be willing to assist when necessary. The main presentation was given by two Monmouth County Sheriff's Officers who spoke about the consequences of distracted driving. Videos presented were very impactful and drew emotion from every audience member. Plans for the future include JCC recruitments at local high schools, and colleges. The Monmouth Vicinage hosted a Volunteer Recognition Dinner. The event is to thank the Vicinage volunteers, such as the Juvenile Conference Committee members, as well as provide them with an informative and educational presentation, which if applicable, they can earn CLE credits for. Topics in the recent past included Human Trafficking, Gang Activity, Gender Awareness, (LGBTQ). The dinner event held this April concentrated on the opioid crisis currently in New Jersey. The presentation was given by the Monmouth County Prosecutor's Office. The topic was further supported by the Honorable Honora Kilgallen, J.S.C. who oversees Drug Court. Judge Kilgallen addressed the group regarding addiction and explained the success many defendants have had with the support of Drug Court. A drug court graduate also addressed the group. He depicted his journey into the world of addiction and how drug court saved his life. This individual is now substance free and a productive member of society. The presentation was very well

		received. Information regarding Drug Court and available resources to assist addiction were provided as well. A volunteer training for our JCC Volunteers was held on April 19, 2018. The volunteers were trained on the importance of JCC, its duties and responsibilities. The volunteers were also educated on the Code of Conduct, applicable to both judiciary employees and volunteers. A JCC Round Table is being discussed for the fall. We typically conduct the Round Tables every 2-3 years. All JCC volunteers are invited and a number of stakeholders present their services and provide educational materials. These round tables provide the JCC Volunteers with a wealth of information and truly educate them as to the resources available, which programs are appropriate based on their specific scenarios as well as the follow up support services that are available.
Tracking and review of the diversions in Monmouth County by race/ethnicity is recommended on a regular basis. Stationhouse adjustments conducted by law enforcement that are reported to the Monmouth County Prosecutor's Office vary significantly by race/ethnicity and by town. An increase in referrals to diversion programs for all youth is recommended. Programs in the diversion service category are encouraged to outreach to all Monmouth County Police Departments and Juvenile Conference Committees to raise awareness regarding their program and referral process. Tracking of the referrals and admissions to any funded diversion program	No	**Diversion** In addition, Family Automated Case Tracking System (FACTS) court processing data from Monmouth Vicinage on the 2018 & 2017 diversions by age, gender, race/ethnicity, offense and type were reviewed. Of the 292 total cases diverted in 2018, the diversion mechanism indicates: 236 (80.82%) were through Juvenile Conference Committees (JCC); 54 (18.49%) were through Intake Service Conference (ISC) and 0 (0%) was listed under Other. The race/ethnicity of juveniles with a diversion in 2018 indicates 186 (67.39%) White; 59 (21.38%) Black; 25 (9.06%) Hispanic; 4 (1.45%) Asian and 2 (.72%) Other. Males comprised 197 (70.36%) of the diversions in 2018 and

will include a breakdown by race/ethnicity, gender and town of residence.		females comprised 83 (29.64%). The ages of juveniles with diversions in 2018 indicates: 122 (43.57%) 17 years of age; 118 (42.14%) 15 to 16 years of age; 30 (10.71%) 13-14 years of age; 9 (3.21%) 11 -12 years of age and 1 (.36%) 6-10 years of age. In 2018, Family Court diversions indicate that 197 (70.36%) were male and 83 (29.64%) were female. There were 123 fewer males diverted and 57 fewer females diverted in 2018 compared to 2017. Of the 478 total cases diverted in 2017, the diversion mechanism indicates: 358 (74.90%) were through Juvenile Conference Committees (JCC); 119 (24.90%) were through Intake Service Conference (ISC) and 1 (.21%) was listed under Other. Tracking of referrals and admissions to funded diversion programs includes a breakdown by race/ethnicity, gender and town of residence. Diversion programs are encouraged to conduct ongoing outreach to police departments and Juvenile Conference Committees. A Juvenile Officers Association meeting held on 5/8/18 included presentations from the prevention & diversion programs offered through the Mental Health Association of Monmouth County and Preferred Behavioral Health of NJ-Prevention First Division and the Second Floor Youth Helpline.

DETENTION

List recommendation from the 2018 -2020 Plan.	Has this recommendation changed? Yes or No	Provide an update or status of this recommendation.
To continue an effective continuum of detention alternatives with various degrees and types of supervision for youth whose cases are pending disposition To strengthen and improve detention alternatives serving high-minority areas. To strengthen and improve detention alternatives and increase the rate of success on the alternative. Strategies to reduce the number of youth, who are negatively discharged from a detention alternative program, for non- compliance with program rules need to be developed.	No	**<u>Detention/Detention Alternatives</u>** The continuum of juvenile detention alternatives in Monmouth County are outlined in the 2018 Inventory of Resources for Monmouth County youth under the Monmouth County Division of Juvenile Detention Alternatives. Additional community based resources for youth on juvenile detention alternative status who reside in Asbury Park, Ocean Township and Neptune Township were developed through the Youth Advocate Program's Casey Life Skills and YAP WORX program. In 2018, the Detention Alternative Unit had 50 youth admissions on the Home Detention / Electronic Monitoring Program; 2 youth admissions on the Electronic Monitoring Expansion – Wireless/GPS; 8 youth admissions to House Arrest A; and 7 youth admissions to the Juvenile Shelter. Of the 79 total departures from detention alternatives throughout the continuum during 2018, 73 or 92.4% were successful and 6 or 7.6% of the departures were unsuccessful. House Arrest B was not utilized during 2018. The top municipalities juveniles on detention alternative status resided in 2018 indicates: Asbury Park (10) & Long Branch, Keansburg, Neptune and Middletown all tied with (6).

		The race/ethnicity of juveniles placed on detention alternative status in 2018 indicates: African American-27 (54%); Caucasian -12 (24%); Hispanic-10 (20%); and Other-1 (2%). The Average Length of Stay (ALOS) for juveniles placed on detention alternative status in 2018 indicates: Home Detention Program- 51; House Arrest B – 35 (1 departure in 2018): House Arrest A- 48; GPS- 18 and Shelter 38. In 2017 the Detention Alternative Unit had a total of 78 departures throughout the continuum. Of the 78 departures 72 or 92% were successful departures, while 6 or 8% were negative discharges.
To reduce the lengths of stay of youth in detention and detention alternatives due to case processing delays	No	**Detention/Detention Alternatives** In 2018, there were 81 departures from detention with an average length of stay of 33.8 days. The mean length of stay in juvenile detention for Monmouth County juvenile admissions in 2017 was 24.4 days and the median length of stay was 7. The length of stay decreased from a mean of 50.8 days in 2016 and a median length of stay of 8 in 2016. In 2017 the length of stay on Detention Alternatives decreased for every program, except Home Detention which increased by 3 days. The largest decrease was from GPS and Shelter which both decreased 20 days.
To continue to track admissions to juvenile detention and juvenile detention alternatives by race/ethnicity. To utilize the Juvenile Detention Alternatives Initiative (JDAI) in Monmouth County as a	No	**Detention/Detention Alternatives** Monmouth County as a JDAI site has demonstrated a commitment to the Core Strategy of relying on data to drive system-improvement. Admissions to juvenile detention and detention alternatives are tracked by race/ethnicity.

systems change model to address the factors within the juvenile justice system that contribute to Disproportionate Minority Contact (DMC). To continue to work to reduce the over-representation of minority youth in the juvenile justice system. To improve the success of youth on probation who experience difficulty complying with the basic rules of probation supervision and are at risk of violation for noncompliance.		There were 79 admissions of Monmouth County juveniles to the Middlesex County Juvenile Detention Center in 2018. The total number of Monmouth County Black juvenile admissions to the Middlesex County Juvenile Detention facility in 2018 was 43 (54%); which represents a decrease of 7 admissions from 2017. The total number of Monmouth County White juvenile admissions to the Middlesex County Juvenile Detention facility in 2018 was 14 (18%); which represents an increase of 3 admissions from 2017.The total number of Monmouth County Hispanic juvenile admissions to the Middlesex County Juvenile Detention Facility in 2018 was 11 (14%); which represents a decrease of 4 admissions from 2017. The municipalities with the highest number of admissions of Monmouth County juveniles to the Middlesex County Juvenile Detention Facility in 2018 were Asbury Park (17); Neptune Township (11); and Long Branch (9). There were 86 admissions of Monmouth County juveniles to the Middlesex County Juvenile Detention Center in 2017. The total number of Monmouth County Black juvenile admissions to the Middlesex County Juvenile Detention facility in 2017 was 50; which represents a decrease of 16 admissions from 2016.The total number of Monmouth County White juvenile admissions to the Middlesex County Juvenile Detention facility in 2017 was 11; which represents an increase of 2 admissions from 2016. The total number of Monmouth County Hispanic juvenile admissions to the Middlesex County Juvenile Detention Facility in 2017 was 15; which represents a decrease of 3 admissions from 2016.

		Juvenile Detention Alternatives admissions in 2018 & 2017 are included in the additional data section of this document and provide race/ethnicity information. The Case Processing and Racial/Ethnic Disparities subcommittee of the local Council on Juvenile Justice System Improvement meet to discuss issues identified through the data. Family Court Services funds and JDAI Innovation funds provide services to minority youth and strive to improve the success of youth on probation. There were a total of 42 Violations of Probation filed during 2018. Of the 42 VOP's, 4 (9%) involved violation of the standard conditions of probation, 20 (48%) were new offenses and 18 (43%) were program violations. There were a total of 41 Violations of Probation filed during 2017. Of the 41 VOP's, 9 (22%) involved violation of the standard conditions of probation, 18 (44%) were new offenses and 14 (34%) were program violations.

DISPOSITION

List recommendation from the 2018 -2020 Plan.	Has this recommendation	Provide an update or status of this recommendation.

	changed? Yes or No	
A variety of offense specific dispositional option programs are recommended that increase supervision of juveniles after school, in the evenings and during the summer. Juveniles adjudicated delinquent for sex offenses are in need of specialized counseling. Evidence-based family intervention models; rigorous career preparation and vocational training programs; intensive youth advocate and mentoring programs; cognitive-behavioral skills training and specialized mental health and substance abuse treatment models are recommended. To support dispositional option programs that focus on minority youth, their families, and communities.	No	**<u>Disposition</u>** In 2018, Family Court processing data showed that there were 351 juveniles adjudicated delinquent, 519 cases adjudicated delinquent and 1,102 offenses adjudicated delinquent. The ages of the 351 juveniles adjudicated delinquent indicated that 144 or 41.03% were 15-16 years of age; 110 or 31.34% were 17 years old; 73 or 20.8% were 13-14 years of age; 23 or 6.55 % were 11 -12 years of age and 1 or .28% was 6-10 years of age. Males comprised 285 (81.20%) of those adjudicated delinquent in 2018 and females comprised 66 or 18.80%. Race/Ethnicity data for 2018 adjudicated delinquent indicates 159 (46.22%) White; 143 (41.57%) Black; 37 (10.76%) Hispanic; 3 (.87%) Asian and 2 (.58%) Other. The recommendations included in the Disposition Section became part of Monmouth County's Public Announcement Request for Proposals (RFP) led through the Competitive Contracting process for 2018 with two one year renewal options. The Probation Offender Program provides treatment to counsel youth with sexually inappropriate behaviors to provide the skills needed to prevent recurrence of their behavior. Cumulative, there were 25 youth served through the Probation Offender Program during 2018. 10 youth were indicated active in the program at the end of the 4th quarter of 2018. IEP Youth Services provided a total of 433 units of service that consisted of the following: 218.5 Individual Sessions; 76 Group Sessions; 10 Family Education; 25 Family Sessions ; 9 Intake; 8 Discharge; 16 Social Skills Groups; 25.5 Substance Abuse Individual; 6 Substance Abuse

		Group; 3 Substance Abuse Family; 27.5 Anger Management Individual/Family and 8.5 Anger Management Group. 522.5 Direct Service Hours were provided. The number of youth in the Probation Offender Program is lower than previous years. The Annie E. Casey Foundation publication entitled, "Transforming Juvenile Probation –A Vision for Getting it Right" was shared and reviewed by the YSC Planning Committee. In 2018, the POP transport drivers provided 765.5 hours that covered 9,974 miles to make a total of 134 trips with POP clients to sessions. There were 12 unduplicated youth who received services through POP transport in 2018. On 7/7/18, the NJ Bar Association's Megan's Law Sub-committee made a recommendation to Hon. Glenn A. Grant, J.A.D., Administrative Office of the Courts for the creation of a Juvenile Probation Treatment program, a treatment-oriented deferred disposition program for individuals who are charged on a juvenile complaint with a sexual offense. This recommendation is modeled after Monmouth County's Probation Offender Program. The CIACC Education Partnership provided training on June 1, 2018 on the topic of Human / Sex Trafficking. Representatives from the Division of Child Protection and Permanency, the Monmouth County Prosecutor's Office, Debbie Riveros from the Child Advocacy Center and Dream Catchers (an organization that provides ongoing support to victims) were included.

		During 2018, the Probation Multi Treatment Program provided 240 units of service through the use of consultants. There were 24 unduplicated youth who received services through PMT in 2018. Services were individualized based upon the needs of the youth on probation supervision and their family. Workshops such as a Shoplifting Group Education, a Gang Awareness Program, Project Pride and the Juvenile Parent Probation Orientation were also offered. Youth from Asbury Park, Neptune Township and Ocean Township that are on detention alternatives or probation supervision may be referred to the Youth Advocate Programs Casey Life Skills and YAP WORX. In 2018, there were 216 juvenile cases monitored by the Probation Division Staff. Of those juveniles, 137 (63%) were on probation supervision, while 79 (37%) were Deferred Dispositions. In 2017, there were 271 juvenile cases monitored by the Probation Division Staff. Of those juveniles, 195 (72%) were on probation supervision, while 76 (28%) were Deferred Dispositions. Monmouth Vicinage Probation Division reported that on 4/22/19 there were 92 youth on Juvenile Probation Supervision and 92 youth on Deferred Disposition. Point in time data from Monmouth Vicinage Probation Division on 3/31/19 indicated there were a total of 166 youth on probation. The gender of the youth on probation was 137 (82.5%) male and 29 (17.5%) female. The race of the youth on probation indicated 78 (47%) as White; 69 (42%) as Black; 17 (10%) as Hispanic; and 1 (.6%) as Asian and 1 (.6%) as

		Unknown. The age range of the youth on probation was 9 years of age to 21 years of age. The largest age group included 39 youth 17 years of age, 37 youth 18 and 31 youth 16 (combined ages 16, 17 and 18 comprised 64% of the total). There were 23 youth 14 years of age, 20 youth 15 years of age and 8 youth 13 years of age (combined ages 13, 14, 15 comprised 31% of the total). Four youth were 19 years of age, two youth were 21, one youth was 9 and one youth was 12 years old. Youth on probation on 3/31/19 resided in 34 different Monmouth County municipalities. There were 155 youth listed next to a Monmouth County municipality and 11 youth who were listed next to 6 other counties or out of state. The Monmouth County municipalities with the highest number included Neptune Township-22; Asbury Park-13; Middletown-11, Long Branch-10; Ocean Township-10; Marlboro-9; Howell Township-8; Freehold Twp.-7; Highlands-7; Keansburg-7. Based upon the Probation Division statistics on 3/31/19, there were 21 youth or 12.65% of the total had community service ordered. 35 youth or 21% of the total had CMO ordered. The number of youth CMO involved was indicated as unknown. Point in time data from the Children's Inter-Agency Coordinating Council (CIACC) Summary of Activity for Monmouth County in March 2019 indicated that there were 18 with legal involvement-case pending; 18 with legal involvement-probation/parole and 74 with no legal involvement. Legal involvement is reported from the Legal Module/Seriousness item on the Strength & Needs Assessment. In review of the Juvenile Probation 2018 Program Violations, the behavior or reasons given often related

		to failure to attend, comply or cooperate, positive drug tests, the youth absconded or an altercations or assault while inpatient. The Probation Profile for Juvenile Supervision dated February 2018 indicated that Monmouth had 254 juvenile clients. Of that number 205 were non specialized and 49 were specialized. In 2018, there were 7 Monmouth County youth placed on the Juvenile Intensive Supervision Program (JISP). In 2017, there were 14 Monmouth County youth placed on the Juvenile Intensive Supervision Program (JISP).
To foster employment opportunities for youth that includes supported work job sites in the community. To provide work readiness and employment skills training for youth	No	**Disposition** The Youth Advocate Program's Inc. uses Casey Life Skills curriculum that includes work in the areas of career planning, communication, daily living, home life, housing & money management, self-care, social relationships, work life, work & study skills. YAPWORX will be individualized to each youth's ability and needs. Youth in the program will also be connected to volunteers from the local labor market and develop work readiness skills. Utilization of the resources made available through the Monmouth County Division of Workforce Development is encouraged.
To provide intervention and treatment services to youth with drug/alcohol offenses that is tailored to the unique needs of the adolescent. Legal interventions and sanctions or family pressure may play an important role in getting	No	**Disposition** Intervention and treatment services for outpatient substance abuse treatment are made available through the Probation Multi Treatment Program as well as through other outpatient and intensive outpatient programs funded through the Monmouth County Office

adolescents to enter, stay in, and complete treatment. . To effectively treat substance use disorders in adolescents, identification and treatment of any other mental health condition they may have is needed.		of Addiction Services. The offense category consistently with the highest number adjudicated delinquent by Monmouth Vicinage in 2018, 2017, 2016, 2015, 2014 and 2013 was possession of 50G or less of marijuana or 5G or less of hashish. New Hope Integrated Behavioral Health Care is funded to provide adolescent residential alcohol and drug treatment services as a dispositional option for the Family Court. K.E.Y.S. ACADEMY -Knowledge Empowers Youth & Sobriety is a Recovery High School in Monmouth County (Matawan Aberdeen Regional School District in partnership with Brookdale Community College-Lincroft Campus and Right Your Life - a passionate group of community members). The Recovery High School helps identified students facing many challenges and struggles upon their return to school after completing inpatient treatment and offers resources for relapse prevention programs to better support students. A CIACC Substance Use Committee was formed with the following stated mission: "Community partners will work collaboratively to assess the adolescent substance use needs in Monmouth County by understanding, developing, enhancing, and informing the local and state systems of existing and needed resources, barriers, and gaps." Monmouth County Division of Mental Health and Addiction Services and the Monmouth County Office of Youth Services Planning have dedicated resources to

		address adolescent substance abuse and through their planning process are assessing the needs. Substance Use Navigators in Monmouth County funded through the CSOC will also be conducting a needs assessment. The Monmouth County Division of Mental Health and Addiction Services conducted a survey and youth services provider focus groups for their 2020-2023 planning process that was reviewed by the YSC Planning Committee. Drug related deaths in Monmouth County in 2018 were 221. Monmouth County ranked 3rd among the counties in NJ with the highest number. In 2017, there were 171 drug related deaths in Monmouth County.
To support dispositional option programs that focus on minority youth, their families, and communities.	No	**Disposition** Dispositional option programs that focus on minority youth, their families and communities continue to be a need. The race/ethnicity of the 2018 adjudicated delinquent juveniles indicates 159 (46.22%) were White; 143 (41.57%) were Black and 37 (10.76%) were Hispanic.
To work with youth and family teams and other system of care providers to develop treatment plans for youth and families who are multi-system involved. To participate in cross training and joint systems review meetings.	No	**Disposition** The STEADY program implemented by the Monmouth County Division of Juvenile Detention Alternatives facilitates Transition "Team Meetings" (voluntary) with the youth, family, CMO, and other support persons - to help youth and their families identify needs, set goals and develop action steps to achieve same. Out of the Team Meetings, DA Staff develops a "discharge plan" in preparation for youth departing the alternative and transitioning onto Probation. This approach is intended to improve continuity for the youth/family, increase communication between all system-involved parties, and increase the overall

		successful outcomes of youth. In 2018, the Division of Juvenile Detention Alternatives completed 26 transition reports. In 2019 the Division of Detention Alternatives added a transitional Detention Alternative Supervision component to the GPS/EME alternative for youth with chronic offense histories. This program is available but as of the first quarter of 2019, no referrals were received. Cross training in the area of mental health and addiction services is available. The Monmouth County Mental Health and Addiction Services' Annual Conference offers juvenile justice stakeholders an opportunity to attend workshops and speakers on current topics and trends in the field. The CIACC Educational Partnership provides workshops and trainings throughout the school year that are well attended and informative. The Monmouth County Mental Health & Addiction Services third annual conference was held October 26th at Centra State Medical Center. Through the 2018 JDAI Innovations admin funds (one day training opportunities for local Council members), 7 juvenile justice stakeholders attended. Additionally, 6 juvenile justice stakeholders attended the 2018 Biennial Child Protection Skill Building Conference entitled, "Hidden Danger: Keeping Kids Safe on the Internet" held on September 14, 2018; 5 attended the Third Annual Rutgers-Newark Conference on Youth Development and Juvenile Justice held June 8, 2018 and 4 attended Rutgers Health-DISRUPT Trauma Conference on May 31, 2018.

To respond effectively to the increasingly complex needs of children, encouraging the involvement of parents and enlisting the support of the community. To pursue a treatment/rehabilitation philosophy that dictates that each youth be assessed individually and receive services tailored to meet that youth's needs. Resources for adolescent treatment should focus on a system of care that is community based and concentrates on the least restrictive level of care that would help adolescents sustain recovery through community supports. To promote family involvement and strengthen the role that families of youth play. To support approaches to motivate and engage youth and families in services.	No	**Disposition** Family outreach, education and counseling services are provided through the programs funded through the State Community Partnership Grant, Family Court Services funds and JDAI Innovations Funding. The families of court involved youth are strongly encouraged to participate in the youths' treatment/rehabilitation. The Family Engagement Coordinator (FEC) & Support Specialist provides peer-to-peer support to youth and families while they await their juvenile court hearings/proceedings and helps to facilitate court surveys and establish linkages for the youth and families to community resources and services. Parent Advisory Group meetings are held to give voice to parents/guardians of juvenile justice system involved youth to explore ways to better serve youth and families in the system from recommending trainings to exploring potential system reform practices and efforts. The Family Engagement Coordinator and Support Specialist has recruited parents/guardians of juvenile justice involved youth to attend monthly parent advisory group meetings and has coordinated speakers for those meetings based upon the feedback and interests of parent/guardians. The Family Engagement Coordinator consistently attends the Juvenile/Parent Orientation Program presentations at the Probation Division to engage with parents of youth on probation.
To share information and training opportunities with juvenile justice personnel on trauma informed care and resources. To help youth develop and practice skills	No	**Disposition** A School Justice Partnership Technical Assistance Bulletin on Trauma Informed Classrooms was distributed to the YSC membership. Information from www.ChangingMindsNow.org is available and highlights what juvenile and family courts can do to

needed to make better decisions, particularly when confronted with circumstances that could lead to further delinquent behavior. To help facilitate youth behavioral change and also seek to strengthen youth-family interactions, improve parenting skills and connect youth to other positive adults, peers and activities in their schools and communities.		respond to trauma. JDAI IF administrative funds helped to send juvenile justice stakeholders to one day seminars/conferences that included workshops on trauma and types of adverse childhood experiences.
To support mentoring programs that rigorously screen and train mentors and appropriately match mentors to mentees. The mentoring relationship should last at least 12 months, encompass regular meetings and connect youth with support services.	No	Monmouth County and the Youth Services Commission support mentoring programs such as Big Brothers/Big Sisters of Monmouth & Middlesex Counties. Big Brothers/Big Sisters community based mentoring services has demonstrated positive youth outcomes and is rated effective on the Office of Juvenile Justice Delinquency Prevention (OJJDP) model program guide. A factor related to the effectiveness of mentoring programs is the longevity of the match. Big Brothers Big Sisters matches met their minimum length expectations, well above the national average. The Partners with Families Program, Youth Peer Leader will provide peer support services to youth under Juvenile Probation Supervision. The purpose of the Youth Peer Leader position is to develop rapport and provide support to youth on probation, focusing on ways to help youth succeed and develop practical action steps to achieve their goals during weekly/bi-weekly one-on-one meeting sessions. The primary work location for this position is at the Monmouth County Courthouse, but, most times, will likely include additional sites throughout the community where peer leadership meeting sessions will occur (public library,

		community center etc.). Direct supervision, training and screening is included. Challenges have been experienced within the Partners with Families program in maintaining the Youth Peer Leaders. The concept has merit however the short term nature of those who have taken the part time position present some implementation issues.
To partner with the behavioral health system to screen and assess youth involved in the juvenile justice system with mental health disorders and to coordinate treatment.	No	Monmouth Vicinage is familiar with the resources available through the Children's System of Care. Monmouth Cares has a court liaison that helps facilitate the partnership with the behavioral health system to screen and assess youth involved in the Juvenile Justice system with mental health disorders and to coordinate treatment. In 2018, the Family Engagement Coordinator (FEC) also assists in helped families who are court involved access services through her support and assistance. 28 Parent Advisory Committee meetings were held. Of the 28 Parent Advisory Committee meetings held, 17 (61%) were conducted in English and 11 (39%) were conducted in Spanish and a total of 62 hours were provided. Attendance at the Parent Advisory Committee meetings ranged from 8 parents to 2 parents. Topics included: the purpose of the parent advisory group; understanding your case as it is seen through the juvenile justice system; did you understand what transpired in court; how a parent guardian can be more involved and Project Write Now Workshop; and education about court and resources available. 25 court surveys received and 33 families were assisted by the Family Engagement Coordinator in completing a 5A application to secure legal representation for their child during 2018. Linkages & assistance provided by the FEC for families included but were not limited to:

		referrals to Perform Care, the CMO, Mobile Response & the FSO; support to Spanish speaking family communicating to probation at Project Pride; attendance at addiction support group with caregiver; calls to DCP&P; referrals to 180 Turning lives around & Family Justice Center; assistance with youth's placement in New Hope; referral to CPC for a parent; youth shelter placement; request of meetings with Child Study Teams; clothing and furniture donations; referral to Keys Academy; translation and orientation of probation requirements; assisted a dad with a victim assistance application. At the start of 2019, the Family Engagement Coordinator and the Youth Peer Support positions funded through the JDAI Innovation funds became vacant as those individuals resigned to take other employment. Steps to fill those positions are underway. Services through Perform Care are included in dispositions and many court involved youth have a care manager. Probation and Monmouth Cares communicate and collaborate regularly in order to coordinate and ensure the youths treatment needs are met.
To develop meaningful alternatives for schools to address minor delinquency behaviors in lieu of filing a complaint. To develop more educational programs to preempt the misuse of social media. To include resources that address life skills, anger management, bullying prevention, and gang prevention.	No	Monmouth's Education Partnership Subcommittee for Juvenile Justice System Improvement provides an opportunity to meet with professionals from the juvenile justice and education systems - to review current data on local school-based referrals to law enforcement and to discuss ways schools can access community resources and/or develop "in-house" behavior interventions. The Mental Health Association of Monmouth County

		(MHAMC) provides school-based prevention & diversion program for truancy behaviors in four school districts, including Keansburg, Neptune, Asbury Park and Long Branch. Middle and high school students are eligible to receive school-based early intervention services to prevent chronic absenteeism and address its' connection to delinquency. The Probation Multi Treatment Program provides an array of services for juveniles on probation supervision that may include anger management/conflict resolution / life skills training, bullying and gang prevention/awareness, trauma and grief counseling, work readiness, career preparation & vocational training, individual, family and group counseling, expressive arts and constructive recreational activities and service learning, volunteer and apprenticeship opportunities. Probation is working on developing a program for youth and parents based on the landmark Adverse Childhood Experiences (ACE) Study and Urban ACE Study, which focus on the effects childhood trauma has on health, behavior and development in children and adults. Probation is also looking to implement a program on Internet Safety and the proper use of technology in order to educate our clients of the dangers and consequences.

REENTRY

List recommendation from the 2018 -2020 Plan.	Has this recommendation changed? Yes or No	Provide an update or status of this recommendation.
"Inside – Outside" Programs and Services- Helping a juvenile prepare for re-entry and community parole supervision begins pre-release and involves a multi-system effort to ensure the individualized re-entry plan considers the risks to public safety and needs of the parolee to succeed on parole. When possible, juveniles are involved pre-release in vocational and employment training opportunities that will transfer outside of the JJC facility. The juvenile and his or her family are encouraged to participate in the re-entry planning process either in person or through the use of video-teleconferencing. Transitional Services are provided to parolees with the goal of helping each parolee gradually transition home through a series of "step-down" supervised activities. These activities allow the parolee to practice the pro-social skills needed to successfully return to the neighborhood, home and school while under supervision in a variety of environments. Located throughout New Jersey, community-based transitional services include short-term transitional living facilities, day reporting centers, transitional schools, supportive employment opportunities, mentoring and interventions designed to address: gang reduction; family reunification; supporting substance abuse recovery and improving	No	**<u>Re-entry</u>** The JJC begins release planning 90 days prior to a youth being released to Parole or to the Community through their Next Step Program. Linkages are made to social services, therapeutic services, substance abuse services, CMO's, educational services, employment, etc. depending on the individual needs of the youth. Juvenile Parole and Transitional Services- Designed to ensure public safety through intensive community supervision. Provides transitional services in the community to juveniles who have completed their stays at residential programs or secure facilities to effect successful re-entry of adjudicated youth by providing a balanced approach utilizing care treatment, accountability, protection and enforcement. The active parole caseload (statewide) in FY 2018 was 176. Juvenile Community Programs- Provides regional coordination and on--site supervision for all community--based operations for juvenile offenders. A total of 11 community residential programs provide services for male and female juveniles throughout the state who have been committed, placed on probation or transition status while on parole or probation. The average daily population (statewide) in JJC Residential/Transitional living programs in 2018 was 156. The average daily population (statewide) in 2018 at the New Jersey Training School for Boys in FY 2018 was

mental and emotional disorders.		134 and the average daily population (statewide) at the Johnstone campus was 81. *Source: Governor's 2020 Budget* In 2017 and 2018, Juvenile Justice Commission statistics indicated that there were 6 Monmouth County commitments each year.
To share information will with JJC Parole on the community resources that are available in Monmouth County. The Inventory of Resources for Monmouth County Youth, the Family Guide to Juvenile Justice and the Guide to Monmouth County Resources for Youth Transitioning to Adulthood outline various community resources. Monmouth Resource Net also can be accessed online to find services. To encourage the Office of Parole and Transitional Services to utilize the NJ Department of Children and Families, Office of Adolescent Services whose mission is to support adolescents in the transition to adulthood.	No	The Monmouth County Human Services Needs Assessment for Monmouth County includes the following goal: "Youth transitioning to adulthood (16-26 years old) will be on positive pathways to economic and social independence with strong and responsible family and community ties". Strengths and challenges in this area are identified. Information is available on community resources however community information sharing, education and resource navigation is an area that needs continued and ongoing work. Most of youth on parole are over the age of 18. The average age of youth on parole is 24.5 years old for males and 20.3 years old for females. Youth under the age of 18 years old make up 6.8% of the population. The OJJDP publication entitled, "Re-Entry Starts Here-A Guide for Youth in Long Term Juvenile Corrections and Treatment Programs" was distributed to YSC members on 3/27/19. The Center for Juvenile and Criminal Justice publication entitled, "Collaborating for Successful Reentry: A Practical Guide to Support Justice-Involved Young People Returning to the Community" issued February 2019 was shared with the

		YSC Planning Committee and reviewed. Areas such as housing, financial wellness, education, employment, social-emotional skills, mental health and legal matters are identified as possible issues for justice involved youth reentering the community. The U.S. Dept. of Justice-Office of Justice Programs provided an award in the amount of $741,924 to the New Jersey Department of Corrections under OJJDP's Second Chance Act Addressing the Needs of Incarcerated Parents with Minor Children program, which supports the successful and safe transition of young fathers and mothers from detention, out of home placement, or incarceration to their families and communities.
To provide educational advocacy and support services.	No	**Re-entry** "Reentry Strategies to Support Students Returning to Schools After Confinement" publication issued by the NJ Department of Education was distributed. NJ Office of the Attorney General -Juvenile Justice Commission-Juvenile Demographics and Statistics for Friday, March 15, 2019 indicated that Monmouth County had 6 Committed; 4 Waived; 2 Probationers and 4 in Aftercare. Of the 16 Monmouth County juveniles, 100% were male. Monmouth County comprised 16 or 3.29% of the state's 486 juveniles under their care, supervision and custody on 3/15/19. JJC statewide statistics on 3/15/19 indicated that of the 220 male juveniles committed on 3/15/19, 90 or 42.86% were receiving special education services. Of the 10 female juveniles committed on 3/15/19, 3 or 30% were receiving special education services. Of the 49 juveniles waived, 15 or 31% were receiving special

		education services. Of the 51 juvenile probationers, 24 or 48.98% were receiving special education services. The breakdown specific to Monmouth County is not provided. NJ Office of the Attorney General -Juvenile Justice Commission-Juvenile Demographics and Statistics for Friday, May 25, 2018 indicated that Monmouth County had 4 Committed; 2 Probationers and 3 in Aftercare. All 9 youth were males. Monmouth County comprises a very small number of the state's total in each of these categories. Of the state's 243 males that are committed, 111 or 45.68% are receiving special education services. The breakdown specific to Monmouth County is not provided.
To increase employment and vocational opportunities for returning youth with referrals and linkages to the Monmouth County Division of Workforce Development and the NJ Department of Labor resources.	No	**Re-entry** The Department of Labor & Workforce Development is looking to do a pilot program to provide funding to serve JJC youth. The programs primary focus will be on those youth that are transitioning back into the community from JJC facilities and provide them apprenticeship opportunities and post-secondary credentials. Information regarding bi monthly orientations for young adults aged 16-24 to start on their career highway to success has been distributed by the Monmouth County Division of Workforce Development. Information on how to obtain your high school diploma, get a job, obtain career guidance, obtain skill training in careers such as Certified Nurse's Aide (CAN), Truck Driver, Culinary Arts, Nursing, HVAC and many more is covered at the orientations. Monmouth County Division of Workforce

		Development administers federal funds for out of school youth. Information regarding those programs is included in the Inventory of Resources for Monmouth County youth included in this Youth Services Plan Update. According to the Director of Juvenile Parole & Transition Services, employment has also been an issue with youth on parole.

4. **If you are a JDAI site, list topics and discussion points that were shared between the Youth Services Commission and the County Council on Juvenile Justice System Improvement (CJJSI). What CJJSI activities helped facilitate the completion of this Comprehensive Plan Update?**

Both the Youth Services Commission and the JDAI Council on Juvenile Justice System Improvement receive reports and updates on the programs funded through JDAI Innovation Funds and participate in the application process for JDAI Innovation Funds. Annual reports on juvenile detention and juvenile detention alternatives were discussed by both the Youth Services Commission (YSC) and the JDAI Council on Juvenile Justice System Improvement (CJJSI). Topics and discussion points have included: Restorative Practices, the Memorandum of Understanding between Law Enforcement and Education and School Security Issues, Racial/Ethnic Disparities and Family Engagement. A description of the Marijuana Diversion Program was presented to the Youth Services Commission with the court processing data for 2018. Information from Monmouth's Education Partnership Subcommittee for Juvenile Justice System Improvement has been shared at Youth Services Commission meetings and has been a discussion point. Review of the NJ JDAI – Influence & Leverage Measures: 2017-2018 Reporting Cycle was helpful to the completion of this Comprehensive Plan Update.

5. **Describe efforts made by the YSC to seek additional funding to supplement the funding received through the Partnership/Family Court Program.**

Announcements regarding available funding opportunities are distributed to the members of the Youth Services Commission and the local Council on Juvenile Justice System Improvement. Grant opportunities are forwarded and directed to service providers who most closely match the specifications and requirements outlined in the public announcement/ request for proposals. The YSC applies for a DCP&P grant in aid to supplement the funding received through the Partnership/Family Court Program. An Inventory of Resources for Monmouth County Youth is compiled that describes contracts and programs that supplement the funding received. County, state, and federal programs for youth are included in this document.

Monmouth County through the Monmouth County Sheriff's Office, Correction Division applied to the United States Department of Justice for a Fiscal Year (FY) 2019 Comprehensive Opioid Abuse Site-Based Program grant. If awarded, it will be used to encourage and support the development of comprehensive, locally driven responses to the opioid epidemic that expand access to supervision, treatment, and recovery support services across the criminal justice system; support law enforcement and other first responder diversion programs for non-violent drug offenders; promote education and prevention activities; and address the needs of children impacted by the opioid epidemic. The Comprehensive Opioid Abuse Site-based Grant applied for was in the amount of $1,199,993.

III. MONITORING RESULTS FOR FUNDED YSC PROGRAMS

Instructions: List the 2019 Youth Services Commission funded programs. Give a brief description of the program and identify their annual level of service. Provide the date and result of the last monitoring, assign an overall rating (Exceptional (E), Satisfactory (S), or Unsatisfactory (U)). Include copies of monitoring reports.

CURRENTLY FUNDED PROGRAMS			
PROGRAM NAME	**PROGRAM DESCRIPTION/ TARGET POPULATION**	**ANNUAL LEVEL OF SERVICE**	**Date and Monitoring Rating E/S/U (if applicable)**
Preferred Behavioral Health of NJ - Prevention First Division- Life Skills Training (Long Branch & Neptune Twp.)	Life Skills Training / Each 5th grade student in Long Branch and each 4th grade student in Neptune Township school districts	580 elementary age children	4-30-19 & 6-28-19 (S)

Juvenile-family crisis is defined as behavior, conduct or a condition of a juvenile, parent or guardian or other family member which presents or results in: 1.) A serious threat to the well- being and physical safety of a juvenile, or 2.) A serious conflict between a parent or guardian and a juvenile regarding rules of conduct which has been manifested by repeated disregard for lawful parental authority by a juvenile or misuse of lawful parental authority by a parent or guardian, or 3.) Unauthorized absence by a juvenile for more than 24 hours from his/her home, or 4.) A pattern of repeated unauthorized absences from school by a juvenile subject to the compulsory education provision of Title 18A of the New Jersey Statutes (N.J.S.A. 2A:4A-22(g)). Under this statute, juvenile-family crisis cases do not include cases of child abuse, child neglect or domestic violence.	To provide services to approximately 350 clients including in-person contacts, phone calls and counseling sessions.	6-14-19 & 6-27-19 (S)
Mental Health Association of Monmouth County –Parent Child Conflict Resolution Program - Juvenile/Family Crisis Intervention Resource	To provide the Parent Child Conflict Resolution Program- Juvenile Family Crisis Intervention Resource for Monmouth County families referred by Monmouth Vicinage, Family Division Judiciary and prioritized by the Family Crisis Intervention Unit (FCIU). Services include in-home therapy, case-management and purchase of wrap-around services. Short term, community based crisis intervention services which, include a home based model of service delivery to reduce barriers that keep families from accessing services will be provided. Assessment and early intervention services that offer skill training in family communication, parenting, problem-solving and conflict management will be included.	Thirty-five (35) referred juveniles and their families	6-27-19 (S)

Mental Health Association of Monmouth County –School Truancy Reduction & Diversion of Minor School Based Complaints to Juvenile Court Program	PASS program -Prevent, Advocate, Support, Succeed -To provide school based early intervention services within Monmouth County school systems to address chronic absenteeism, and the connection between truancy and delinquency. To provide early intervention services in the school environment in order to reduce the number of school related disciplinary referrals, school suspensions and or referrals to juvenile court for minor school based complaints. To outreach to specific districts and develop a specific psycho-educational group to address chronic absenteeism and the root cause of truant behavior.	195 youth/ families	5-6-19 & 6-27-19 (S)
Monmouth County Division of Juvenile Detention Alternatives- S.T.E.A.D.Y. – "Supportive, Transitional, & Engaging Alternatives Developed for Youth"	To maintain the expansion of the detention alternative continuum for placement of youth on the GPS program via the Risk Screening Tool - during the Detention Alternative Unit's extended, flexed-schedule hours of coverage A portion of Innovation funds will go towards the Social Worker position and to enhance the youth and family engagement component of the alternative program continuum through the provision of youth/family incentives, organized pro-social activities/events and the coordination of team meetings. 'Transitions' will consist of "Team Meetings" (voluntary) with the youth, family, CMO, and other support persons - to help youth and their families identify needs, set goals and develop action steps to achieve same. Out of the Team Meetings, DA Staff will develop a "discharge plan" in preparation for youth departing the alternative and transitioning onto Probation.		7-10-19 (S)

Monmouth Vicinage- Family Division- Partners with Families Program	To hire a full-time Family Engagement Coordinator & Support Specialist to help facilitate parent advisory group meetings, implement court surveys, and promote leadership development activities of parents/guardians within targeted levels of the Juvenile Justice System. To provide peer-to-peer support to youth and families as they await their juvenile court hearings/proceedings. To provide topical seminars and learning sessions for parents/guardians of youth involved in the juvenile justice system in response to feedback and information gathered during parent advisory group meetings. To promote communication between youth and families in juvenile detention & increase the success rate of youths in detention alternatives & on probation. To increase interactions and support for both youth on probation along with their parents/guardians through the training/coaching-up of Youth Peer Leaders to facilitate motivational interviewing sessions in conjunction with the Family Engagement Coordinator.		7-25-19 (S)
Youth Advocate Programs, Inc. –Casey Life Skills and YAP WORX	The Casey Life Skills Program and YAPWORX will serve Asbury Park, Neptune Township and Ocean Township youth on juvenile probation supervision and or on a juvenile detention alternative.	10 youth	5/30/19 & 7/23/19 (S)

Monmouth Vicinage-Probation Division-Probation Multi Treatment Program-	The program will provide dispositional options that serve juveniles on probation, on an individualized basis, and address a variety of offense specific charges of juveniles adjudicated delinquent. An array of services for juveniles on probation supervision such as anger management/conflict resolution / life skills training, bullying and gang prevention, trauma and grief counseling, work readiness, career preparation & vocational training, individual, family and group counseling, expressive arts and constructive recreational activities and service learning, volunteer and apprenticeship opportunities will be provided.	30 youth	6-18-19 (S)
IEP Youth Services, Inc. –Probation Offender Program	To provide specialized sex offense specific treatment for juveniles on probation. To deliver 212 Individual & Family Sessions, 10 Intake Interviews, 10 Discharge Interviews, 110 Group Sessions, 12 Multi Family Sessions and 25 Social Skills Groups	Up to 30 youth	6-25-19 (S)
Monmouth Vicinage-Probation Division – Probation Offender Program Transport	To coordinate the specialized treatment services for youth with problematic sexual behavior and provide the transportation component for the Probation Offender Program. The Probation Offender Program provides intensive supervision to juveniles with sexually abuse behaviors and provides them with offense specific counseling. The program will ensure attendance at all therapy sessions by providing transportation on an as needed basis. The Vicinage agrees to employ two part-time drivers to transport the probationers and their families to the program sessions.	2 part time drivers	6-25-19 (S)

New Hope Integrated Behavioral Healthcare - Adolescent Residential Alcohol and Drug Treatment	To provide adolescent residential alcohol and drug treatment services to Monmouth County juveniles with alcohol and drug dependence, who have been adjudicated delinquent and/or who have a demonstrated history of juvenile delinquency, and referred to treatment by the Judiciary.	296 bed days of adolescent residential alcohol and drug treatment services to a minimum of three (3) unduplicated juveniles referred by the Judiciary of Monmouth Vicinage, Superior Court, Family Division	6-18-19 (S)

International Institute for Restorative Practices	To coordinate and facilitate restorative justice professional development training that includes an Introduction to Restorative Practices and Using Circles Effectively for Monmouth County's Juvenile Justice System stakeholders.	45-50 juvenile justice stakeholders trained in facilitating restorative conferencing & 12 licensed to serve as train the trainers	September 19 & 20, 2019

Comments:

IV. CONTINUUM OF CARE

A. Definitions: Defines and describes each Point of Intervention on the Continuum.

B. Instructions for Completing Work Sheet

C. CY 2019 Continuum of Care - Points of Intervention

POINTS OF INTERVENTION DEFINITIONS

PREVENTION

Delinquency Prevention Programs are strategies and services designed to increase the likelihood that youth will remain free from initial involvement with the formal or informal juvenile justice system. The goal of delinquency prevention is to prevent youth from engaging in anti-social and delinquent behavior and from taking part in other problem behaviors that are pathways to delinquency. Primary Delinquency Prevention programs are those directed at the entire juvenile population without regard to risk of involvement in the juvenile justice system. Secondary Delinquency Prevention programs are those directed at youth who are at higher risk of involvement in the juvenile justice system then the general population. Given this goal, Delinquency Prevention programs developed through the comprehensive planning process should clearly focus on providing services that address the known causes and correlates of delinquency.

Delinquency Prevention data describe trends in juvenile delinquency and in factors that reflect the causes and correlates of delinquent activity. By understanding the nature and extent of delinquent behavior and the factors associated with involvement in delinquency, Counties can better identify the content and scope of prevention programs needed. This information will help Counties make informed decisions regarding the allocation of resources to delinquency prevention, including those disseminated by the Juvenile Justice Commission (e.g., Title II, State/Community Partnership, and Family Court Services).

The Delinquency Prevention data required for this Comprehensive Plan is meant to become the foundation for prevention program planning. However, it should be noted that the typical prevention planning process requires an in-depth analysis of community, family, peer, and education factors that identify problem areas in a particular municipality or County.

This Comprehensive Plan requires only a small portion of the data that could potentially be collected at the County or municipal level. Counties are encouraged to examine all other data not provided by the JJC in its planning process.

DIVERSION

The Diversion stage of the juvenile justice system offers alleged juvenile offenders an opportunity to avoid arrest and/or prosecution by providing alternatives to the formal juvenile justice system process. The goal of Diversion is to provide services and/or informal sanctions to youth who have begun to engage in antisocial and low level delinquent behavior in an effort to prevent youth from continuing on a delinquent pathway. Youth who do not successfully complete a diversion program may ultimately have their case referred for formal processing by the juvenile court. Given this goal, Diversion programs developed through the comprehensive planning process should clearly focus on providing services and/or informal sanctions that address the known causes and correlates of delinquency.

Diversion Process

In New Jersey, juveniles are dealt with informally through one or more of the following: Law Enforcement Station House Adjustments, Family Crisis Intervention Units (FCIU), Family Court Juvenile Conference Committees, or Family Court Intake Service Conferences.

Law enforcement officers might divert a youth suspected of a delinquent act if, in lieu of making an arrest, the officer chooses to dismiss the youth with a warning and reprimand, or to refer the youth to a social service agency. This process is known as a station house adjustment.

Youth who are accused of committing a delinquent act directly tied to family dysfunction may be diverted, with their families, to the Family Crisis Intervention Unit. The FCIU can provide services to youth and their families to resolve the immediate crisis leading to delinquency, thereby preventing the juvenile and his or her family from entering the formal court system.

Diversions within Family Court occur after a complaint has been filed, but prior to the case being formally heard by a judge. At this point, youth may be diverted to either a Juvenile Conference Committee (JCC) or to an Intake Services Conference (ISC). First and second time offenders charged with low level delinquent offenses may be diverted first to the JCC - a committee of volunteers from the community who attempt to settle the complaint. Complaints not resolved at the JCC level are referred to an Intake Service Conference. An ISC is a meeting between the youth and an intake officer who attempts to settle the case. Complaints not resolved at the ISC may be referred to a judge for formal processing.

Diversion Programs

Diversion programs are the structured services and sanctions typically provided to youth and/or their families at any point in the Diversion process. A law enforcement agency or the court might operate a Diversion program directly or the youth might participate in a program operated by a contracted service provider.

Diversion data describe trends in the extent and nature of cases diverted in your county that reflect the causes and correlates of delinquent activity. By understanding the volume of the existing types of diversion cases and the factors associated with involvement in delinquency, counties can more effectively plan the content and scope of Diversion programs. This information will help counties make informed decisions regarding the allocation of resources to Diversion programming, including those disseminated by the Juvenile Justice Commission (e.g., State/Community Partnership, Family Court Services and Title II).

DETENTION

The Detention phase/component of juvenile justice includes detention, the temporary care of juveniles and the provision of Detention Alternative Programs.

Detention

"Detention" is defined as the temporary care of juveniles in physically restricting facilities pending court disposition (N.J.A.C. 13:92-1.2).

An objective of detention is to provide secure custody for those juveniles who are deemed a threat to the physical safety of the community and/or whose confinement is necessary to insure their presence at the next court hearing (N.J.A.C. 13:92-1.3). For the purpose of this plan a limited amount of funding may be

provided to support court ordered evaluations for adjudicated youth who reside in the detention center, if all other resources have been exhausted.

Detention Alternatives

Detention Alternative Programs provide supervision to juveniles who would otherwise be placed in a secure detention facility while awaiting final disposition of their case, expanding the array of pre-disposition placement options available to the judiciary. Detention Alternative Programs/Services are not to be provided in the detention center. These programs are designed to provide short-term (30 – 60 days) supervision sufficient to safely maintain appropriate youth in the community while awaiting the final disposition of their case. As such, these programs help to reduce the overall detention population and relieve detention overcrowding and its related problems where it exists.

Detention data describe the number of juveniles placed in detention, the characteristics of those juveniles, and the types of offenses for which they are detained. By understanding the nature and extent of the detained population and the extent to which detention is used and the characteristics of the youth, planners can better identify the content and scope of Detention Alternative Programs needed in their counties. As such, counties will be better equipped to make informed decisions regarding the allocation of resources to Detention Alternative Programs, including those disseminated by the Juvenile Justice Commission (State/Community Partnership, Family Court Services, Juvenile Detention Alternatives Initiatives, and Title II).

DISPOSITION

Disposition is the phase of the juvenile justice system where youth adjudicated delinquent are ordered by the court to comply with specific sanctions, supervision, and services as a consequence for their delinquent behavior. In New Jersey, the range of dispositions available to the court includes but is not limited to restitution/fines, community service, probation, and commitment to the Juvenile Justice Commission. For youth disposed to a term of probation supervision, among the conditions of probation that might be imposed by the court is the completion of a Dispositional Option Program. The structure of these Dispositional Option Programs are varied, but common among these options are intensive supervision programs, day and evening reporting centers, and structured day and residential programs. Given this goal, Disposition programs developed through the comprehensive planning process should clearly focus on providing sanctions, supervision, and services that address the known causes and correlates of delinquency.

When determining the appropriate disposition in a given case, the court faces the complex task of considering multiple goals, including promoting public safety, ensuring offender accountability, and providing juveniles with opportunities for personal growth and skill development through rehabilitative efforts. By developing and enhancing local Dispositional Option Programs, counties can facilitate the achievement of these goals by providing the court with the range of options that matches best the supervision and service needs of youth in their communities. Research and experience indicate that well developed community-based Dispositional Option Programs can effectively reduce the likelihood of continued delinquency, improving the lives of the youth they serve, and the quality and safety of the local community and its citizens.

Disposition data describe the number of youth adjudicated delinquent and disposed by the court, as well as the characteristics of these juveniles that reflect the causes and correlates of delinquent activity. By understanding the nature and extent of the juvenile population facing disposition and the factors associated

with involvement in delinquency, planners can better identify the content and scope of Dispositional Option Programs needed in their counties. As such, counties will be better equipped to make informed decisions regarding the allocation of resources to Dispositional Option Programs, including those resources disseminated by the Juvenile Justice Commission (State/Community Partnership, Family Court Services, Juvenile Detention Alternatives Initiatives and Title II).

REENTRY

In the juvenile justice system Reentry generally refers to the period of community-based supervision and services that follows a juvenile's release from a secure facility, residential program, or other structured dispositional placement.

However, for the purposes of this plan, the use of the term Reentry only applies to committed youth paroled from a Juvenile Justice Commission (JJC) facility and supervised by the JJC's Office of Juvenile Parole and Transitional Services and to juveniles disposed to a JJC program as a condition of probation and supervised by the Juvenile Probation Division. Reentry is a mechanism for providing the additional support during this transitional period that is necessary to foster the successful reintegration of juveniles into their communities. Given this goal, Reentry programs developed through the comprehensive planning process should clearly focus on providing services to youth, regardless of their age, that address the known causes and correlates of delinquency.

By developing Reentry services that compliment the supervision provided by the JJC and Probation, Counties can increase the likelihood that juveniles returning to their communities will reintegrate successfully. This type of cooperative effort in the delivery of Reentry services and supervision improves each youth's chance of becoming productive, law-abiding citizens, which in turn enhances the safety and quality of the local communities in which these juveniles reside.

Reentry data describe the number of committed youth and probationers returning to the community from JJC facilities and programs, as well as the demographic and offense characteristics of these juveniles that reflect the causes and correlates of delinquent activity. By understanding the nature and extent of the population released to Reentry and the factors associated with involvement in delinquency, planners can better identify the content and scope of Reentry services and programs needed in their counties. As such, counties will be better equipped to make informed decisions regarding the allocation of resources to Reentry services, including those resources disseminated by the Juvenile Justice Commission (State/Community Partnership, Family Court Services, and Title II).

CY 2019 Existing Services
Continuum of Care - Points of Intervention

CY 2019 Continuum of Care - Points of Intervention

1. List the programs/services your county considers a part of its continuum of care regardless of funding. *List the name of the program and/or agency. Also indicate the annual level of service and funding source in parenthesis.* Additional pages may be utilized.

2. Programs/services should include those funded through the Juvenile Justice Commission (State/Community Partnership & Family Court, JJDP and JDAI) and all other programs/services considered a part of the county's continuum.

3. Level of Restrictiveness – List programs from least restrictive to most restrictive. For example – A Mentoring program is less restrictive than an In-Home Detention Program. If you are a JDAI Site, consider using the continuum of Detention Alternatives developed by your local Council on Juvenile Justice Systems Improvement.

2018 Overview of Monmouth Vicinage –Court Processing

Source: Family Automated Case Tracking System (FACTS)

An overall decrease in case processing is shown in 2018 compared to 2017 at three points of the system (docketed, diverted and adjudicated delinquent) by juveniles, cases and offenses.

- An overall increase in case processing is shown in 2017 compared to 2016 at three points of the system (docketed, diverted and adjudicated delinquent) by juveniles, cases and offenses.

In 2018, there were 707 juveniles docketed, 280 juveniles diverted and 351 juveniles adjudicated delinquent by Monmouth Vicinage. In 2018 compared to 2017, there were 265 fewer juveniles docketed; 180 fewer juveniles diverted and 170 fewer juveniles adjudicated delinquent by Monmouth Vicinage.

- In 2017, there were 972 juveniles docketed, 460 juveniles diverted and 521 juveniles adjudicated delinquent by Monmouth Vicinage. In 2016, there were 761 juveniles docketed, 281 juveniles diverted and 441 juveniles adjudicated delinquent by Monmouth Vicinage. In 2017 compared to 2016, there were 211 more juveniles docketed; 179 more juveniles diverted and 80 more juveniles adjudicated delinquent by Monmouth Vicinage.

In 2018, there were 863 cases docketed, 292 cases diverted and 519 cases adjudicated delinquent. In 2018 compared to 2017, there were 360 fewer cases docketed, 186 fewer cases diverted and 255 fewer cases adjudicated delinquent by Monmouth Vicinage.

- In 2017, there were 1,223 cases docketed, 478 cases diverted and 774 cases adjudicated delinquent. In 2017 compared to 2016, there were 207 additional cases docketed, 184 additional cases diverted and 101 additional cases adjudicated delinquent by Monmouth Vicinage.

In 2018, there were 1,599 offenses docketed, 408 offenses diverted and 1,102 offenses adjudicated delinquent. In 2018 compared to 2017, there were 662 fewer offenses docketed, 292 fewer offenses diverted and 635 fewer offenses adjudicated delinquent by Monmouth Vicinage.

- In 2017, there were 2,261 offenses docketed, 700 offenses diverted and 1,737 offenses adjudicated delinquent. In 2016, there were 1,988 offenses docketed, 389 offenses diverted and 1,446 offenses adjudicated delinquent. In 2017 compared to 2016, there were 273 additional offenses docketed, 311 additional offenses diverted and 291 additional offenses adjudicated delinquent by Monmouth Vicinage.

Consistently, in 2018, 2017 & 2016, juveniles 15 to 16 years of age and 17 years old comprised the largest number and percentage of juveniles docketed, diverted and adjudicated delinquent. In 2018 there were a higher number and percentage of juveniles, 15 to 16 years of age, adjudicated delinquent compared to juveniles 17 years old. The third highest age group docketed, diverted and adjudicated delinquent was 13-14 years of age. The lowest number and percentage of youth at three points of the system (docketed, diverted and adjudicated delinquent) were in the 6-10 age grouping followed by the 11-12.

Overall, males continue to comprise the largest number and percentage of those docketed diverted and adjudicated delinquent compared to females. Both males and females showed a decrease in the total number docketed, diverted and adjudicated delinquent in 2018 compared to 2017.

In 2018, Family Court dockets indicate that 543 (76.80%) were male and 164 (23.20%) were female. There were 156 fewer males docketed and 109 fewer females docketed in 2018 compared to 2017.

- In 2017, Family Court dockets indicate that 699 (71.91%) were male and 273 (30.43%) were female. In 2016, Family Court dockets indicate that 532 (69.91%) were male and 229 (30.09%) were female. There were 167 additional males docketed and 44 additional females docketed in 2017 compared to 2016.

In 2018, Family Court diversions indicate that 197 (70.36%) were male and 83 (29.64%) were female. There were 123 fewer males diverted and 57 fewer females diverted in 2018 compared to 2017.

- In 2017, Family Court diversions indicate that 320 (69.57%) were male and 140 (30.43%) were female. In 2016, Family Court diversions indicate that 185 (65.84%) were male and 96 (34.16%) were female. There were 135 additional males diverted and 44 additional females diverted in 2017 compared to 2016.

In 2018, males comprised 285 (81.20%) of the juveniles adjudicated delinquent and females comprised 66 (18.80%). There were 125 fewer males adjudicated delinquent and 45 fewer females adjudicated delinquent in 2018 compared to 2017.

- In 2017, males comprised 410 (78.69%) of the juveniles adjudicated delinquent and females comprised 111 (21.31%). In 2016, males comprised 332 (75.28%) of the juveniles adjudicated delinquent and females comprised 109 (24.72%). There were 78 additional males adjudicated delinquent and 2 additional females adjudicated delinquent in 2017 compared to 2016.

The race / ethnicity of the 2018 docketed juveniles indicate: 379 (54.69%) were White; 226 (32.61%) were Black and 73 (10.53%) were Hispanic.

- The race / ethnicity of the 2017 docketed juveniles indicate: 497 (51.66%) were White; 335 (34.82%) were Black and 108 (11.23%) were Hispanic. The race / ethnicity of the 2016 docketed juveniles indicate: 383 (50.39%) were White; 279 (36.71%) were Black and 91 (11.97%) were Hispanic.

The race / ethnicity of the 2018 diverted juveniles indicates 186 (67.39%) were White; 59 (21.38%) were Black; and 25 (9.06%) were Hispanic.

- The race / ethnicity of the 2017 diverted juveniles indicates 293 (64.68%) were White; 106 (23.40%) were Black; and 43 (9.49%) were Hispanic. The race / ethnicity of the 2016 diverted juveniles indicates 165 (59.14%) were White; 76 (27.24%) were Black; and 34 (12.19%) were Hispanic.

The race/ethnicity of the 2018 adjudicated delinquent juveniles indicates 159 (46.22%) were White; 143 (41.57%) were Black and 37 (10.76%) were Hispanic.

- The race/ethnicity of the 2017 adjudicated delinquent juveniles indicates 218 (41.92%) were White; 227 (43.65%) were Black and 66 (12.69%) were Hispanic. The race/ethnicity of the 2016 adjudicated delinquent juveniles indicates 212 (48.07%) were White; 172 (39%) were Black and 51 (11.56%) were Hispanic.

The offense category consistently with the highest number docketed, diverted and adjudicated delinquent by Monmouth Vicinage in 2018, 2017, 2016, 2015, 2014 and 2013 was possession of 50G or less of marijuana or 5G or less of hashish.

- The Gender of the 42 Violations of Probation (VOP) in 2018 indicates: 36 (86%) Male and 6 (14%) Female.
- The Race/Ethnicity of the 36 Male Juveniles with a VOP in 2018 indicates: 22 (61%) as African American; 9 (25%) as Caucasian; and 5 (14%) as Hispanic Males.
- The Race/Ethnicity of the 6 Female Juveniles with a VOP in 2018 indicates: 3 (50%) as African American; 3 (50%) as Caucasian Females.
- The Ages of the 42 Juveniles with a VOP in 2018 indicates: 1 (2.38%) was 21 years of age; 1 (2.38%) was 20 years of age; 9 (21.43%) were 18 years of age; 15 (35.71%) were 17 years of age; 6 (14.29%) were 16 years of age; 7 (16.67%) were 15 years of age; and 3 (7.14%) were 14 years of age. Therefore, the ages ranged between 14 and 21 years old.

Monmouth County Juvenile Detention Alternatives

Source: Monmouth County Division of Juvenile Detention Alternatives

Monmouth County Division of Juvenile Detention Alternatives operates a Home Detention/Electronic Monitoring Program that serves juveniles referred by the Monmouth Vicinage, Family Division Judiciary. The County of Monmouth funds the Home Detention Program. The Division of Juvenile Detention Alternatives oversees all youth placed in the continuum of detention alternatives (as listed below). They ensure that the youth appears in court, as well as address program non-compliance. In addition, the Detention Alternative Unit will link youth up with services, as needed.

House Arrest is a detention alternative utilized at the Judge's discretion. It allows a juvenile to be released from the detention center to a parent or guardian under specific restrictions. It also offers an option to the Judge when a juvenile appears before them on a serious charge, who is not retained, to allow the juvenile to remain at home without posing a threat to the community. The juvenile is not allowed to leave the home without a parent or guardian except to attend school or work. The local Police Department is notified of the juvenile's specific House Arrest conditions. The juvenile and his/her family are informed any violation of the House Arrest conditions will result in the juvenile's arrest and possible return to the Youth Detention Center.

- **House Arrest A:**

Supervision is primarily the responsibility of the youth's parent/caregiver. DA staff will have bi-weekly face to face contacts and weekly phone contact for House Arrest A. Youth may leave the house to go to school, work, and all other approved activities with the company of a parent/caregiver. There is not program capacity in terms of the number of youth served. The expected average LOS on House Arrest A is 45-60 days.

- **House Arrest B:**

  House Arrest A plus daily random phone contacts and weekly face to face contacts conducted by the Department of Human Services/Division of Juvenile Detention Alternative staff throughout the day. Up to 4 random calls per day -If youth is compliant, phone calls may be reduced over time.

Home Detention Program (HDP) is a detention alternative program utilized at the Judge's discretion. It affords the juvenile to be released from the detention center, under the supervision of the Home Detention Program Officer, to return home on an electronic monitor. The juvenile is monitored 24 hours a day through an electronic monitoring bracelet. The juvenile is given "windows" of time which are pre-documented as specific timeframes he/she will be out of the home to attend school, organized sports, church etc.. The juvenile must be in their home at all other times. Special requests may be made to the HDP Officer for additional windows for family related functions. These additional timeframes are at the discretion of the HDP Officer. The juvenile's behavior, attitude and level of supervision while exercising the "window" will all be deciding factors. A violation of the Home Detention Program could result in the immediate return of the juvenile to the detention center based on the severity of the violation.

Electronic Monitoring (EM) Expansion –GPS/Wireless EM

The goal of the Electronic Monitoring (EM) Expansion program is to provide electronic supervision that allows juveniles to remain in the community as opposed to being incarcerated in the youth detention center. Members of the Division of Juvenile Detention Alternatives rotate after hours on call to provide 24 hour a day 7 day per week coverage to respond to municipal police departments to install GPS/Wireless ankle units for juveniles deemed eligible by the court in lieu of secure detention. The Family Court Intake Officer utilizes the Risk Screening Tool to determine eligibility. Initially the youth is placed on a GPS unit and is required to attend a court hearing on the next business day. At that time, the courts will determine if the GPS bracelet should remain on, or changed out for the traditional Home Detention bracelet. The courts can also decide to place the youth on a different Detention Alternative Program.

Source: *NJ Department of Human Services, Division of Mental Health and Addiction Services, Office of Planning, Research, Evaluation and Prevention*
New Jersey Substance Abuse Monitoring System (NJ SAMS) Substance Abuse Treatment Admissions 1/1/2016 -12/31/2016 and 1/1/2017-12/31/2017

Of the 6,198 substance abuse treatment admissions of Monmouth County residents in 2017**,** the primary drug of abuse at time of admission indicates: 1,965 (32%) for alcohol; 2805 (45%) for heroin; other opiates 366 (6%); 263 (4%) for cocaine; 606 (10%) for marijuana and 180 (3.0%) for Other Drugs. In 2017, 64 or 1% of Monmouth County substance abuse treatment admissions were for individuals Under 18 years of age; 359 or 6% for individuals 18-21 years old and 599 or 10% were 22-24 years old.

Of the 6,177 substance abuse treatment admissions of Monmouth County residents in 2016**,** the primary drug of abuse at time of admission indicates: 1,852 (30%) for alcohol; 287 (5%) for cocaine/crack; 2,667 (43%) for heroin; 426 (7%) for Other Opiates; 791 (13%) for marijuana/hashish; 136(2%) for Other Drugs; and 18 (0%) unknown. Monmouth County residents comprised 8% of the 76,509 New Jersey SAMS substance abuse treatment admissions in 2016.

In 2016, 160 or 3% of Monmouth County substance abuse treatment admissions were for individuals Under 18 years of age; 437 or 7% for individuals 18-21 years old and 589 or 10% were 22-24 years old.

The gender of the 2016 Monmouth County substance abuse treatment admissions of youth 17 years of age and under indicates: 41 (26%) as female and 119 (74%) as male. For youth 17 years of age and under, marijuana/hashish was indicated as the primary drug of abuse in 132 admissions, followed by alcohol (19).

The gender of the 2016 Monmouth County substance abuse treatment admissions for young adults ages 18-24 indicates: 373 (36%) as female and 653 (64%) as male. For the young adults ages 18-24, heroin was the primary drug of abuse indicated in 427 admissions, followed by marijuana/hashish (276) and alcohol (183).

Of the 6,062 substance abuse treatment admissions of Monmouth County residents in 2015, the primary drug of abuse at time of admission indicates: 1,547 (26%) for alcohol; 267 (4.4%) for cocaine/crack; 2,456 (40.51%) for heroin; 469 (7.73%) for Other Opiates; 733 (12.09%) for marijuana/hashish; 117(1.93%) for Other Drugs; and 473 (7.8%) unknown.

In 2015, 234 or 3.9% of Monmouth County substance abuse treatment admissions were for individuals 0-17 years of age and 1,114 or 18% for individuals 18-24 years old.

The gender of the 2015 Monmouth County substance abuse treatment admissions of youth 17 years of age and under indicates: 59 (25.2%) as female and 175 (74.8%) as male. For youth 17 years of age and under, marijuana/hashish was indicated as the primary drug of abuse in 169 admissions, followed by alcohol (22).

The gender of the 2015 Monmouth County substance abuse treatment admissions for young adults ages 18-24 indicates: 383 (34.4%) as female and 731 (65.6%) as male. For the young adults ages 18-24, heroin was the primary drug of abuse indicated in 452 admissions, followed by marijuana/hashish (260) and alcohol (174).

Monmouth County Division of Workforce Development

732-683-8850

The Board of Chosen Freeholders authorized the award of various competitive contracts for workforce innovations and opportunity act funded youth services, administered by the Division of Workforce Development.

Out of School Youth (OSY) Contracted Services

- Brookdale Community College- $245,000- Level of Service 98 – Out-of-School-Youth High School Equivalency program. October 15, 2018 through September 30, 2019 with two one (1) year renewal options.

  Brookdale Community College's Out-of-School-Youth High School Equivalency Program works with Out-of-School Youth ages 16-24 to provide instruction and support in order for youth to attain their High School Equivalency diploma. Brookdale will serve youth at three of the college's regional locations in Long Branch, Hazlet, and Freehold.

- Interfaith Neighbors - $110,000 – Level of Service 13 Out-of-School Youth Paid Work Experience Program. June 3, 2019 through December 31, 2019 with two one (1) year renewal options.

  Interfaith Neighbors Kula Café Hospitality Training Program works with Out-of-School Youth ages 18-24 interested in the fields of Restaurant and Hospitality. Paid Work experience is provided at the Kula Café, located in Asbury Park. The program places emphasis on basic life, work, and interpersonal skills, and reduction of barriers to employment. The primary objective of the program is to place participants into unsubsidized, permanent employment in the hospitality and service industries.

Monmouth County Division of Workforce Development (OSY) In-House Services

- Work Readiness – Monmouth County Division of Workforce Development Youth staff provide a comprehensive in-house, four (4) day work readiness program at our office in Eatontown, for Out-of-School youth ages 16-24 which consists of the following: Assessment that examines each youth's interests, aptitudes, capabilities, basic skills, employability, skill level, service and supportive services needs for the purposes of identifying appropriate services and career pathways for each youth; Basic skills testing to determine Reading and Math proficiency levels; and

Development of an Individual Service Strategy (ISS) plan for each youth that clearly defines individual goals and services to be provided.

- Individual Training Agreements – Out-of-School Youth ages 18-24 may be eligible to obtain Occupational training, in order to obtain a skillset that will offer increased opportunities for employment. Examples of training may include; training to obtain a Commercial Driver's License for employment in the Transportation field, training in the Medical field as a Medical Assistant or Licensed Practical Nurse, or Microsoft Office training to obtain Computer application skills.

`

Monmouth County Human Services Department
Division of Juvenile Detention Alternatives

(732) 866-3688

Monmouth County Division of Juvenile Detention Alternatives operates a Home Detention/Electronic Monitoring Program that serves juveniles referred by the Monmouth Vicinage, Family Division Judiciary. The County of Monmouth funds the Home Detention Program. The Division of Juvenile Detention Alternatives oversees all youth placed in the continuum of detention alternatives (as listed below). They ensure that the youth appears in court, as well as address program non-compliance. The Division of Juvenile Detention Alternatives is the primary contact for the program directors to notify in the event of non-compliance and/or problems with the youth.

House Arrest is a detention alternative utilized at the Judge's discretion. It allows a juvenile to be released from the detention center to a parent or guardian under specific restrictions. It also offers an option to the Judge when a juvenile appears before him on a serious charge, who is not retained, to allow the juvenile to remain at home without posing a threat to the community. The juvenile is not allowed to leave the home without a parent or guardian except to attend school or work. The local Police Department is notified of the juvenile's specific House Arrest conditions. The juvenile and his/her family are informed any violation of the House Arrest conditions will result in the juvenile's arrest and possible return to the Youth Detention Center.

House Arrest A: Supervision is primarily the responsibility of the youth's parent/caregiver. Youth may leave the house to go to school, work, and all other approved activities with the company of a parent/caregiver. Detention Alternative staff shall conduct weekly face to face contacts and weekly phone contacts. There is not a program capacity in terms of the number of youth served. The expected average LOS on House Arrest A is 45-60 days.

House Arrest B:
House Arrest A plus daily random phone contacts and weekly face to face contacts conducted by Detention Alternative staff. Additional phone and face to face contacts may be ordered by the court. Up to 4 random calls per day -If youth is compliant, phone calls may be reduced over time. The total number of youth, to be served at a given time is 10. The expected average LOS on House Arrest B is 45 – 60 days.

Home Detention Program (HDP) is a detention alternative program utilized at the Judge's discretion. It affords the juvenile to be released from the detention center, under the supervision of the Home Detention Program Officer, to return home on an electronic monitor. The juvenile is monitored 24 hours a day through

an electronic monitoring bracelet. The juvenile is given “windows” of time which are pre-documented as specific timeframes he/she will be out of the home to attend school, organized sports, church etc.. The juvenile must be in their home at all other times. Special requests may be made to the HDP Officer for additional windows for family related functions. These additional timeframes are at the discretion of the HDP Officer. The juvenile’s behavior, attitude and level of supervision while exercising the “window” will all be deciding factors. A violation of the Home Detention Program could result in the immediate return of the juvenile to the detention center based on the severity of the violation.

Electronic Monitoring (EM) Expansion –GPS/Wireless EM

The goal of the Electronic Monitoring (EM) Expansion program is to provide electronic supervision that allows juveniles to remain in the community as opposed to being incarcerated in the youth detention center. Members of the Division of Juvenile Detention Alternatives will work extended hours, in addition to have staff available during traditional work hours, to install GPS/Wireless ankle units for juveniles deemed eligible by the court in lieu of secure detention. The Family Court Intake Officer utilizes the Risk Screening Tool to determine eligibility. Initially the youth is placed on a GPS unit and is required to attend a court hearing on the next business day, which at that time will have a wireless cellular ankle unit installed for electronic monitoring for approximately 3-5 days pending screening for placement on the traditional landline Home Detention EM program. In addition, the Juvenile Judge can utilize the GPS/Wireless ankle units whenever they deem necessary.

Community Outreach

The goal of community outreach is to increase the juvenile’s rate of success on the detention alternative programs. Community outreach addresses the challenges and barriers that hinder a youth’s ability to be compliant while on an alternative often resulting in a negative program discharge. Community outreach includes initiating face-to-face contacts and phone contacts, connecting families to community resources, troubleshooting any issues that arise with a youth and/or family while on a detention alternative, and regularly communicating with existing detention alternative and Family Court staff.

Inter-Agency Coordination Committee (IACC)

IACC is a multi-disciplinary team consisting of mental health professionals, educators, substance abuse professionals, Family Court personnel, Office of the Public Defender, Office of the Prosecutor, JJC Court Liaison, JJC Parole representative, Division of Child Protection and Permanency, Division of Juvenile Detention Alternatives representatives and community agency staff established for the purpose of ensuring that the Court receive multi-coordinated input in the course of developing dispositional options for juvenile offenders. IACC reviews all youth placed in the Youth Detention Center, who are at risk of placement, and juveniles on detention alternative status.

Youth Shelter Services

The Monmouth County Board of Chosen Freeholders through a shared services agreement with Middlesex County funds and operates youth shelter services for Monmouth County youth. The Department of Human Services, Division of Juvenile Detention Alternatives is the agency responsible for administering and monitoring shelter services provided for Monmouth County youth including but not limited to admission requirements, transportation and case management. Admissions for shelter care are approved by the Family Court Judge and through Family Court Intake. There are 2 male beds and 1 female bed reserved for Monmouth County youth. The purpose of the Middlesex shelter is to provide a safe and caring residential setting for male and female adolescents, thirteen to seventeen years of age. Youth with delinquency charges and/or youth in crisis can be placed in the shelter only upon direct authority of the Family Court.

The Middlesex County Youth Shelter is a non-secure facility used for the temporary out of home placement of juveniles by the Family Court, the Family Crisis Intervention Unit or the New Jersey Division of Child Protection and Permanency. Its residents include minor delinquent offenders, juveniles placed as a result of dysfunctional home environments, juveniles placed due to a family crisis, and juveniles placed due to victimization from abuse or neglect.

The Middlesex County Youth Shelter has been serving troubled adolescents and their families from Middlesex County for 25 years. Originally operated as a JINS shelter in New Brunswick, the facility moved to its present location on Route 130 in North Brunswick in 1985. It was expanded to a 24-bed Juvenile/Family Crisis Shelter at that time. The Shelter is operated by the Middlesex County Board of Freeholders and is administered by the Middlesex County Department of Youth Services. The Shelter is a direct supervision, non-secure facility that houses male and female youths through referrals from the Family Court, the Family Crisis Intervention Unit (FCIU) and the New Jersey Division of Child Protection and Permanency. The role of the Shelter is to provide a safe, structured environment that allows the child to prepare for and accept placement plans including family reunification, group home placement, residential and foster care placement or substance abuse treatment. The Middlesex County Youth Shelter telephone number is 732-297-8991 ext. 6260.

S.T.E.A.D.Y. –"Supportive, Transitional & Engaging Alternatives Developed for Youth"

Regarding "Transitions," given that youth on alternatives develop rapport and trusting relationships with DA Staff who also learn a lot about the youth and their families, DA Staff are in a natural position to bridge the gap between the youth's transition from the alternative and placement on probation. The continuous changes youth and families experience during this time of "transition" going in between DA staff and a probation officer can be viewed as confusing, overwhelming and lacking continuity. As such, a wrap-around team approach will be implemented and DA Staff will, if needed, assemble "team meetings" and

continue to have contact face-to face and via phone with youth and their families. The wrap-around, team meeting invites/encourages the members composing of the youth's support system to set goals, identify need areas and action steps along with developing a "Transition Discharge Plan" to be provided to the PO. This will help with communication among stakeholders, assist with linking youth/family with community-based services, and offers more stability for youth/families transitioning from the alternative program to probation in an effort to increase overall compliance on alternative and success of probation.

Monmouth County Human Services Department
Division of Mental Health and Addiction Services

Provides a comprehensive evaluation of youth, experiencing severe emotional and social difficulties referred by schools

Children's Inter-Agency Coordinating Councils
Children's Inter-Agency Coordinating Councils (CIACCs) are entities that foster cross-system service planning for children with behavioral health problems. CIACCs serve as the mechanism to develop and maintain a responsive, accessible and integrated system of care for children with special social and emotional needs and their families, through the involvement of parents, consumers, youth and child serving agencies as partners. Call (732) 431-7200 for more information about the Monmouth CIACC.

Social Service for the Homeless Contracts

The HSAC administers seven Social Services for the Homeless contracts for the time frame 1/1/19 through 12/31/19. Five of those serve homeless families or families who are at risk of homelessness, including children. Homeless prevention services include payment of rent, mortgage or utility arrears, and can include payment of a security deposit or first month's rent. Emergency housing can be placement in a shelter facility or motel.

Community Affairs & Resource Center - $152,359 SSH State*and $20,599 SSH TANF totaling $172,958.
Beatriz Oesterheld- 732-774-3282
Community Affairs & Resource Center has funding for homeless families and homeless prevention for those at risk.

Affordable Housing Alliance - $5,000 SSH State*
Peter Boynton - 732-414-7306
Affordable Housing Alliance has funding for emergency shelter for individuals who need placement after regular business hours or on weekends in cases where these individuals fail the test to gain entrance to the Adult Shelter.

Family Promise of Monmouth County - $81,080 SSH State and $18,920 SSH TANF totaling $100,000
Christine Carter-Love - 732-495-1050
Family Promise of Monmouth County provides shelter and support services to homeless families through a network of churches and their congregations.

180 Turning Lives Around - $67,500 SSH State*
Anna Diaz-White - 732-264-4360 x 4210
180 TLA operates the Monmouth County Domestic Violence Shelter. SSH money provides payment for emergency shelter for women with children who are not eligible for TANF.

Interfaith Neighbors - $265,000 SSH State* and $105,000 SSH TANF totaling $370,000
Maura Comer - 732-775-0525, ext. 205
Interfaith Neighbors has a short-term housing subsidy program which helps to prevent homelessness for families with children.

Navicore Solutions - $48,900 SSH State* and $19,350 SSH TANF totaling $68,250.
Kim Cole - 732-409-6281 ext. 80455
Navicore provides homeless prevention services for families at risk of homelessness.

Project Paul - $25,000 SSH State* and $25,000 SSH TANF totaling $50,000
Sal Cortale – 732-787-4887
Project Paul provides homeless prevention services for families at risk of homelessness.

Agencies marked with an asterisk (*) also provide services to single individuals and couples without children. The amount listed represents the approximate portion of their grant, which is spent on families with children.

The Back on Track Mentoring Program is designed as a diversion program and a referral resource for the Family Crisis Intervention Unit, Law Enforcement Station House Adjustments, Juvenile Conference Committees, Family Court Intake Service Conference & the Juvenile Referee. The Back on Track program includes group mentoring sessions for 15 referred youth, twice per month for a minimum of 3 months.

Mental Health Association of Monmouth County- Family Crisis Intervention Unit -$143,500.00 ($131,794 FCIU & $11,706 Family Court Services funds)
FCIU Crisis Clinicians -732-542-2444
Jessica Kostenblatt, Program Director- 732-542-6422 Ext. 111

$143,500 in FCIU /Family Court Services funds was awarded to the Mental Health Association of Monmouth County for the Family Crisis Intervention Unit, a 24 hour on-call service to approximately 350 juveniles and their families- Services are designed to stabilize family crisis, refer juveniles and their families to the appropriate community service and divert juveniles from entering the juvenile justice system. To divert cases involving juvenile/family crisis from the Juvenile Court through prevention, intervention, advocacy, counseling and appropriate linkage throughout the county to other community service providers. To provide families with the counseling, guidance and or referral assistance needed to stabilize the immediate juvenile family crisis. A comprehensive juvenile and family crisis response, stabilization, referral and or linkage service for each unduplicated family.

Mental Health Association of Monmouth County –Parent Child Conflict Resolution Program - Juvenile/Family Crisis Intervention Resource
$100,000.00 State Community Partnership Grant
Jessica Kostenblatt, Program Director 732-542-6422 Ext. 111

$100,000 of the State Community Partnership Grant was awarded to the Mental Health Association of Monmouth County to implement the Parent Child Conflict Resolution program that is designed to provide clinical case management services to 35 families in need of crisis stabilization in the home. The program is family focused and promotes empowerment that enables families to find and implement solutions outside of the court system. Through in home therapy, clinical case management and purchase of an array of services, MHAMC will provide youth with opportunities for skill building and improved self -awareness that also increases the likelihood of reaching their potential. Each youth/family shall receive services for an average of 4 -6 months; 16 weekly sessions with youth and /or family members. (1,225 direct service hours and 490 indirect service hours will be provided.)

Mental Health Association of Monmouth County –School Truancy Reduction & Diversion of Minor School Based Complaints to Juvenile Court Program
$65,000.00 State Community Partnership Grant
Jessica Kostenblatt, Program Director 732-542-6422 Ext. 111

$65,000 of the State Community Partnership Grant was awarded to the Mental Health Association of Monmouth County to implement early intervention services designed to improve student attendance and commitment to school and address school truancy and reduce chronic absenteeism. Youth who receive minor school based complaints will be identified and referred to the PASS program. Law enforcement and School Resource Officers may utilize the PASS program as part of a diversion approach. The program will serve 195 youth/families in Monmouth County. MHA will outreach to specific districts: Keansburg, Neptune, Long Branch and Asbury. The PASS Program (Prevent, Advocate, Support, Succeed) will consist of 6 group sessions within the school, for specifically identified youth that have a pattern of unauthorized absences and a history of delinquent behaviors. (200 direct service hours & 400 indirect service hours)

Monmouth County Division of Juvenile Detention Alternatives- S.T.E.A.D.Y. – "Supportive, Transitional, & Engaging Alternatives Developed for Youth"
$26,000 Juvenile Detention Alternatives Initiative (JDAI) Innovation Funds
Ivan Kaplan / 732-308-3770 ext. 3733

Innovations funds will be utilized to maintain the expansion of the detention alternative continuum to allow youth with 1st/2nd degree and black powder offenses access to the GPS program upon release from detention, based on the discretion of the Judge and to placement of youth on the GPS program via the

Risk Screening Tool - during the Detention Alternative Unit's extended, flexed-schedule hours of coverage (staggered between three staff in the unit). A portion of Innovation funds will go towards the Social Worker position and to enhance the youth and family engagement component of the alternative program continuum through the provision of youth/family incentives, organized pro-social activities/events and the coordination of team meetings. 'Transitions' will consist of "Team Meetings" (voluntary) with the youth, family, CMO, and other support persons - to help youth and their families identify needs, set goals and develop action steps to achieve same. Out of the Team Meetings, DA Staff will develop a "discharge plan" in preparation for youth departing the alternative and transitioning onto Probation. This approach is intended to improve continuity for the youth/family, increase communication between all system-involved parties, and increase the overall successful outcomes of youth. Transitional DA Supervision will be part of the GPS/EME alternative program, for youth with chronic offense histories placed on the GPS/EME alternative. Youth who participate in the transitional DA supervision component will be released from EME at the time of adjudication. However, if during the 60-90-day transitional DA supervision period, youth start struggling with compliance, then DA staff, upon notification to court, can sanction youth with short-term placement on GPS until compliance is gained. A moderate level of non-compliance for this specific population of youth is expected and DA staff will work to address in combination with probation before rising to the level of implementing sanctions. This component is aimed to reduce the number of youth who reoffend upon release from alternative.

Monmouth Vicinage- Family Division- Partners with Families Program
$56,800.00 Juvenile Detention Alternatives Initiative (JDAI) Innovation
Rosemarie Marinan-Gabriel, Family Division Manager - 732-677-4301

To implement a comprehensive, multi-prong approach to engage families of youth involved in the juvenile justice system. The goal is to effectively engage families in decisions about and services delivered to their children, support parents in their efforts to advocate for their children, and involve families in system reform efforts. Monmouth will continue to facilitate focus groups, surveys, and leadership development seminars with families and juvenile justice stakeholders on family empowerment, strengthening families, and respect for/understanding of families of all backgrounds; and the development of a parent support network where families become leaders in sharing information regarding the system and the legal rights of families. To hire a full-time Family Engagement Coordinator & Support Specialist to help facilitate parent advisory group meetings, implement court surveys, and promote leadership development activities of parents/guardians within targeted levels of the Juvenile Justice System. To provide peer-to-peer support to youth and families as they await their juvenile court hearings/proceedings. To provide topical seminars and learning sessions for parents/guardians of youth involved in the juvenile justice system in response to feedback and information gathered during parent advisory group

meetings. To promote communication between youth and families in juvenile detention & increase the success rate of youths in detention alternatives & on probation. To increase interactions and support for both youth on probation along with their parents/guardians through the training/coaching-up of Youth Peer Leaders to facilitate motivational interviewing sessions in conjunction with the Family Engagement Coordinator.

International Institute for Restorative Practices
Restorative Justice Training Series
$31,500.00 JDAI Innovation Funds
Julia Getty-610-807-9221

$31,500 of the 2019 JDAI IF was awarded to the International Institute for Restorative Practices (IIRP) to provide professional development training for the juvenile justice stakeholders of Monmouth County. IIRP will coordinate and facilitate restorative justice professional development training that includes an Introduction to Restorative Practices and Using Circles Effectively for Monmouth County's Juvenile Justice System stakeholders: including: Court, Probation, Prosecutor's Office, Juvenile Conference Committee point-persons and a select number of Juvenile Officers Association representatives from towns with increased youth arrest rates. The scope of the project is to establish a Monmouth County cohort of 45-50 juvenile justice stakeholders fully trained in facilitating restorative conferencing. In addition, the Agency agrees to license 12 Monmouth County professionals to train others in restorative conferencing. Five of the 12 professionals chosen to become licensed trainers will receive further training in proactive and preventative approaches in restorative practices and will comprise Monmouth County's Restorative Leadership Team.

Youth Advocate Programs, Inc. –Casey Life Skills and YAP WORX
$20,000.00 Family Court Services funds
Melissa Ortiz, Program Director- 732-503-3644

Monmouth County Prosecutor's Office

(732) 431-7160

Monmouth County Prosecutor's Office
132 Jerseyville Avenue, Freehold, New Jersey 07728
Phone: (732) 431-7160, Email: prosecutor@mcponj.org

The Monmouth County Prosecutor is the chief law enforcement officer in Monmouth County. Aided by a staff of assistant prosecutors, detectives and support personnel, the Prosecutor is charged with the detection, investigation, arrest, indictment and conviction of criminals who commit crimes within the jurisdiction of the County. To accomplish these tasks, the Prosecutor's Office is organized into several sections, including units that specialize in juvenile and domestic violence crimes, sex and child abuse crimes, gang facilitated crimes and narcotics crimes, among others. The Prosecutor's Office also has a Victim Witness Unit that is charged with providing services and assistance to crime victims and witnesses in an effort to ensure that their rights are protected, they receive timely and accurate information about their cases and are referred for appropriate and needed support services.

Monmouth County Child Advocacy Center
500 Kozloski Road, Freehold, New Jersey 07728
Phone: (732) 431-7160

Child Advocacy Centers are county-based centers that offer a multidisciplinary approach in providing comprehensive, culturally competent child abuse prevention, intervention and treatment services to children who are victims of child abuse or neglect. The Monmouth County Child Advocacy Center is a child-friendly facility where the professionals who respond to reports of child abuse coordinate their investigations and provide follow-up services. The Monmouth County Child Advocacy Center was funded through a public/private partnership combining federal, state and local government funds and private fundraising by The Friends of the Monmouth County Child Advocacy Center, Inc. The Center opened in 2009 and provides a location where the appropriate professionals from law enforcement, Division of Child Protection and Permanency, victim/witness advocates and others meet with the child and family and provide a safe, secure and comforting setting from the initial investigative phases of child abuse cases. The facility has expanded to provide space for medical and mental health treatment, and seeks to improve the coordination of the professionals who respond to reports of child abuse.

Monmouth County Special Needs Registry
www.MCSNRNJ.org
Phone: (732) 431-6400 ext. 1188

The Monmouth County Special Needs Registry is a voluntary service open to all citizens with special needs who reside, attend school or are employed in Monmouth County. The registry was created to help police officers and other emergency service personnel better assist residents with special needs in the event of an emergency by providing those first responders with vital information regarding a registrant's special needs, emergency contact information, physical description and current photograph of the registrant. The Monmouth County Special Needs Registry is a joint collaboration between the Monmouth County Prosecutor's Office, the Monmouth County Sheriff's Office and the Monmouth County Police Chiefs Association.

MONMOUTH COUNTY SHERIFF'S OFFICE

(732) 431-7139

SHAUN GOLDEN, SHERIFF

YOUTH PROGRAMS LISTING AND SYNOPSIS

To Schedule call: Kathy Morrison – 732-431-6400 Ex. 1122

1.) S.E.E.K. 9-1-1 - (Sheriff's Emergency Education for Kids) A program that teaches first graders how to properly use the 9-1-1 Emergency call feature on a telephone. Since inception, nearly 50,000 students have participated in the program.

2.) K-9 Demonstrations - Sheriff's Officer/K-9 teams provide an informative session on law enforcement canine training and, with their canine partner, demonstrate the capabilities of that particular specially trained canine team which, depending on availability on the date requested, may be a narcotics detection team, an explosive detection team, a patrol canine team or a bloodhound tracking team.

3.) Youth ID Program – Photo ID of child that **parents** carry with them. Should child become lost – parent presents the ID card to law enforcement authorities to help in describing the lost child.

4.) Dangers of Strangers! - Child safety program for grades K-5 on child safety in dealing with strangers and preventive measures that can be taken. Also offered in a bilingual version

5.) Bicycle Safety – Specially trained and certified sheriff's officers present safety talks to school children on the importance of safe driving procedures and wearing a bicycle helmet.

6.) Gang Awareness Program - Program for faculty and junior high and high school students on identifying gang membership within the school and neighborhood – based on information obtained within that geographical area.

7.) Sheriff's Prison Awareness Program - An innovative program for junior high and high school students to expose this impressionable group to the realities of incarceration and what is risked by unlawful behavior. The program also shows the discipline and training required of police officers with a tour of the

Police Academy, an overview of the Judicial Process with a tour of the Monmouth County Courthouse, and concludes with a tour of the Monmouth County Correctional Institution.

8.) High School Presentations – When requested, presentations are made at "career day" events and for social sciences/law classes about the history of the Office of Sheriff and the Monmouth County Sheriff's Office.

9.) Sheriff Youth Week - A one-week program to give high school-aged students an opportunity to experience law enforcement training first hand. Instructors from municipal, county, state and federal agencies conduct training through lectures and interactive sessions. Training conducted at the Monmouth County Police Academy. Dates are July 9-13, 2018.

10.) High School Presentation of Identity Theft - Identity theft is one of the fastest growing crimes in the county. This program discusses what identity theft is – how the criminals get your personal information and what YOU can do to keep from becoming a victim of ID theft.

11.) Distracted Driving - **Seconds that could change – or end – your life!** – A video-based program appropriate for high school students and adults on the dangers of distracted driving.

12.) Law Enforcement Mini-Academy – A six session course providing Monmouth and Ocean County high school students an opportunity to explore law enforcement as a possible career option. The Law Enforcement Mini-Academy is a partnership between Neptune High School and the Monmouth County Sheriff's Office. Dates to be announced

13.) Reach For Your Dreams – A drug, alcohol and gang prevention program for elementary grades six through eight that identifies and brings to schools individuals whom have made wrong choices in life, paid dearly for those choices, and have turned their lives around. They share with the students what those wrong choices were, the results of those wrong choices had on them and their families, and why the students should not make those kinds of choices.

14.) 5 to Drive Program - PowerPoint and video-based, teen safe driver program that highlights the top issues impacting teen drivers.

15.) Project Lifesaver – An electronic location detection program for seniors with memory disorders **and children with Autism** who may wander. This program is a partnership between the Monmouth County Office on Aging, Department of Human Services and the Monmouth County Sheriff's Office.

MONMOUTH VICINAGE

Family Division (732) 677- 4050
Juvenile Probation Supervision (732) 677- 4790

Juvenile Conference Committee(s)

Contact: Scott Prato, Senior Probation Officer Phone (732) 677-4090
Samantha Christie, Probation Officer Phone (732) 677-4091

Juvenile Conference Committees consists of volunteer members from the community, trained by court staff and appointed by the Presiding Judge of the Family Division to informally hear juvenile complaints referred by the Court. The Juvenile Conference Committees generally hear cases involving first time juvenile offenders. The Committee hears Petty Disorderly and Disorderly Person offenses, as well as, some 4th degree offenses. There is no adjudication or plea of guilt and there is no formal Court record that is generated. The juvenile must appear with a parent or guardian (if under the age of 18). The victim/ complainant and the police officer involved are invited to attend. The Committee makes a recommendation to the Court as to what sanctions would be appropriate based on the nature of the complaint. If the juvenile and parent/guardian agree, then they will sign an agreement and comply with any conditions within a specific time frame which is set by the Committee, but not to exceed 90 days. If there is an objection, then the case can be referred to the Juvenile Referee to be addressed.

Intake Service Conference is a form of Court diversion dealing with petty disorderly and disorderly persons offenses. Third (3rd) degree offenses, as well as some fourth (4th) degree offenses, can be addressed at this level with the approval of the Judge and the Prosecutor. The juvenile does not receive an adjudication or formal Court record at this level. This form of diversion is a step beyond the Juvenile Conference Committee and a level below the Juvenile Referee. A Probation Officer conducts the conference. A parent or guardian must appear with the juvenile and the complainant is invited to attend. An Intake Service Agreement is written up stipulating certain conditions the juvenile must satisfy. The case is held open for a period of thirty, sixty or ninety days. The time frame is at the discretion of the Probation Officer. The case is closed at the Probation Officer's request if all conditions are met within the set time frame. In cases of non-compliance, the case is placed on the Juvenile Referee's calendar.

Juvenile Referee Program allows an individual, other then a Superior Court Judge, to hear cases that would normally be scheduled for a counsel non-mandatory hearing before a Family Division Judge. In Monmouth County, the Presiding Judge of the Municipal Courts hears these cases. Typical cases may include: fourth degree offenses, disorderly and petty disorderly offenses, as well

as unsuccessful JCC/ISC diversions. The Referee may also hear repeat offenders that are no longer appropriate for diversion and violations of a court order which originated from a diversion or a prior Informal Court Proceeding. The Juvenile Referee will set certain conditions for the juvenile to meet and may include an informal or formal supervision period. The Juvenile along with their parent or guardian may appeal the Judge's recommendation and would then be scheduled to appear before a Superior Court Judge. It would be explained to the juvenile and their parent/guardian that they would be giving up their right to a diversionary process and if the juvenile is found guilty, may result in a formal court record.

Agency: National Association for Shoplifting Prevention
Program: **YOUTH EDUCATION SHOPLIFTING PROGRAM (Y.E.S.)**
Contact: Scott Prato, Senior Probation Officer Phone: (732) 677-4090
Samantha Christie, Probation Officer Phone (732) 677-4091

The Youth Education Shoplifting Program (Y.E.S.) is a 6 hour on-line course run by the NASP (National Association for Shoplifting Prevention) and is currently being utilized by 13 vicinages in New Jersey. The course is an "offense-specific" education program which helps juveniles identify their feelings, thoughts and attitudes which lead them to shoplift and helps them make better choices for themselves and their future. This interactive program was designed as a means of early intervention for juveniles to help prevent future appearances in the juvenile justice system. Moreover, it has been shown to be 98% effective in preventing juveniles from committing a second shoplifting offense. The program is a disposition used primarily by the diversion programs.

Agency: Office of the Fire Marshal
Program: **FIRE FLY**
Contact: Dean Stoppiello, Assistant Deputy Fire Marshall
Phone: (732) 683-8856 Fax: (732) 683-8864

The Fire Fly program provides education and counseling to juvenile fire setters. Juveniles referred by the County Investigator, JCC, ISC, Juvenile Referee, concerned parents or local police or fire department are interviewed by County Fire Marshals. The Program Coordinator and Staff Psychotherapist, who develop a course of action ranging from fire safety education to mental health counseling by professionals, provide an intake report for the Judge or diversion program which requested their intervention. It will include any concerns they may have for the juvenile's or the community's safety and their recommendation as to what provisions need to be put into place to avoid reoccurrences of this nature.

Agency: Monmouth Vicinage Family Court
Program: **PARENT EDUCATION PROGRAM**
Contact: Joanne McLaughlin, Admin. Specialist 4 (732) 677-4321
Sharon Astorino, Admin. Specialist 4 (732) 677-4295

Under the 1999 Parent Education Act, all parties in any divorce, nullity, or separate maintenance action, who have minor children, are required to attend a

parent education session. The goal is to promote cooperation between the parties and to assist parents in resolving issues which may arise during the divorce or separation process. Its main focus is to assist divorcing/separating parents in the reorganization of their family by helping them to understand the legal process, the financial needs of the family, and the emotional needs of their children and provide them with the resource tools for future use in a co-parenting relationship.

Agency: Monmouth Vicinage Family Court
Program: **"PARTNERS IN PARENTING"**
Contact: Sharon Astorino, Admin. Specialist 4 (732) 677-4295
The Monmouth Vicinage has established a Parent Education Program for parents involved in non-dissolution (FD) matters. The program will be similar to the FM Parent Education Program in that it will target parents who have new custody/parenting time matters before the Court. The Program will be administered by an Administrative Specialist, who will provide information to parents regarding the court process, the effects of separation on children, and the importance of co-parenting and effective parenting time plans. It is anticipated that by providing information to parents, similar to what is provided to FM clients, we will promote a climate of cooperation therefore improving the rate of consent orders and thus reducing the number of court referrals.

Juvenile Intense Supervision Program (JISP) JISP is a dispositional alternative utilized by the Judge when it is felt the juvenile requires more supervision then traditional Probation supervision offers. An Officer who is responsible for setting conditions and ensuring compliance monitors the juvenile. A juvenile on JISP can expect more frequent home and school visits then traditional probationers. If applicable, drug screening will also occur on a more frequent basis. Violation of any of the conditions set forth by the JISP Officer or program regulations will result in a violation being filed and violation hearing. The juvenile may be returned to the Detention Center and subsequently terminated from the program based on the severity of the violation.

Juvenile Supervision

Juvenile Supervision handles two types of Dockets: Deferred Disposition and Juvenile Probation Terms.

1. **Deferred Dispositions** are cases that are in Court and the disposition is deferred for up to 12 months. These cases are monitored for compliance only. Deferred Dispositions could have financial obligations, community service, drug testing, and counseling that need to be monitored. Deferred Dispositions that do not have any of the above conditions remain with the Family Division. Monitoring of the cases by Probation does not include reporting by the juvenile, unless to sign initial documents or for drug testing. If the conditions imposed by the Judge are not adhered to it may result in the matter being returned to court.

Deferred Terms that have met all the conditions imposed on the court order may result in the matter being dismissed at the end of the term.

2. **Juvenile Probation** is cases that the Judge has placed on probation status. These cases are supervised by the Probation Division's Juvenile Supervision Unit and assigned a probation officer according to area location, unless the offense necessitates assignment to a specialized caseload. During the initial intake phase (first 30 – 45 days), the juvenile is on close supervision and required to report once a week. A home visit is mandatory to verify the residence. A home inspection is necessary within the first 120 days, which encompasses the viewing of the juvenile's sleeping area and the common areas of the home. This may be completed at the time of the home visit. During intake, demographic information is verified, school enrollment, employment, etc.; the officer reviews the Conditions of Probation with the juvenile and parent, as well as other necessary paperwork. Once the intake phase is completed, the officer determines the juvenile's needs and may consider reducing reporting to bi-weekly. Face-to-face contacts are required. Home Visits may be conducted periodically throughout the term of probation. It should be understood that the Probation Officer enforces the Court Order and may impose additional conditions based upon the individual needs of the juvenile. If the Juvenile is non-compliant with any of the Conditions of Probation, it may result in the matter being returned to Court for a Violation of Probation.

Juvenile Parent Orientation Program

This is a program that the Monmouth County Juvenile Probation Division provides to juveniles and their parents who were recently placed on Probation. The program informs the juveniles and their parents what the probation expectations will be for the probation term. The juveniles and their parents are provided with Probation, Agency and Program contact information for Monmouth County. The program is offered once a month at the Freehold Office and once a month at the Ocean Township Office.

New Jersey Department of Children and Families
Division of Children's System of Care

The New Jersey Children's System of Care (CSOC) serves children and adolescents with emotional and behavioral health care challenges and their families; children with developmental and intellectual disabilities and their families; and, children with substance use challenges and their families. CSOC is committed to providing services based on the needs of the child and family in a family-centered, community-based environment.

Contracted Systems Administrator 1-877-652-7624

DCF provides families with a virtual single point of contact that registers; tracks and coordinates care for children who are screened at any level into the Children's System of Care. To provide this simplified access, DCF contracts with PerformCare, a private entity that administers this service system.

Functions of PerformCare:

1. Provides 24 hour assistance to help families get services.
2. Establishes access to same quality of services across the state.
3. Facilitates single way to pay providers regardless of whether a child is Medicaid eligible or not.
4. Tracks eligibility to ensure more children gain access to public health insurance.
5. Tracks eligibility to ensure New Jersey maximizes federal dollars.
6. Connects care across providers and levels for all children rather than just for children with the most severe disturbances.
7. Provides a systematic way to ensure children and their families receive appropriate treatment for an appropriate length of time while remaining as close to home as possible.
8. Keeps all child and family information in one record for all Children's System of Care.
9. Identifies the different intensity of services given by providers and assists DCF to adjust rates to reflect these differences.
10. Reports on effectiveness of services and child and family satisfaction, complaints and grievances.
11. Reviews children placed in psychiatric hospitals to assure appropriate discharge planning and after care services are in place so that children are linked to a community network of care.
12. Tracks and reports on a system of outcome measurements so that the state can determine and measure the improvements made by the Division of Children's System of Care.

MonmouthCares, Inc. - Care Management

Kathy Collins, Executive Director
Monmouth Cares, Inc.
185 Route 36, Suite B1
West Long Branch, NJ 07764
Phone: (732) 222-8008 x104
Fax: (732) 222-9305 WEB: www.monmouthcares.org
E-mail: kcollins@monmouthcares.org

Care Management Organizations (CMO's) are agencies that provide comprehensive coordination and support services to children with the most complex needs. They work with child-family teams to develop individualized service plans. The CMO's goals are to keep children in their homes, their schools and their communities.

The agency provides care management services for children and families with behavioral and emotional needs, in order to reduce further disruption in their lives. They use the Wraparound practice model to form a Child and Family Team to help the family develop an ISP (Individual Service Plan) for each child which addresses all of the family's life domains. The Care Managers coordinate services, explore community resources, support and advocate for the family until the family have substantially met their goals and can manage their own plan. There are flexible funds to support strategies where no other source of funding exists. Specific services are available to the Family Court to aid in planning for their youth. Youth with additional needs in substance abuse, or intellectual/developmental disability are also served. There is a Health and Wellness Team available for youth with serious and chronic health conditions.

There is no limit on the number of families served, and no limit on the length of time a family can be served. Families receive Care Management Services at no cost to them. There are 53 Care Managers who are supported by administrative and supervisory staff. There are Community Resource Development staff, who among other things, administer the MonmouthResourceNet, a comprehensive data base of community resources. (www.monmouthresourcenet.org)

The yearly budget for MonmouthCares, Inc. is $7,733,349 which includes Medicaid and NJ Department of Children and Families contract dollars. Referrals to MonmouthCares are arranged through PerformCare, the Contracted Systems Administrator (1-877-652-7624) for the Division of Children's System of Care. (CSOC)

Family Support Organization

Ann Goldman, Executive Director
Family Based Services Association of New Jersey

WEB SITE: www.fbsanj.org

Family Support Organizations are family-run agencies that provide direct parent support, education and advocacy skills to family members of children with emotional, behavioral, developmental and substance abuse challenges. Family Based Services Association of NJ, Inc. is an organization of families and community members whose mission is to ensure that every family who have children with these challenges needs is connected to community based resources and support. They serve families in collaboration with Monmouth Cares, Inc as well as through active warm line support. The FSO offers four weekly parent support groups and special event workshops. All support groups operate as part of the Parents Anonymous network. These workshops are offered at locations throughout Monmouth County in English and Spanish. They also run an active Youth Partnership program for Youth leaders who work to diminish stigma and challenge programs to include the Youth voice. Youth between 13 and 21 are invited to participate in the educational and recreational programming. The FSO has an annual budget of $783,000 awarded from the New Jersey Department of Children and Families, Division of Children's System of Care and gladly accepts community contributions.

Mobile Response and Stabilization Services

Danielle Gasperini, LCSW, Program Director
Children's Mobile Response and Stabilization Services
10 Industrial Way East
Eatontown, NJ 07724
Phone: 732-982-3911
Fax: 732-982-3155

Mobile Response and Stabilization Services are available 24 hours a day, seven days a week, to help children and youth who are experiencing emotional or behavioral crises. The services are designed to defuse an immediate crisis, keep children and their family safe, and maintain the children in their own homes or current living situation (such as a foster home, treatment home or group home) in the community. MRSS is available to children and youth who's escalating emotional or behavioral issues require timely interventions to prevent disruption of their current living arrangement, including out-of-home placement. Primarily,

the MRSS is a face-to-face delivery of service at the site of the escalating behavior, whether this is the child's home, a group home or another living arrangement, including resource and foster family homes. These services are focused, time limited, intensive, preventive and include behavioral and rehabilitative interventions designed to diffuse, mitigate and resolve a crisis. To access the services of Mobile Response and Stabilization Services call the Contracted Systems Administrator (CSA) 24 hours a day, 7 days a week at 1-877-652-7624. MRSS workers will work with the family/caretaker and the child/youth to diffuse the behavior, and develop an Individualized Crisis Plan. Stabilization services and community linkage are available up to 8 weeks. This program is funded by the Department of Children and Families: $463,482 for the period July 1, 2018-June 30, 2019, which includes $51,571 in Flex Funds.

CPC Therapeutic Community Homes and Residential Treatment Centers- $7,267,818 (July 1 to June 30) DCBHS Contract

Contact Marissa Silva

(732) 591-1750

CPC's **Therapeutic Community Homes** (TCH) program has provided therapeutic support, training and respite services to our families enabling them to make foster care a long-term endeavor. This unique support has allowed TCH families to work with the child's emotional disability, learning disability, or neurological impairment and give the child what he or she needs most -- a nurturing, loving environment. CPC's therapeutic foster care program helps children ranging from infancy through adolescence who would benefit by living with a family in the community. To guarantee that the child is placed in the best environment possible for his/her emotional growth, CPC recruits and trains foster parents, and provides crisis back-up services and respite time. CPC Behavioral Healthcare supports foster parents with:

- Training and 24-hour support/supervision by professional staff
- A clinician provides individual/family in-home counseling on a weekly basis
- A monthly tax-free stipend of $1,500 per child
- Periodic clothing allowances
- Five hours of respite care weekly
- Seven paid vacation days per year

CPC Behavioral Healthcare's **Residential Treatment Center** serves boys aged 11-14 who are referred by the Division of Child Protection and Permanency

(DCP&P) with a diagnostic mix that includes: mild DDD (IQ of 65+) and primarily behavioral, emotional and psychiatric disorders. The projected length of stay (LOS): 6-9 months.

(732) 650-0330
Life Skills Training Programs provide adolescents between the ages of 14 and 18 with training necessary for their successful transition from placement to independence. Adolescents in DCP&P paid placements on their 14th birthday are eligible for these services. Multicultural Community Services is contracted with to provide life skills training, focusing on such areas as employment, money management, community resources, communication, decision making, housing and education.

Aftercare Programs

Multicultural Community Services
Serving Monmouth County
(732) 650-0330
Multicultural Community Services provides intensive case management and supportive services to adolescents between 18 and 21 years of age. As part of the continuum of services for independent living, aftercare provides adolescents with assistance in obtaining meaningful employment, housing and post-secondary education. This program has access to flexible funds to enable the adolescents to gain the supports that will assist them in their transition to self-

sufficiency. In order for Aftercare to be effective, the youth must complete life skills training first.

New Hope Foundation, Inc.

Adolescent Residential Alcoholism and Drug Treatment

$1,183,060.00 (July 1 to June 30)
Contact: Dave Roden, Vice President
(732) 946-3030

The New Hope Foundation provides residential addiction treatment services for alcohol and other drug abusing adolescents, which approximates the American Society of Addiction Medicine (ASAM, PPC II-R) Level III.7: Medically Monitored High Intensity Residential/Inpatient Treatment. Any child with an open DCP&P case is eligible for these services. The DCP&P worker can access funding, which is approved by their supervisors. A "Certificate of Need" is done by a psychiatrist noting residential addiction treatment is warranted. A variable length of stay is utilized, so that youths are discharged when individual goals and objectives are met. New Hope Foundation, Inc. is considered an "Enhanced Dual Diagnosis" program (ASAM PPC II-R), as they offer integrated care by staff trained in assessment and treatment of co-occurring substance use disorders and mental illness and they provide on-site psychiatric services, in addition to comprehensive medical oversight (physicians and nursing staff).

Project Use

Life Skills Training / One-Day / Multi-Day Program

$76,326.00 (January 1 to December 31)
Contact: Michael Bagley
(732) 219-7300

Project USE is under contract with DCP&P whereby Project USE will provide adolescents referred to them by DCP&P Group Home, Residential Programs, District Offices and Adoption Resource Centers with an outdoor skill, adventure-education program. Activities are canoeing, cross country skiing, hiking, teambuilding, rope courses, intro to rock climbing, sailing, cave exploring, environmental education and group debriefing. The objectives of the program are building self-esteem, improving group skill, decision making and problem solving skills and leadership skills.

Robin's Nest, Inc.

Family Preservation / Crisis Care

$465,000 (January 1 to December 31)
Contact: Emily Kreyling
856-881-8689

Robin's Nest is under contract with DCP&P in Monmouth County to provide short term intensive psycho-educational services for families whose children are at risk of being removed or to help transition a child back into their home. Counselors provide 5 to 20 hours of in-home service per week for each family for up to 8 weeks. There is also a step down component which can be up to 9 additional months (3 month increments) as needed.

New Jersey Department of Children and Families
Division of Family and Community Partnerships

Early Childhood Services

Home Visitation (HV) Initiative

DCF's Home Visitation Initiative provides primary child abuse prevention and early intervention services. DCF funds three evidence-based home visiting models in Monmouth County. These voluntary HV programs provide ongoing health and parenting information, parent/family support, and links to essential health and social services during pregnancy, infancy, and early childhood. They are long-term services that provide frequent and regular visits to families from pregnancy until the child is age 2 or 3 (varies by model).

- Nurse-Family Partnership (NFP) – first-time pregnancy to age two
- Healthy Families (HF-TIP) – pregnancy/birth to age three
- Parents As Teachers (PAT) – pregnancy/birth to age three

Strengthening Families New Jersey (SFNJ)

Strengthening Families (SF) is an evidence-based approach that provides training and guidance to childcare providers, and in turn, engages and supports parents/families in infant/child care centers and family child care settings. Child Care Resource and Referral agencies in each county integrate SF principles in their work with local early care and education partners. SF training encompasses key strategies and practices that embrace five research-informed Protective Factors shown to prevent child abuse and neglect by building family strengths and nurturing parent-child relationships.

County Councils for Young Children

The County Council for Young Children (CCYC) was established to strengthen collaboration between parents, families, and local community stakeholders with

health, early care and education, family support, and other service providers. This shared leadership philosophy includes parents as active partners with service providers and community leaders helping to identify the needs, concerns, aspirations and successes of our collective efforts to positively impact the health, education and wellbeing of children from pregnancy/birth to age 8. VNA Health Group is the lead agency for the Council for Young Children in Monmouth County.

School Linked Services

School Based Youth Services Programs

The New Jersey School Based Youth Services Program (SBYSP) was initiated in 1987. SBYSP sites are open to all students, at no cost, who attend schools where the programs are located. Services are provided before, during, and after school. “One Stop Shopping” builds on the strength of youth and provides or connects them with what they need to succeed. Services include: Individual, Group and Family Counseling, Crisis Counseling, Substance Abuse Education, Pregnancy Prevention Education, Academic Support, Preventative Medical, Dental and Eye Care linkages, Recreational Events and Cultural Opportunities.

180 Turning Lives Around
"The 2NDFLOOR youth helpline gives young people a place to turn to before violence or tragedy occurs. It's important for kids to know that they can call about anything, anytime, anywhere." The youth helpline is available 24-hours a day, seven days a week to children and young adults ages 10-24. Youth can either call the helpline, 1-888-222-2228, or access the interactive Website **www.2NDFLOOR.org**. Calls to the 2NDFLOOR youth helpline are anonymous and confidential except in life-threatening situations.
Grant award: $626,000 (statewide program)

Family Support Services

Family Success Centers (FSC) are warm and welcoming, neighborhood-based gathering places that create home-like environments for community residents with the goal of strengthening families, providing family support, and the prevention of child abuse and neglect. There is at least one FSC in each of New Jersey's 21 counties. FSCs exist to assist families by providing free and voluntary prevention services that encourage family interaction, through workshops, activities, groups and linkages to services.

The purpose of the Family Success Center is to strengthen families and neighborhoods; develop networks of family services that result in preventing child abuse and neglect and fostering healthy families; reduce isolation and build connections within families, between families and to the community. The center will collaborate with partners in the community, including the families they serve, for guidance on what programs and services should be made available to help empower individuals to build strong families and be good parents. There is no cost to access, services provided by Family Success Centers. Some of the services include: employment, information and referral, parent education, health care, parent/child activities, home visiting, life skills training, advocacy and housing.

Office of Adolescent Services

Adolescent Resources

Life Skills Training

Life Skills Training offers instruction in daily living domains such as budgeting and financial management, communication, decision making, self-care, and housing. Assistance in obtaining a high school diploma, career exploration, vocational training, job placement, and job retention are also included. Case workers can refer adolescents, who are at least 14 years of age and in a DCP&P paid placement, for Life Skills training. If adolescents are in a DCP&P sponsored living arrangement or a congregate care setting, they may be receiving this training as part of their ongoing programming; if they are, then they need not be referred to the stand alone Life Skills training programs. There are only a limited number of Life Skills training slots contracted for in each county. **Middlesex/Monmouth Counties** Multicultural Community Services (732) 650-0330

Aftercare

The Aftercare agencies provide intensive case management and support services to young adults between the ages of 18 and 22. The Aftercare agency will begin working with the young adult prior to DCP&P closing the youth's case, and can continue to work with him or her after the case is closed with DCP&P. Aftercare provides the young adult with assistance in obtaining employment, housing and post-secondary education. These programs can also access flexible funds (wrap around funds) to enable the young adult to obtain the supports, which will assist them in transitioning from the child welfare system to self-sufficiency and stability. It is recommended that adolescents complete life skills training before being referred for this service. A young adult who has left Aftercare and is not yet 21 can return to the Aftercare agency for an additional short-term case management services, information, referral and wrap around funds.
Middlesex/Monmouth Counties- Multicultural Community Services
(732) 650-0330

Wraparound Funds

Wraparound Funds (also known as Chafee Funds) are flexible funding available for those adolescents in an independent living skills, aftercare, or transitional living program. The funds can be used to pay security deposits, up to four months' rent, purchase linens, furniture, driving lessons, or other items or services that will help the adolescent obtain independence. Eligible adolescents are as follows: • Age 16 to their 22nd birthday who are in an independent living skills or transitional living program • Age 18 to their 21st birthday who are in an aftercare program • Age 18 to their 21st birthday, who are no longer an open

DCP&P case or in an aftercare program, but were in a DCP&P placement on their 18th birthday Only independent living skills, aftercare, and supported hosing programs can make requests for the Wraparound Funds. A young person must work with one of these programs in order to access these funds. Should you have any further questions about Chafee funding, please contact the wraparound administrating agency for your county. **HUNTERDON· MERCER· MONMOUTH·OCEAN· SOMERSET** Catholic Charities "RAPS" (908) 782-7905

Housing Programs

DCF funds a number of supervised and supported transitional housing programs targeted to address the complex needs of homeless youth and youth transitioning out of the DCF system of care. These programs provide safe and stable housing with the ultimate goal of assisting youth to achieve self-sufficiency and a successful transition to adulthood. Youth are typically between the ages of 16 to 21 and often require life skills services, case management, and assistance with achieving educational and employment goals. DCF assists with the funding of approximately 300 supportive housing bed slots statewide. The Office of Adolescent Services (OAS) has partnered with PerformCare to provide a real-time bed tracking and referral process for all non-clinical adolescent transitional housing programs. The Adolescent Housing Hub ("The Hub") is an online reservation system that has been created for all Adolescent Transitional Housing Programs (non-CSOC). These housing programs include Supervised Transitional Living Programs (STLP), Transitional Living Programs (TLP), and Permanent Supportive Housing Programs (PSH). Sometimes these housing programs are also known as "Adolescent Housing Programs", "Independent Living Programs", or simply "Housing Programs". With the deployment of "The Hub" all adolescent housing/transitional programs will now be accessible to all DCF (DCP&P and CSOC) involved youth and youth that are homeless and non-DCF involved. Youth with developmental disabilities are not eligible for these transitional housing programs. A DCP&P worker, CSOC care manager, the youth, a DCF contracted housing provider or a youth advocate can call PerformCare at 1-877-652-7624 and press "4" to access "The Hub".

Youth Advisory Boards

DCP&P has county-based Youth Advisory Boards (YABs) throughout the state. Contracts were awarded to non-profit community agencies to host and coordinate each YAB. Through the YABs, teens and young adults have an opportunity to provide input and feedback on adolescent programming and policy to DCF management and staff. They are youth driven forums that strive to empower youth in foster care and homeless youth to successfully transition into adulthood upon leaving the DCF system of care. Youth develop and enhance their advocacy and leadership skills through public speaking, community service, training, interaction with positive role models, and having a voice in the policy, practice, and programming for DCF involved adolescents. Any adolescent in placement is eligible to become a member of their local Youth Advisory Board.

DCF staff and other advocates are encouraged to assist a youth they are working with to join and/or be aware of the activities of their local YAB.

Youth Partnerships

The Children's System of Care (CSOC) supports similar advocacy and peer leadership groups for young people who identify as having mental health challenges and/or receive services through CSOC. They are sponsored by their local Family Support Organizations in each county/region. The FSO contact information can be found at: http://www.state.nj.us/dcf/behavioral/help/family.html

Outreach To At-Risk Youth (OTARY)

The OTARY program is designed to prevent crime/juvenile delinquency and deter gang involvement by providing enhanced recreation, vocational, educational, outreach and/or supportive services to youth ages 13 to 18, with the option to serve youth until age 21. The programs are located in communities with demonstrated high crime and gang violence. These programs have a proven track record of making a difference in the lives of youth, including "at-risk" youth. The programs are open to youth regardless of their involvement with DCF.

Transitional Education Center

Transitional Education Center program is an alternative, year round educational program designed to meet the need of an array of "at risk" students. The mission of TEC program is to provide a comprehensive educational program which provides the at risk adolescent with the skills needed to create a positive life for themselves in order to promote their successful reintegration into future school, work and/or community endeavors. The program supports and encourages each student to earn a diploma from their local high school or to return to their local districts to complete their education. TEC serves students between 13 and 21 who have not completed high school. Accepts students placed by a Dept. of Children and Families agency or the courts. Accepts students referred by local school districts.

Project TEACH (Teen Education and Child Health) is an alternative, year-round education program for pregnant or parenting teens. Project TEACH serves students at risk of school failure.

The mission of the Project TEACH program is to provide a comprehensive educational program which provides pregnant and parenting adolescents with the skills needed to create a positive life for themselves and their children. The program strives to make sure that each student will receive a diploma from her local high school or return to their local school districts to complete their education. In any event, students do not leave the program until a support system is in place for them at home or in the community. Project TEACH serves students between 13 and 21 who have not completed high school. Accepts students referred by local school districts and placed by a Dept. of Children and Families agency or the court. Limits class size to no more than 12 girls at any one time. Provides specialized case management services to support pre and post natal linkages to community resources and transitional support. The Project TEACH licensed child care center provides on site care for infants 6 weeks to 2½ years of age.

New Jersey Department of Education
Monmouth County Office

PO BOX 1264

(732) 431-7810

The New Jersey Department of Education, Office of School Facilities and Finance indicate the Fiscal Year 2019 State School Aid excluding debt service for Monmouth County (Kindergarten through 12th grade) as $417,730,149.

The New Jersey Department of Education, Office of School Finance indicates the revised 2017 -2018 State School Aid excluding debt service for Monmouth County (Kindergarten through 12th grade) as $407,300,244.

Preschool Aid is provided to the following districts: Belmar, Bradley Beach, Freehold Boro, Highlands, Keansburg, Keyport, Long Branch, Neptune Twp., Red Bank, and Union Beach.

The NJDOE, through the Office of Grants Management (OGM) in collaboration with department program offices, is responsible for disseminating, primarily to school districts, federal and state funds for entitlement and discretionary grant programs. The available funds are allocated to support and enhance major educational initiatives throughout the state. The NJ DOE Office of Grants Management posts various grant opportunities such as the 21st Century Community Learning Centers Program Competitive Grant, the 21st Century Community Learning Centers Program Continuation Grant and the Family and Community Engagement Expansion Grant: Implementing the Dual Capacity-Building Framework for Family-School Partnerships on their website.

NJ DOE discretionary awards in 2017 in Monmouth County have included the following:

- Blended Early Learning Innovation Pilot-Continuation- Long Branch School District;
- Building Capacity for Career Pathways: A Pilot for Comprehensive High Schools-Competitive-Freehold Regional High School;
- CTE: Teacher Continuation-Alternative Route-Brookdale Community College

NJ Department of Education Office of Student Support Services
21st Century Community Learning Centers Program and Out-of-School Time Resources

The primary goal of the 21st CCLC Program is to supplement the education of children who attend low-performing schools and live in high-poverty areas with academic, artistic and cultural enrichment during out-of-school time hours, so that they may attain the skills necessary to meet state core curriculum content standards. In addition, the centers must offer literacy and other educational services to the families of the participating students.

The core services of a 21st CCLC program must be those services and/or activities that advance student achievement using the 12 program categories outlined in the federal guidance and be offered during out-of-school time hours. Out-of-school time programs should reflect a commitment to promoting knowledge, skills and understanding through enriching, hands-on and creative learning opportunities that do not extend, but complement the school day. The core services can fit into four main categories:

Academic Enrichment: Remedial education activities that provide additional assistance to students to allow them to improve their academic achievement; tutoring in core academic subjects such as mathematics and science education, etc. ; activities for students who are limited English proficient that emphasize their language skills and academic achievement.

Enrichment Activities and Recreation: Activities that complement students' academic learning by allowing students to engage in more creative activities such as art, music, dance, recreation and cultural activities.

Family Literacy and Enrichment Programs: Literacy and other educational services that assist parents and families of participating children in becoming full partners in the education of their children for increased parental involvement and positively impact the family members 'ability to engage in interactive literacy activities.

Support Services: Services that target drug, violence, and other youth prevention programs, and character education programs. Students and their families are linked to community outreach services and are provided with opportunities to engage in service learning activities and access to adult education resources.

Asbury Park Public Schools

CCLC Sites: Bradley Elementary School, Martin Luther King Jr. Middle School

Partners: Boys and Girls Club of Monmouth County

Collaborators: Kean University, Oiada International, Children Educational Assemblies, Second Life Bikes, Hot Sand Glass Blowing Studio and Prevention First

Serving Grade Level: 4 through 8

No. of Students to be served: 250

No. of Adults to be served: 150

Times of Services: Before-school 6:45-7:45 a.m., Afterschool: 2:45-5:45 p.m., Summer: 8-12 p.m.

The Asbury Park School District is implementing a 21st Century Community Learning Center program with a Science, Technology, Engineering, and Math (STEM) theme focused on improving math skills for all participating students. Asbury Park in partnership with the Boys and Girls Club will integrate math as one of the core components within the STEM program structure. The purpose of Asbury Park's 21st Century Community Learning Center is to respond to the needs and interests of students through the development of school-community partnerships offering safe places where children can explore their interests through structured, supervised, exciting activities. The main goal is to provide youth with access to STEM programs for the purpose of academic improvement, skill building, artistic expression, career exploration, and information empowerment. This project will compliment current programs for participating students that provide a range of high-quality services to support student learning including tutoring, mentoring, project-based activities, simulations, technology, and service learning opportunities. The program will reinforce drug/violence prevention, cultural, character education, self-management and career educational skills in an applied context. The center will also provide families with training and resources in nutrition, welfare, parenting, literacy, health, safety, substance and child abuse issues.

Serving Grade Level: 4-8

No. of Students to be Served: 420

No. of Adults to be Served: 40

Times of Services: Freehold Intermediate: 2:30 PM - 5:30 PM; Freehold Learning Center 3:00 PM - 6:00 PM; and Park Avenue Elementary: 3:00 PM - 6:00 PM; Summer: 8:00 AM - 12 Noon

The Freehold Borough Public Schools 21st CCLC Program enables us to increase students' academic achievements and social experiences by incorporating high-quality supplemental services in academic areas such as literacy and mathematics and enrichment activities in areas such as technology, music, art, cultural, recreation, drama, health and nutrition, and character education. Our students have a seamless transition from the school day to our program and, in fact, simply consider it the second part of the school day. The program strengthens and builds upon the partnership and collaborative relationships within the Freehold Borough community by giving the participating students and families access to all available resources through a coordinated service program. Through this program, we are able to meet the needs of our parents and families by offering workshops such as "ESL for Adults" and "Technology for Parents." To help bridge the language gap in our community, we also offer adult Spanish classes for our English speaking parents.

No. of Students to be Served: 120

No. of Adults to be Served: 40

Times of Services: Afterschool: 2:30 PM - 5:30 PM: Summer: 8:00 AM – 3:00 PM

The Keansburg School District, with the support of a diverse group of local collaborators, operates an afterschool and summer camp program at the Joseph R. Bolger Middle School. By focusing on the whole child, the Keansburg School District promotes the emotional, cognitive, physical, and cultural development of all children who attend. Students receive educational remediation in math and language arts, and enrichment in the areas of science, arts, guitar, nutrition, horticulture, and technology, through the alignment of project based lessons with New Jersey Core Content Curriculum Standards. Homework help is available to every child daily, and a homework link with school- day teachers is an additional tool to improve academic performance. Students participate in various recreational activities including organized sports, yoga, gardening, arts and crafts, and board games. High school students receive job training skills, and serve as mentors and program assistants. Character Education is infused into the program using the *Character Counts* curriculum. Community Service projects also give students the opportunity to build character and develop positive leadership skills.

Long Branch Public School District

Project Director: Kelly McOmber
350 Indiana Ave Rm 3010
Long Branch NJ, 07740
(732) 572-2868 EXT. 40090
Fax (732) 870-2763
kmcomber@longbranch.k12.nj.us

Servicing School District(s): Long Branch

CCLC Sites: Long Branch Middle School

Partners: Monmouth University, Long Branch Free Public Library, and Barnabas Health

Collaborators: Monmouth County Division of Workforce Development, Sodexo Food Services, the Long Branch Police Department, Count Basie Theatre, Barnes and Noble, Monmouth University, T&M Associates, Liberty Science Center, and local Executive Chef, Mr. Dominick Gudzak

Serving Grade Level: 4 through 5

No. of Students to be served: 302

No. of Adults to be served: 100

Times of Services: Afterschool: 3-6 p.m., Summer: 8:30 a.m.-12:30 p.m.

The Long Branch Public Schools will implement an innovative and engaging afterschool and summer program through the 21st Century Community Learning Center Grant. It will serve students 4th through 5th grade from the district's three elementary schools including: Amerigo A. Anastasia, Gregory, and George L. Catrambone School. Students from the schools will be transported at school dismissal by school bus to the Long Branch Middle School, where the 21st Century program will be hosted. This program will focus on preparing students for Middle School and beyond. The program will encompass an academic learning lab that will provide remediation and/or enrichment in math and English language arts, character education, physical education and nutrition, and learning activities that provide students time to explore and build upon their interests. Through a STEAM theme, students will enhance their knowledge in the areas of: science, technology, engineering, the arts, mathematics, civics, and college and career readiness.

This grant affords Long Branch multiple ways to enhance parent involvement. Parental activities included in the grant include: a parent and student orientation to the 21st century program, informational sessions for parents, parent workshops, family events, field trips, and the opportunity to participate in their children's weekly reflection.

The Long Branch District is confident that the 21st Century Program will have a positive impact on the students and parents participating in the program. By providing academic labs, engaging STEAM based clubs, addressing students' well-being, increasing the degree of parent involvement, and having collaborative partnerships; Long Branch can increase student achievement and help families live healthier lifestyles.

K.E.Y.S. ACADEMY -Knowledge Empowers Youth & Sobriety- A Recovery High School in Monmouth County- Matawan Aberdeen Regional School District in partnership with Brookdale Community College-Lincroft Campus and Right Your Life - a passionate group of community members.

Contact: Mrs. Jennise Nieves, Substance Awareness Coordinator (SAC)

The Recovery High School helps identified students facing many challenges and struggles upon their return to school after completing inpatient treatment and offers resources for relapse prevention programs to better support students. K.E.Y.S. Academy is the second school of its kind in the state. K.E.Y.S. mission is to provide a rigorous, innovative, and supportive learning environment to students diagnosed with a substance use or dependency disorder seeking a sober lifestyle. The Academy will focus on a blended learning model while integrating behavioral health services, multiple pathways to recovery models including the 12 step recovery model, and wellness programs thereby encouraging students to take ownership of their learning while building a recovery support team. Providing a multi-faceted education where the focus is recovery support will help students create a path forward for a lifetime. Early access to ongoing recovery support will give youth a better chance for successful recovery and the demonstration of academic capability will only strengthen a student's plan for a future that encourages higher education.

New Jersey Department of Human Services
Division of Mental Health and Addiction Services

609-292-5760 (Trenton)

Prevention First, a Division of Preferred Behavioral Health Group
Regional Coalition to Utilize Environmental Strategies to Achieve Population-Level Change
Liza DeJesus, Director of Prevention First
732-663-1800 ext. 2180
$202,000 January 1, 2019 through December 31, 2019

Prevention First was awarded $202,000 for training and implementation of Environmental Prevention Programs and Strategies for the Prevention Coalition of Monmouth County to address the following four priorities:

- Reduce underage drinking
- Reduce the use of illegal substances-with a special focus on the use of opiates among young adults 18-25 years of age
- Reduce prescription medication misuse across the lifespan
- Reduce the use of new and emerging drugs of abuse across the lifespan

Prevention First, a Division of Preferred Behavioral Health Group
Partnerships for Success (PFS)
Liza DeJesus Director of Prevention First
732-663-1800 ext. 2180
$96,288 (October 1, 2018 – September 30, 2019)

Prevention First was awarded $70,500 to support the Prevention Coalition of Monmouth County as well as strengthen its efforts of collaboration while it provides prevention education and other services to Monmouth County's Children's Inter-Agency Coordinating Council (CIACC) and continue its community-focused work to address underage drinking and marijuana use.

Prevention First, a Division of Preferred Behavioral Health Group
Outreach and Community Education for Young Athletes
Liza DeJesus Director of Prevention First
732-663-1800 ext. 2180
$96,288 (October 1, 2018 – September 30, 2019)

Prevention First was awarded $12,540 to enable the Prevention Coalition of Monmouth County (PCMC) to lead efforts in Monmouth County to implement a statewide initiative to raise awareness of the dangers of sharing medications.

The overall goal of this project is to reach stakeholders and youth to reduce opioid and other drug use among young athletes through a multi-prong, environmental, strategic approach.

Agreement with New Jersey Prevention Network through funding from the New Jersey Department of Health, Division of Community Health Services, Community Health and Wellness Unit, Office of Tobacco Control, Nutrition and Fitness

Prevention First, a Division of Preferred Behavioral Health Group
Community Prevention and Cessation Services for Youth Program

Liza DeJesus, Director of Prevention First
732-663-1800 ext. 2180
$20,000 October 1, 2018 to June 30, 2019

Through guidance from the New Jersey Prevention Network and the Tobacco Free for a Healthy NJ project Prevention Coalition of Monmouth County staff will lead efforts to implement a County Youth Tobacco Action Group in Monmouth County that will become an advocate for tobacco policies, actively engaged in tobacco prevention activities and that will carry out activities associated with an educational awareness campaign.

Training and implementation of evidenced based prevention programs for the Prevention Coalition of Monmouth County to reduce underage drug use and promote drug abuse free community norms within the communities of Asbury Park and Long Branch. Asbury Park and Long Branch will participate in media campaigns rewarding retailers for not selling substances to youth, alerting parents to the harms of youth substance abuse, supporting Student Random Drug Testing in the schools and consistently celebrating the youth in their communities. The goal of the coalition movement is to unite all community members to reduce substance use among youth and eventually among adults.

RWJ Barnabas -Institute for Prevention & Recovery
Tracy Gross, Director, Institute for Prevention and Recovery
RWJ Barnabas Health Institute for Prevention and Recovery |
442 Route 35 South | Eatontown, NJ 07724
732-236-1866 | * tracy.gross@rwjbh.org

RWJ Barnabas- Institute for Prevention & Recovery is implementing Communities that Care in Long Branch, a Peer Recovery Program in Monmouth, Tobacco Treatment in the county, SUN, substance use navigators and a case management grant.

The Greater Asbury Park Community Development Initiative

The GAPCDI is a collaborative organization that serves the Asbury Park/Neptune area and has a focus is to prevent juvenile crime and promote positive outcomes for youth. The Greater Asbury Park Community Development Initiative (GAPCDI) includes representatives from Community Based Organizations, Government Agencies, Faith Based Groups, Law Enforcement, Education, and interested community members. The Initiative provides a comprehensive, city wide coalition that enables all of these participating groups to communicate and coordinate with each other under the leadership of the Mayor and the Prosecutor's Office.

The CDI has three Working Groups: Youth Development - which includes education and out of school time - Public Safety – which includes addressing violence and the Police Chaplaincy Program - and Housing and Employment – which includes the Go for the Gold Program and access to safe, affordable housing. A Police Chaplaincy program places voluntary clergy on 24 hour call to respond to offer non-sectarian assistance to crime. The Go-for-the Gold Program has both in and out of school cohorts. It offers workshops, in which high school aged students learn skills such as resume-building, interviewing and customer service. Upon their successful completion, they receive a "gold card" to show to employers. The Go-for-the-Gold program has been successful in its previous years, and continues to be a state-wide example for employment training programs.

Juvenile Justice Commission

Please note that these programs can only be accessed through the Court and/or Juvenile Justice Commission staff referrals.

Juvenile Justice Commission -Residential Community Homes

Albert Elias Residential Community Home
West Burlington Street
P.O Box 479
Bordentown, NJ 08505
Superintendent: Furquan Sharif
609-324-3610
609-324-0955 (Fax)
Albert Elias Residential Community Home is host to the JJC's 'Work Readiness Program". The program accepts male residents who have achieved either a high school diploma or a General Equivalency Diploma (GED). Program participants are provided the basic work and life skills deemed necessary for employment. Participants develop occupational skills through structured learning opportunities such as work-based experiences, community service, and residential living. The goal of this specialized program is to enable participants to be successful in the workplace and community upon transitioning home. Up to twelve participants are employed at the Department of the Treasury-(Bureau of Special Services) BOSS warehouse facility. Monday through Friday participants work as furniture restorers, computer technicians, or assist with general warehouse needs. They earn an hourly rate and certifications relating to skill acquired in the warehouse setting. The remaining participants can work and/or attend classes allowing them to continue their education at institutions in the surrounding community and prepare to fill vacant positions at BOSS as they become available.

Costello Prep
800 Carranza Road
Tabernacle, NJ 08008
Superintendent: Ilissa Peterson
609- 268-1424
609-268-6527 (fax)
With a highly trained and dedicated staff, Costello Prep provides a supportive environment for a maximum of 35 adjudicated young men between the ages of 15 and 20 with substance abuse needs. Participants engage in high school and college level academic pursuits, job skills trainings, substance abuse treatment, and individual/group counseling. The residents of Costello Prep are also active members of the community and regularly participate in service projects in the local area and throughout New Jersey. Costello Prep prepares residents to

return to their communities as positive, contributing members. While at the program, the Juvenile Justice Commission's Office of Juvenile Parole and Transitional Services coordinates services for residents to ensure that upon release they return to school, locate employment, and receive necessary services.

D.O.V.E.S. Residential Community Home
188 Lindberg Road
Hopewell, NJ 08525
Supt. Kim Roselle
609-466-0740
609-466-4612 (fax)
The D.O.V.E.S Program (Developing Opportunities and Values through Education and Substance Abuse Treatment) serves juvenile females with behavioral and substance abuse problems. The program serves a maximum of 16 residents with 2 relapse beds. The relapse beds are specifically for those who have previously completed the program. The JJC utilizes gender specific programming that is designed to meet the unique needs of the female residents.

Northern Region Independent& Re-Entry Success Center
461-63 Central Avenue
Newark, NJ 07107
Superintendent: Darvin Bethea
973-648-7078/7082
973-648-6133 (fax)
The Success Center serves up to 25 males who have been paroled or have recently completed a residential community home as a probationer and who live in all counties north of Middlesex. A resident's stay can range from two weeks to forty five days. Each young person receives a myriad of services that are best suited to meet his release plan.

Green Residential Community Home
1311 Sloatsburg Rd.
Ringwood, NJ 07456
Superintendent: Joe Garba
973-962-4693
973-962-4525 (fax)
Green Residential Community Home is located in rural Passaic County on the grounds of Ringwood State Park. It is a residential facility for younger male juvenile offenders between the ages of 13-18. The center serves a maximum of 32 residents. The program's goal is to provide a safe, secure, and structured environment where program participants can learn to modify their behaviors and reactions. The staff acting as role models teach realistic goal setting and promote responsible decision making. The residents learn to adapt to change, accept accountability and develop self-discipline. In addition, residents perform daily community service work on the grounds of Ringwood State Park and Ringwood

Manor. The young men of Green RCH also provide assistance to the municipal government, ambulance corps, fire department, a local battered women's shelter and maintain one of the town's main roads through the Adopt-A-Road Program.

Ocean Residential Community Home
1 Game Farm Road
Forked River, NJ 08731
Superintendent: Bilal Muslim
609-693-5498
609-693-1854 (fax)
Ocean is a residential community home for juvenile offenders, with a focus on mental health treatment. Ocean provides services for males between 15 and 20 years old. The program is designed for male residents with a significant history of delinquency, coupled with emotional and behavioral concerns, and/or cognitive limitations that can present special vulnerabilities and required additional resources. A combination of the need areas may apply, and include but are not limited to the following: oppositional behavior, mental health, trauma, drug and alcohol abuse, and developmental and socialization needs. Educational, career and technical programs are integral components of the treatment experience.

Pinelands Residential Community Home
3016 Rt. 563
Chatsworth, NJ 08019
Superintendent: Kim Spencer-Hudgins
609-518-3080
609-726-9678 (fax)
Pinelands Residential Community Home provides residential treatment for 18 adolescent male sex offenders. The residents are between the ages of 14 and 18 at the time of entry to the program. Juveniles placed in the Pinelands Program are on a 3-year term of probation -- a minimum of 18 months for the residential phase of their treatment followed by 18 months of court-ordered aftercare supervision. The safety of residents and the community is a priority. Each juvenile's history and behavior are thoroughly examined during the classification process before he is accepted to this program. The program is committed to the treatment and education of this special population by trained staff, who are aware of the specific needs of these juveniles. An emphasis is placed on accepting responsibility for one's actions, developing a true sense of empathy for victims, and relapse prevention. The vocational program at Pinelands includes on-site woodworking and carpentry.

Southern Residential Community Home and Transitional Program
800 A Buffalo Avenue
Egg Harbor, NJ 08215
Superintendent: Bill Hudgins
609-965-5200
609-965-2640 (fax)

Southern Residential Community Home serves committed male youth from NJTS. The program is on average sixty days in length as residents atre preparing to enter in to a community residential home. The program strives to assist youth in building a better tomorrow by introducing the five key principles of respect, responsibility, accountability, determination, and good decision-making. Southern is committed to promoting academic, emotional, and social growth by providing students with a sound education, students may also qualify for GED testing.

Vineland Prep Academy
2000 Maple Avenue
Vineland, New Jersey 08361
Superintendent: Clinton Tilden
(856) 696-6624
(856) 696-6658 (fax)
Vineland Prep Academy is a residential community home that services up to 60 juvenile males identified with substance abuse and behavioral issues. The program is designed to promote responsibility, initiative and the development of healthy coping skills through a cognitively based social learning curriculum titled "New Freedoms". Vineland Prep teaches young people to gradually understand the impact that substance abuse has had on their past behaviors, their current circumstances, and subsequently, the lives around them. The program's career /technology educational component includes a Computer Lab, Culinary Arts, Career Education, and Horticulture/Landscaping. Vineland Prep Academy has a transitional living component as well.

Voorhees Residential Community Home
201 Rt. 513
Glen Gardner, NJ 08826
Superintendent: Mike Coyle
908-638-4625
908-638-4670 (Fax)
Voorhees Residential Community Home is located in Hunterdon County and serves a maximum of 27 residents. The youth at Voorhees RCH range in age from 15 to 20 years. In addition to classroom studies, the center provides vocational opportunities including carpentry, greenhouse management, landscaping, plumbing, and masonry. The students at Voorhees Residential regularly participate in various activities within the community as well as at Voorhees, Spruce Run and Hacklebarney State Parks,

Warren Residential Community Home
509 Brass Castle Road
Oxford, NJ 07863
Superintendent, Steve Redmond
908-453-2032
908-453-4234 (Fax)

Warren Residential Community Home is located in Warren County and has a maximum capacity of 30 residents. The youths placed at Warren Residential are JJC committed youth only serving a sentence between 30- 40 months excluding certain charges. The program is designed to intercede in the emotional, social and academic areas of each juvenile's life through individual treatment plans. Residents regularly participate in community service activities in the local community.

JUVENILE JUSTICE COMMISSION - SECURE FACILITIES

New Jersey Training School for Boys
P.O. Box 500
Grace Hill Road
Monroe Township, NJ 08831
Superintendent, Lionel Henderson
732-521-0030
732-521-1738 (Fax)
The New Jersey Training School (NJTS) is the Juvenile Justice Commission's largest facility currently housing approximately 200 male juveniles. It was opened in 1867 as a home for troubled youth. Today, NJTS is a secure facility with a state of the art perimeter fence and 24-hour armed roving patrol. Residents range in age from 12 to 23 years of age with the vast majority of Residents being 16 to 18 years old. The primary focus of NJTS is to provide care, treatment and custody for juveniles committed by the courts and to create programs that will rehabilitate young offenders. NJTS campus includes seven cottages that serve as housing units, a full-service school, a vocational building, recreation facilities, a medical facility and administrative offices. The Training School offers several unique vocational opportunities including an optical lab program which teaches juveniles to craft eyeglasses. NJTS supplies eyeglasses to all juvenile and adult residents in the state. Through this program, several youth have received jobs with optical employers after their release. Another program teaches juveniles to care for small farm animals. NJTS offers vocational programs in horticulture, equine science, and communications.

The Bordentown Campus

Juvenile Female Secure Care and Intake Facility
Hayes Building
P.O. Box 367
Burlington Street
Bordentown, NJ 08505
Superintendent: Antar Simmons
609-324-6341
609-324-6334 (Fax)
The Juvenile Female Secure Care and Intake Facility serves as the intake and secure care unit for all juvenile females sentenced to terms of incarceration in New Jersey. It is the only secure facility in the State that provides education,

treatment and custody for committed juvenile females. It is designed to hold 48 females with 8 single rooms that serve as detention cells. The primary function of the Female Secure Care and Intake Facility is to provide incentives and prepare the juvenile female for a less restrictive environment. The Commission strives to empower the juvenile females to live responsible, productive and law-abiding lives. The Secure Care Unit provides a gender specific, comprehensive, culturally diverse program to address the special needs of the juvenile female population. Programming components include a wide variety of academic instruction, physical fitness and health classes and vocational training including cosmetology and graphic arts.

Juvenile Medium Security Facility (JMSF)
P.O. BOX 307
Burlington Street
Bordentown, NJ 08505
Superintendent: Christian Nnajiofor, Ph.D
609-298-8222
609-324-6016 (Fax)
The Juvenile Medium Security Facility- North Compound is capable of serving 118 male juveniles. Two housing units are currently in use at this facility. The Therapeutic Unit addresses the unique needs of JJC youth with chronic and persistent mental health symptoms and/or disorders, who are also in need of secure care placement. Core staff members have been assigned to this unit, including custody offices, social workers, mental health clinicians, nurses, youth workers, substance abuse counselors, and certified teachers. This broad and diverse staff compilation provides the necessary expertise to care for this unique population. Core program components include on-site mental health counseling, education, social services, and primary medical care. Residents also receive individual and group counseling, as well as anger management and substance abuse. The Juvenile Medium Security Facility – North Compound also contains many educational amenities. It functions as the primary educational and vocational area for the male residents on the Johnstone Campus. The Juvenile Medium Security Facility – South Compound is separated into six pods, each accommodating up to 24 juveniles. The facility offers a full educational curriculum, recreation, and medical services. Residents at this facility also have access to the educational services that are offered in the North Compound.

Juvenile Justice Commission (JJC) Regional Reentry Program
The Youth Advocate Programs, Inc. - Regional Re-entry Program
Contact: Charles Teh Jr., Program Director, Mercer/Monmouth Youth Advocate Program -Office: 856-546-3701; Cell: 609-480-5652
The regional grant is $200k 1st year, $160 2nd year, and $120 3rd year.
Recidivism is a concern for youth leaving JJC facilities. YAP plans to offer interventions that begin during custody and continue through discharge and reintegration for 30 youth who are returning to their community from JJC facilities at any given time, for a total of 60 youth annually. Youth will receive at least 10

hours of service per week. YAP staff recognizes that family-based issues left unattended will threaten the juvenile's successful reentry. YAP will provide family strengthening services including case assessment and wraparound advocacy; employment training and supported work opportunities; educational/vocational support; and independent employment opportunities. Two (2) Case Managers will be provide and coordinate services for youth returning to Southern Region counties. The Case Managers will work closely with YAP's current Program Directors in each of the counties to identify, contact and develop referral relationships with the services and supports in their county that can address each youth's needs. The regional Case Managers and the county Program Directors will each work with the youth to provide services utilizing the YAP Wraparound Advocacy model of service with the evidence-based PATTS classes. Youth will also participate in work readiness training using the Casey Life Skills program and each Case Manager will work with the Program Director's current local employment partners and the One Stop Career Centers to place youth into jobs, training or internships based on their interests and readiness.

Other Resources

Catholic Charities Monmouth Counseling Program provides individual and family counseling for children with emotional and behavioral challenges. Psychiatric evaluation and medication monitoring is provided as an adjunct to counseling.

Catholic Charities Family Growth Program provides individual, family and group treatment for survivors of childhood abuse and trauma. Evidence based treatments are employed to address trauma symptoms, behavioral challenges in very young children, and problematic sexual behaviors in children and adolescents.

Red Bank Resource Network
103 Drs. James Parker Boulevard
Suite B
Red Bank, NJ 07701
Contact: (732) 383-5135
The Red Bank Resource Network located at 103 Drs. James Parker Boulevard, Suite B, in Red Bank offers a community walk-in center with information and referral specialists and licensed counselors. Red Bank Resource Network (RBRN) RBRN is a family-oriented community resource center providing linkages with health, social service, and counseling support for individuals and families impacted by trauma, such as super-storm Sandy or being a victim of crime. A complete business center is available for public use. RBRN is designated as a Certified Application Counselor Agency by the Center for Medicare and Medicaid Services, and assists Monmouth County residents with applying for health

insurance under the Affordable Care Act and NJ Family Care. Additional services and events are scheduled as identified through a coalition of stakeholders who serve on community and professional advisory boards to RBRN. Services are offered free of charge to the public in English and Spanish.

Rutgers Cooperative Extension of Monmouth County
4-H Youth Development Department
4000 Kozloski Road, PO Box 5033
Freehold, NJ 07728
(732)431-7263 phone
(732)409-4813 fax
The 4-H Youth Development Program of Rutgers Cooperative Extension of Monmouth County promotes positive life skill development through recreational and educational programs employing a “hands on learning” approach. The year round 4-H program is governmentally sponsored, receiving federal (United States Department of Agriculture); state (Rutgers University) and county (Monmouth County Board of Chosen Freeholders) funding. Due to this sponsorship, there is no charge for participation in 4-H clubs. 4-H is available to youth grades K-13 throughout Monmouth County, from all communities including rural, urban and suburban. 4-H services include clubs, after school programs, school enrichment programs, camps, special interest programs, independent projects, special events, and youth employment. 4-H clubs are led by trained 4-H volunteers who initiate clubs in their respective communities; volunteer recruitment for this club development is ongoing throughout the year. 4-H subject matter includes: citizenship and civic education, communication and expressive arts, consumer and family science, environmental education and earth sciences, healthy lifestyle education, personal development and leadership, plants and animals, and science and technology.

Fax: (732) 938-2850
uwmoc.org

United Way of Monmouth & Ocean Counties (UWMOC) recently completed a year-long strategic planning process that included the development of a new, regional organization mission, vision and community impact agenda. The four new focus areas of the community impact agenda are:

School Readiness
Increase the number of pre-kindergarten children who are academically, developmentally, and social-emotionally prepared to succeed when they enter school each year. Our goal in School Readiness is to ensure youth (birth through age 5) are healthy and academically, developmentally and social-emotionally prepared for Kindergarten and future success.

Early Grade Reading
Increase the number of students who are reading and succeeding by the end of third grade each year.

Youth Career Pathways
Increase the number of students who are prepared for career or college (self-sufficiency) after high school.

Financial Stability
Expand the number of households who increase their income and financial capability and stability. UWMOC will identify and partner with community organizations to expand access for households in Monmouth and Ocean counties to integrated financial stability services, education and outreach enabling them to build a pathway to financial stability. This focus area includes, but is not limited to, the following target populations: households in the Income Gap/ALICE population, Veterans, Seniors and People with Disabilities.

Early Grade Reading

These programs work to ensure that students are reading and succeeding by the end of 3rd grade by providing students' access to high-quality, holistic learning and enrichment activities throughout the summer to combat the "summer slide".
