

# Monmouth County Reclamation Center

## Why does it smell?

- Leachate seeps
- Slope cover maintenance
- Landfill Gas Collection and Control System
- Daily Cover
- RAIN, RAIN, RAIN

## What are we doing about it?

- Construction-Redirect Seeps
- Reconnected Landfill Gas Collection and Control System
- Changing Daily Cover
- Community notification- information for projects
- Town officials notified
- Flyers to nearby residences
- Hotline procedure clarified
- Work with Monmouth Regional Health Commission (Hotline: 732-493-9520)
- Reclamation Center Complaint Hotline: 732-922-2666
- Updates will be posted on [www.visitmonmouth.com](http://www.visitmonmouth.com)

### Intermediate actions: 4-6 months

- Expansion of Landfill Gas Collection and Control System
- Review potential for placement of additional intermediate heavy plastic cover membrane
- Evaluate misting system
- Continue to focus on permitting and construction of Phase 4 expansion which moves active landfill away from residential area

## When will it get better?

- Mitigation items are on-going
- Expected to show increasing results
- Additional gas wells to be initiated by March 15, 2019
- Final review of misting system by mid-February
- If approved as effective, could begin construction by April
- Review alternative deodorizers complete by February 15, 2019
